Lure For Feeling:

PROCESS AND REALITY ALFRED N. WHITEHEAD, 1929 **The Lure for Feeling** Mary Alice Wyman, 1960 **Lure for Feeling** Wyman, A Key to Whitehead's Process and Reality Alfred North Whitehead, 1981-09-15 Whitehead's magnum opus is as important as it is difficult. It is the only work in which his metaphysical ideas are stated systematically and completely and his metaphysics are the heart of his philosophical system as a whole. Sherburne has rearranged the text in a way designed to lead the student logically and coherently through the intricacies of the system without losing the vigor of Whitehead's often brilliant prose. The Key renders Process and Reality pedagogically accessible for the first time. *Journal of Religion* *Tragic Beauty in Whitehead and Japanese Aesthetics* Steve Odin, 2016-05-19 The present volume endeavors to make a contribution to contemporary Whitehead studies by clarifying his axiological process metaphysics including his theory of values, concept of aesthetic experience and doctrine of beauty along with his philosophy of art, literature and poetry. Moreover, it establishes an east-west dialogue focusing on how Alfred North Whitehead's process aesthetics can be clarified by the traditional Japanese Buddhist sense of evanescent beauty. As this east-west dialogue unfolds, it is shown that there are many striking points of convergence between Whitehead's process aesthetics and the traditional Japanese sense of beauty. However, the work especially focuses on two of Whitehead's aesthetic categories including the penumbral beauty of darkness and the tragic beauty of perishability while further demonstrating parallels with the two Japanese aesthetic categories of *yugen* and *aware*. It is clarified how both Whitehead and the Japanese tradition have articulated a poetics of evanescence that celebrates the transience of aesthetic experience and the ephemerality of beauty. Finally, it is argued that both Whitehead and Japanese tradition develop an aesthetics of beauty as perishability culminating in a religious aesthetic vision of tragic beauty and its reconciliation in the supreme ecstasy of peace or nirvana. **The Emergence of Whitehead's Metaphysics, 1925-1929** Lewis S. Ford, 1985-06-30 A breathtaking detective story, this book charts the adventure of Whitehead's ideas in a remarkably detailed and careful reconstruction of his metaphysical views. Incorporating heretofore unpublished material from students' notes and correspondence, Professor Ford analyzes the order of composition of various portions of Whitehead's books, principally *Science and the Modern World*, *Religion in the Making*, and *Process and Reality*. Ford's reconstructive method is perfectly tailored to his subject for Whitehead revised by inserting new material rather than altering or deleting the old. Thus Ford is able to date the sequence of the composition of many passages. In distinguishing these layers of articulation, he has pushed the techniques of higher criticism beyond anything the French structuralists and deconstructionists have dreamed of and chronicled an extraordinary intellectual biography. **Onflow** Ralph Jason Pred, 2005-02-25 Understanding consciousness by taking the stream of consciousness seriously: a general characterization of experience and a detailed description of experience from within, drawing on theories of William James, Alfred North Whitehead, John Searle, and Gerald Edelman. In *Onflow*, Ralph Pred supplies an account of the nature of consciousness that

grapples with the raw unverbilized stream of experience Unlike other recent philosophical accounts of consciousness Pred's analysis deals with the elusive and commonly neglected continuities in the stream of consciousness Pred offers a general characterization and analysis of experience as well as a highly detailed interpretation of experience from within Determined to make conceptual contact with the immediacy of actual experience Pred carries forward the radical empiricism pioneered by William James who coined the term stream of consciousness and draws on the process philosophy of Alfred North Whitehead To help readers apprehend the formation of conscious thoughts the intertwining of perception and action and the working of consciousness in onflowing experience Pred applies methods of analysis developed in John Searle's theory of intentionality to James's views thereby showing how intentional states are embedded in the stream of consciousness Then calling on Whitehead's treatment of lived moments as acts of experience Pred provides an account of consciousness that at once deals with conscious thoughts as they emerge from and function in embodied socialized experience and illustrates how language distorts our understanding of experience and subjectivity Finally he details striking parallels between this account and Gerald Edelman's biological theory of consciousness and in contrasting the two argues for a revitalized version of the experiential monism originally formulated by James

Thinking with Whitehead and the American Pragmatists Brian G. Henning, William T. Myers, Joseph D. John, 2015-04-16 Despite there being deep lines of convergence between the philosophies of Alfred North Whitehead C. S. Peirce William James John Dewey and other classical American philosophers it remains an open question whether Whitehead is a pragmatist and conversation between pragmatists and Whitehead scholars have been limited Indeed it is difficult to find an anthology of classical American philosophy that includes Whitehead's writings These camps began separately and so they remain This volume questions the wisdom of that separation exploring their connections both historical and in application The essays in this volume embody original and creative work by leading scholars that not only furthers the understanding of American philosophy but seeks to advance it by working at the intersection of experience and reality to incite novel and creative thought This exploration is long overdue Specific questions that are addressed are Is Whitehead a pragmatist What contrasts and affinities exist between American pragmatism and Whitehead's thought What new questions strategies and critiques emerge by juxtaposing their distinct perspectives

Perspective in Whitehead's Metaphysics Stephen David Ross, 1983-01-01 Stephen David Ross presents an extensive detailed and critical interpretation of Whitehead's mature thought emphasizing the fundamental role of perspective in Whitehead's cosmology and tracing the conflicts and difficulties therein to tensions involving perspective in relation to other central features of Whitehead's thought Ross isolates four principles as having a fundamental role in Whitehead's metaphysics perspective cosmology experience and mechanical analysis He argues that many of Whitehead's difficulties can be eliminated by raising the principle of perspective to prominence and by revising the other central features of Whitehead's theory accordingly This book addresses key Whiteheadian texts and secondary interpretations of Whitehead The discussion

ranges over most of Whitehead's theory in *Process and Reality* and offers a number of significant and in some cases novel views on different aspects of Whitehead's theory perception prehension causation objective immortality self causation the extensive continuum natural order possibility concreteness and God. Ross's concluding suggestions for modifying Whitehead's system promise to occasion much debate among process philosophers theologians and anyone concerned with Whitehead's thought

A Sleepwalker's Guide to Social Media Tony D. Sampson, 2020-07-09 Positioning online users as sleepwalkers Tony Sampson offers an original and compelling approach for understanding how social media platforms produce subjectivities. Drawing on a wide range of theorists including A. N. Whitehead and Gabriel Tarde he provides tools to track his sleepwalker through the dark refrain of social media a refrain that spreads through viral platform architectures with a staccato like repetition of shock events rumours conspiracy misinformation big lies search engine weaponization data voids populist strongmen immune system failures and far right hate speech. Sampson's sleepwalker is not a pre-programmed smartphone junkie but a conceptual personae intended to dodge capture by data doubles and lookalikes. Sleepwalkers are neither asleep nor wide awake they are a liminal experimentation in collective mimicry and self-other relationality. Their purpose is to stir up a new kind of community that emerges from the potentialities of revolutionary contagion. At a time in which social media is influencing more people than ever *A Sleepwalker's Guide to Social Media* is an important reference for students and scholars of media theory digital media and social media

Reconstruction of Thinking Robert Cummings Neville, 1981-06-30 The Renaissance development of science fulfilled the ancient ideal of integrating quantitative and qualitative thinking but failed to recognize valuational thinking and thus deprived moral aesthetic and political thought of cognitive status The task of this book is to reconstruct the concept of thinking in order to exhibit valuation not reason as the foundation for thinking and to integrate valuational with quantitative and qualitative modes Part I explains the broad thesis interpreting the problem of the foundations for thinking and providing a general theory of value Part II explains the role of valuation at the imaginative level of thinking with discussions of synthesis perception form and art The method of reconstruction requires a cosmology that is generated in successive waves
