Pläne** W. Koner,1854 Poussin and France Todd Olson,Nicolas Poussin,2002-01-01 Nicolas Poussin perhaps the most famous French painter of the seventeenth century lived and worked for many years in Rome Yet he remained deeply engaged with cultural and political transformations occurring in France argues Todd R Olson in this original exploration of Poussin s paintings their production and their reception Poussin s references to ancient literature and sculpture addressed a political elite the Robe nobility whose humanist education in classical antiquity equipped them to relate Greek and Roman history to contemporary events and to deploy ancient precedents in legalistic and political arguments When the French civil war known as the Fronde erupted in the middle of the seventeenth century the paintings that Poussin exported to France responded directly in both subject and style to the crisis in monarchical authority and the disenfranchisement of his Robe patrons Olson demonstrates that Poussin s association with a disgraced political group his loss of official support and his exile in Italy imbued his history paintings with a symbolic weight The painter s audience considered the hardearned pleasures of his restrained difficult pictorial style a benchmark of integrity as well as a criticism of the Regency s indiscriminate collecting practices and taste for foreign luxury Poussin transformed the easel painting its making and collection into an expression of cultural and political commitments binding a community Olson s fresh insights reveal the importance of this painter s work to a learned and powerful French constituency at a critical moment in French history and demonstrate that Poussin s famously timeless style was far more responsive to historical contingencies than has been previously recognized **Commercial Networks and European Cities, 1400-1800** Andrea Caracausi,Christof Jeggle,2015-10-06 Merchant networks generated trade and the exchange of goods between the cities of early modern Europe This collection of essays analyses these commercial networks focusing on the roles of kinship origin religion and business in creating and maintaining urban economies *Catalogue of Printed Books* British Museum,1885 Miscellaneous Publication ,1961 *The Geological Record* William Whitaker,William Herbert Dalton,William Topley,Charles Davies Sherborn,1887 **The Geological Record** ,1887 A list of publications on geology mineralogy and palaeontology *Catalogue of the Library of the Arnold Arboretum of Harvard University* Arnold Arboretum.
