Lutyens Country Houses:

Sir Edwin Lutyens Daniel O'Neill, 1980 *Edwin Lutyens* Gavin Stamp, 2001 Presenting a stunning collection of the architectural designs of Edward Lutyens throughout the many phases of his acclaimed career this beautifully presented study includes examples of his Surrey vernacular style early arts and crafts houses and his carefully composed classical houses

The Architecture of Sir Edwin Lutyens: Country-houses Arthur Stanley George Butler, 1984 Edwin Lutyens Gavin Stamp, 2001 Edwin Lutyens 1869 1944 perhaps the greatest British architect of the twentieth century was introduced by garden designer Gertrude Jekyll his celebrated collaborator to Edward Hudson the founder of the great British magazine *Country Life* in 1889 Hudson thereafter did all he could to promote the work of a man he admired without reservation commissioning Lutyens to design the magazine's offices in Covent Garden in 1904 as well as three country houses *Country Life* published articles about virtually all his buildings shortly after their completion recording them as the architect intended creating an unparalleled visual archive which is the source for this selection of outstanding photographs of Lutyens's domestic architecture Gavin Stamp's authoritative introduction places Lutyens firmly among the giants of architecture an architect of rare genius and humanity His selection of twenty two houses representative of all the phases of Lutyens's career illustrates the architect's dual achievements as a renewer of both vernacular tradition and of the Classical language of architecture Debate continues about Lutyens's place in modern architecture but his legacy of some of the most inventive and romantic examples of British domestic architecture is unquestionable There are superb examples of his Surrey vernacular style with its gables timber and sweeping planes of tiled roof such as Fulbrook House one of his earliest masterpieces Deanery Garden designed with the garden in mind for Hudson early Arts and Crafts houses such as Goddards and Little Thakeham his carefully composed Classical houses such as Heathcote and his grandest country house of all Middleton Park built between the two World Wars Here too are examples of his brilliant enlargements and alterations to existing buildings such as Lindisfarne Castle and his creation of the epitome of castle style Castle Drogo This pictorial survey culminates in Lutyens's most famous creation Viceroy's House in New Delhi one of the greatest buildings in the world Founded in 1897 *Country Life* from the outset published remarkable photographs and the huge influence the magazine exerted was nowhere more apparent than in its unprecedented championship of Edwin Lutyens whose buildings it promoted for almost fifty years For this book two hundred photographs have been beautifully reproduced from the *Country Life* archive and combined with Gavin Stamp's illuminating essay provide a unique survey of one of Britain's foremost architects *Houses and Gardens by Sir Edwin Lutyens*, R.A. Lutyens, 1925 *The Architecture of Sir Edwin Lutyens* A.S.G. Butler, 2023-04-28 The quality of the reprint is nearly perfect with a good selection of papers for the three sequential parts of the book the texts the drawings and the black and white photographs Text and drawings are on matte heavyweight pages while the photos are on glossy paper The inks make everything read well in particular the drawing reproductions are exquisite Archidose Edwin Lutyens one of

the most famous architectural names of the 20th century died in 1944 As a memorial three large volumes of his drawings and photographs were commissioned from the thousands found in his office and were published by Country Life All three volumes will be republished in 2023 The first volume contains his own plans elevations and copious details of the finest examples of his domestic buildings on which his huge reputation principally rests The book embodies the quintessence of the man and his work the variety of style and design seen in the houses brings together in one volume the many strands of Lutyens's fertile mind Two further volumes will include his corporate and public buildings The genius of Lutyens is now universally recognized In the work featured in this book we can now see not just the professionalism of a great architect but also the loving care with which he set down the most minute detail with the result that this is one of the few books in existence that can be used to provide working drawings

Lutyens Houses and Gardens Lawrence Weaver, 1921 How the Country House Became English Stephanie Barczewski, 2023-07-22 The story of how the country house historically a site of violent disruption came to symbolize English stability during the eighteenth century Country houses are quintessentially English not only architecturally but also in that they embody national values of continuity and insularity The English country house however has more often been the site of violent disruption than continuous peace So how is it that the country house came to represent an uncomplicated nostalgic vision of English history This book explores the evolution of the country house beginning with the Reformation and Civil War and shows how the political events of the eighteenth century which culminated in the reaction against the French Revolution led to country houses being recast as symbols of England's political stability
