## Lw 2006 Deadly Night:

**Women, Gender and Radical Religion in Early Modern Europe** Sylvia Brown, 2007-11-30 This collection of twelve new essays explores the role of women and gender in a broad range of radical religious movements of the post Reformation. Organized into three themed divisions the first examines the activism of female Quakers in their public performances as preachers and petitioners in their global travels and in their domestic lives the second examines early modern prophetesses and their radical revisions of scripture gender body and voice and the third concerns women who in diverse ways crossed boundaries including the confessional boundaries of Europe. A strength of this volume is its comparative re-examination of the term radical. German Anabaptists are discussed alongside unorthodox nuns with the aim of understanding how gender factors into innovative and oppositional religion. Contributors include Sarah Apetrei Naomi Baker Sylvia Brown Ruth Connolly Pamela Ellis Jos Manuel Gonz lez Julie Hirst Stephen A Kent Marion Kobelt Groch Bo Karen Lee Kirilka Stavreva and Sheila Wright. *Networks, Regions and Nations* Robert Stein, Judith Pollmann, 2010 This volume offers a fascinating insight into the continuities and discontinuities in the formation of identities in the Low Countries and its neighbouring countries. It is an important contribution to the ongoing debates about national and other identities. **Wandering Women and Holy Matrons** Leigh Ann Craig, 2009 This book explores women's experiences of pilgrimage in Latin Christendom between 1300 and 1500 C.E. Later medieval authors harbored grave doubts about women's mobility literary images of mobile women commonly accused them of lust pride greed and deceit. Yet real women commonly engaged in pilgrimage in a variety of forms both physical and spiritual voluntary and compulsory and to locations nearby and distant. Acting within both practical and social constraints such women helped to construct more positive interpretations of their desire to travel and of their experiences as pilgrims. Regardless of how their travel was interpreted those women who succeeded in becoming pilgrims offer us a rare glimpse of ordinary women taking on extraordinary religious and social authority. *The Primacy of the Postils* John M. Frymire, 2009-12-23 Scholarship on the German Reformation has long equated preaching with Protestantism just as many scholars have employed sermons but usually in supplemental and unsystematic ways. Based on an analysis of over 400 standard sermon collections postils produced by Catholics Lutherans and Calvinists 1520-1620 this study offers the first comprehensive systematic presentation of these works from a cross-confessional perspective. It lays to rest the notion that preaching was somehow distinctively Protestant while tracing the creation production use and censorship of postils. These sermon collections were nothing less than the applied distillation of Christianity delivered on a regular basis by the clergy to the laity and as such the most important vehicle for the dissemination of ideas in early modern Germany. *The Empire of the Cities* Aurelio Espinosa, 2009 This study of the Spanish monarchy bureaucracy and representative government under Charles V before and after the comunero revolt 1520-1521 demonstrates how the emperor and Castilian republics institutionalized management procedures that promoted accountability advanced a meritocracy and facilitated expansionism.

and domestic stability      **Gemeindeordnung und Kirchengzucht: Johannes a Lascos Kirchenordnung für London (1555) und die reformierte Konfessionsbildung** Judith Becker, 2007-06-30 This study describes the origins of early Reformed confessional development using the example of those congregations of religious refugees most heavily influenced by John Laski the congregation at Emden and the Dutch and French Strangers Churches in London At its center are questions about the congregation as the location of ecclesiology The outlines of Laski s theology which viewed the congregation as the communion of the body of Christ are described in comparison to the approaches of other Reformers and in relationship to daily reality in the second half of the sixteenth century Working from a rich base of source materials the author discusses the development of teachings on church offices and the practice of church discipline thus illuminating the self understanding of the three congregations Becker shows how reciprocal influences and attempts to conform led to the unification of doctrine and community life within these congregations      **Between Sardis and Philadelphia: The Life and World of Pietist Court Preacher Conrad Bröske** Douglas Shantz, 2008-09-30 This study examines the life and world of Conrad Bröske 1660 1713 Court Preacher in Offenbach Mayn His claim to fame lies in a ten year period between 1694 and 1704 in which this Marburg trained pastor became a prolific author polemicist and promoter of chiliastic writings thanks to a meeting with Thomas Beverley in 1693 and the baptism of a Muslim convert in 1694 Bröske lived a complex existence between Sardis and Philadelphia as a Reformed court preacher and Philadelphian chiliast His two sided experience was actually the norm among the Pietists including so called radicals Life between paradigms was the German way of being radical in early modern times due to a lack of religious toleration compared to England and the Netherlands Bröske s story belongs to the rise of Early Evangelicalism that W R Ward has recently discussed      *Queen's Apprentice* Joseph F. Patrouch, 2010 This study seeks to examine a number of themes relating to the roles of the women s court of the central European Habsburgs These include its role in helping consolidate their holdings in central Europe and the Holy Roman Empire and structure their relations with the rest of Europe      Christian Humanism A. Alasdair A. MacDonald, Zweder R. W. M. von Martels, Jan Riepke Veenstra, 2009 It is a misconception that Christianity and Humanism are in any way in conflict with each other The present book shows that through many centuries and especially in the Renaissance the two stood in a relation that was mutually complementary The contributions in this volume treat aspects and manifestations of this cultural symbiosis and they throw new light on authors and texts both more and less familiar The subject areas discussed include religion history philosophy literature and education The age of Renaissance and Reformation is the central focus but earlier and later periods are also featured The contributions comprise a Festschrift for Professor Arjo Vanderjagt whose work deals centrally with both Christianity and Humanism Contributors are Fokke Akkerman István P. The unity of the early Lutheran reformation even in the central themes such as justification is still an open question This study examines the development of the doctrine of justification in the works of the prominent first and second generation Lutheran reformers from the viewpoints of divine participation and effectivity of justification Generally Luther s idea of Christ s real presence in the believer as the central part of justification is maintained and taught by all Reformers while they simultaneously develop various theological frameworks to depict the nature of participation However in some cases these developed models are contradictory which causes tension between theologians resulting in the invention of new doctrinal formulations      **Politics and Reformations: Histories and Reformations** ,2007-09-30

**Martin Bucer Briefwechsel/Correspondance: Band VII (Oktober 1531 - März 1532)** Berndt Hamm, Reinhold Friedrich, Wolfgang Simon, 2008-10-31 Unlike most theologians of his age Martin Bucer proved to be farsighted with respect to European affairs In addition to his contacts within Alsace and Germany he established relations with almost every European country It was his ecumenical attitude that always led him to mediate between the parties in the religious battles of his time His deep commitment to the goal of reaching agreement can be traced in all his activities works and letters Since the first editor Jean Rott Strasbourg died in 1998 Bucer's correspondence has been edited in Erlangen This academic edition of source material provides future research with a broad basis for significant aspects of Reformation history about which very little is known Volume VII covers the period from October 1531 to March 1532

potential source of the Defensor pacis      *Direito Ambiental* Rômulo Sampaio, 2011-12-06 O formato deste livro não é de um manual clássico de direito a segmentar o direito ambiental por doutrinas e conceituações descontextualizadas. Ele traz uma introdução, o conceito, a forma, o evoluir, o desenvolvimento e consolidação do Direito Ambiental no Brasil, incluindo uma criteriosa seleção de leis, textos doutrinários, tratados internacionais, dentre outros materiais relevantes para a discussão apresentada para cada tópico. Mas não se restringe aos limites estritos da análise dogmática da teoria do direito, leis e julgados. A obra introduz ao debate teorias desenvolvidas por outras áreas do conhecimento. Com isso, torna possível relacionar o Direito Ambiental com os diferentes contextos históricos do seu processo de formação e possibilita a inserção de elementos de outras disciplinas, sociais, econômicas e até mesmo naturais, para dialogar com conceitos e análises jurídicas extraídas dos principais textos normativos e interpretações dogmáticas já produzidas sobre a matéria.      **Mammalogy** George A. Feldhamer, 2007-09-07 The Class

Mammalia is amazingly diverse ranging from whales to marsupials to bats to primates. The more than 5 400 species occupy many habitats with mammals present on all the continents. They are rare only on Antarctica and a few isolated islands. Mammals present a complex set of conservation and management issues. Some species have become more numerous with the rise of human populations while others have been extirpated or nearly so such as the Caribbean monk seal, the thylacine, the Chinese river dolphin and the Pyrenean ibex. In this new edition of their classic textbook, George A. Feldhamer and his colleagues cover the many aspects of mammalogy. Thoroughly revised and updated, this edition includes treatments of the most recent significant findings in ordinal level mammalian phylogeny and taxonomy, special topics such as parasites and diseases, conservation and domesticated mammals, interrelationships between mammalian structure and function, and the latest molecular techniques used to study mammals. Instructors: email mammalogy.press@jhu.edu for a free instructor resource disc containing all 510 illustrations printed in *Mammalogy: Adaptation, Diversity, Ecology*, third edition.
