Lyotard Just Education:

Lyotard Pradeep Dhillon, Paul Standish, 2006-04-14 Following Lyotard's death in 1998 this book provides an exploration of the recurrent theme of education in his work It brings to a wider audience the significance of a body of thought about education that is subtle profound and still largely unexplored This book also makes an important contribution to contemporary debates on postmodernism and education *1st International Conference on Lifelong Education and Leadership for ALL-ICLEL 2015* Assoc. Prof. Dr. Osman TİTREK, Ress. Asst. Gözed Sezen Gültekin, Dr. Subhan EKŞİOĞLU, Asst. Prof. Dr. Demet ZAFER GÜNEŞ, Asst. Palmer Cooper, 2016-05-20 The Routledge Encyclopaedia of Educational Thinkers comprises 128 essays by leading scholars analysing the most important influential innovative and interesting thinkers on education of all time Each of the chronologically arranged entries explores why a particular thinker is significant for those who study education and explores the social historical and political contexts in which the thinker worked Ranging from Confucius and Montessori to Dewey and Edward de Bono the entries form concise accessible summaries of the greatest or most influential educational thinkers of past and present times Each essay includes the following features concise biographical information on the individual an outline of the individual's key achievements and activities an assessment of their impact and influence a list of their major writings suggested further reading Carefully brought together to present a balance of gender and geographical contexts as well as areas of thought and work in the broad field of education this substantial volume provides a unique history and overview of figures who have shaped education and educational thinking throughout the world Combining and building upon two internationally renowned volumes this collection is deliberately broad in scope crossing centuries boundaries and disciplines The Encyclopaedia therefore provides a perfect introduction to the huge range and diversity of educational thought Offering an accessible means of understanding the emergence and development of what is currently seen in the classroom this Encyclopaedia is an invaluable reference guide for all students of education including undergraduates and post graduates in education or teacher training and students of related disciplines **Personal and Moral Identity** A.W. Musschenga, A.W. van Haaften, B. Spiecker, M.V. Slors, 2013-03-14 The subject of personal and moral identity is at the centre of interest not only of academic research within disciplines such as philosophy and psychology but also of everyday thinking This is why the Netherlands School for Research in Practical Philosophy and the Institute for Ethics of the Vrije Universiteit in Amsterdam took the initiative to bring together scholars from various disciplines interested in the subject The expert seminar on Personal and Moral Identity took place from 12-14 January 1999 Financial contributions from the Vrije Universiteit the Dutch Scientific Organisation NWO and the Royal Dutch Academy for the Sciences KNAW made the event possible The chapters in this book either go back to papers presented at the seminar or were written afterwards by participants inspired by the discussions that took place during the

seminar We are very grateful to Dr Hendrik Hutter for his assistance in editing the texts and making the manuscript camera ready December 2001 The Editors 1 Introduction Albert W Musschenga Although scholars studying the identity of persons usually address diverging issues and have different research agendas there is a growing awareness that one may benefit from insights and results present in other disciplines dealing with that subject This explains the enthusiastic responses to the invitation of the Netherlands School for Research in Practical Philosophy and the Institute for Ethics of the Vrije Universiteit to participate in a seminar on Personal and Moral Identity

Encyclopedia of Educational Theory and Philosophy D. C. Phillips, 2014-05-19 Education is a field sometimes beset by theories of the day and with easy panaceas that overpromise the degree to which they can alleviate pressing educational problems The two volume Encyclopedia of Educational Theory and Philosophy introduces readers to theories that have stood the test of time and those that have provided the historical foundation for the best of contemporary educational theory and practice Drawing together a team of international scholars this invaluable reference examines the global landscape of all the key theories and the theorists behind them and presents them in the context needed to understand their strengths and weaknesses In addition to interpretations of long established theories this work offers essays on cutting edge research and concise to the point definitions of key concepts ideas schools and figures Features Over 300 signed entries by trusted experts in the field are organized into two volumes and overseen by a distinguished general editor and an international editorial board Entries are followed by cross references and further reading suggestions A Reader's Guide groups entries thematically The Reader's Guide detailed index and cross references combine for strong search and browse capabilities in the electronic version Available in a choice of print or electronic formats Encyclopedia of Educational Theory and Philosophy is an ideal reference for anyone interested in the roots of contemporary educational theory Key Themes Aims of Education Classic Premodern Philosophers Theories and Theorists Curriculum Educational Research Evaluation and Testing Equity Rights Social Stratification and Citizenship Higher Education Learners Learning and Teaching Liberal Education Moral Religious Spiritual and Social Cultural Values Multiculturalism and Special Populations Organization of Schooling Philosophy of Science Sociology of Science and Epistemology Philosophy of Education Feminist Perspectives Philosophy of Education Nonwestern Traditions Philosophy of Education The Analytic Tradition Philosophy of Education The Continental Traditions Philosophy of Education The Political Theory Tradition Philosophy of Education The Pragmatic Tradition Progressive Education Psychological Orientation in Educational Theory Social Sciences Orientation in Educational Theory

Existential Crises in Educational Administration and Leadership Eugenie A. Samier, 2022-06-30 This book examines the theoretical foundations relevant to existential issues in educational leadership and management taking inspiration from Munch's painting The Scream The book considers internationally relevant topics such as the growth of neoliberalism globalisation cultural shifts forced migration and the digitalisation of the socio cultural sphere and uniquely positions these crises as existential threats rather than simply

political cultural or social The volume explores this complex set of dimensions in existential experience and outlines the implications for research and teaching in educational leadership By exemplifying the narrative and introspective nature of existential research the book addresses major aspects of the field including the impact such threats have on organisational studies policy administrative structures and practices and leadership This timely collection on existential issues in administration and leadership will appeal to academics scholars researchers practitioners and policy makers It will also be of great interest for students in teacher education programmes and graduate courses in educational administration and leadership organisation studies and educational ethics for broad international use Children's Rights from International Educational Perspectives Jenna Gillett-Swan,Nina Thelander,2021-12-01

This book critically examines contemporary educational practices with a children s rights lens Through investigating the factors that contribute to or hinder the realisation of children s rights in and through education in different contexts it discusses how using a rights framework for education furthers the agenda for achieving international educational aims and goals Using diverse international examples the book provides a snapshot of the complexity of children s rights and education It draws on the expertise of international research teams from Australia England Finland Italy Mexico Poland Portugal Scotland Spain Sweden Switzerland and the United States and highlights wide ranging interpretations of the same mandate across different national contexts Beginning with a critical overview of the broader context of children s rights in education the book explores obligations for States and their representatives tensions and convergences in implementation and implications for teaching and learning Using underutilised educational and theoretical concepts it contributes to broadening understandings of children s rights education and associated theoretical frameworks Despite a human rights framework emphasising the indivisibility interrelatedness and interconnectedness of all rights the right to education Article 28 dominates discussions about children s rights and education As such equally important rights including the aims of education Article 29 are often less considered or absent from the conversation Recognising that children s education rights involve more than just access and provision this book advocates for a much broader understanding of the nuances underpinning children s education related rights Chapter 10 is available open access under a Creative Commons Attribution 4.0 International License via link [springer.com](https://www.springer.com) **Philosophy for Children**

in Transition Nancy Vansieleghem,David Kennedy,2012-01-17 Philosophy for Children in Transition presents a diverse collection of perspectives on the worldwide educational movement of philosophy for children Educators and philosophers establish the relationship between philosophy and the child and clarify the significance of that relationship for teaching and learning today The papers present a diverse range of perspectives problems and tentative prospects concerning the theory and practice of Philosophy for Children today The collection familiarises an actual educational practice that is steadily gaining importance in the field of academic philosophy Opens up discussion on the notion of the relationship between philosophy and the child **Education in an Age of Nihilism** Nigel Blake,Paul Smeyers,Richard Smith,Paul

Standish,2012-12-06 This book addresses concerns about educational and moral standards in a world increasingly characterised by nihilism On the one hand there is widespread anxiety that standards are falling on the other new machinery of accountability and inspection to show that they are not The authors in this book state that we cannot avoid nihilism if we are simply laissez faire about values neither can we reduce them to standards of performance nor must we return to traditional values They state that we need to create a new set of values based on a critical assessment of contemporary practice in the light of a number of philosophical texts that address the question of nihilism including the work of Nietzsche

The Blackwell Guide to the Philosophy of Education Nigel Blake,Paul Smeyers,Richard D. Smith,Paul

Standish,2008-04-15 In this important survey an international group of leading philosophers chart the development of philosophy of education in the twentieth century and point to significant questions for its future Presents a definitive introduction to the core areas of philosophy of education Contains 20 newly commissioned articles all of which are written by internationally distinguished scholars Each chapter reviews a problem examines the current state of the discipline with respect to the topic and discusses possible futures of the field Provides a solid foundation for further study

Systems of Reason and the Politics of Schooling Miguel Pereyra,Barry Franklin,2014-06-27 The 1980s were an important decade for educational inquiry It was the moment of the linguistic turn with its emphasis on the role of language as a constructor of reality a structuring agent for institutions such as schools and a medium for translating knowledge into elements of power for processes of social regulation Drawing on the work and insights of educational researcher Thomas S Popkewitz this book shows how the linguistic turn provided an alternative to both mainline educational research grounded in the ideals of political liberalism and the effort of neo Marxists to challenge liberal thinking in favor of a scholarship based on class conflict and economic determinism

Schooling Indifference John I'Anson,Alison Jasper,2017-06-14 This book is concerned with re imagining Religious Education RE as this is practiced in schools colleges and universities throughout the UK and in a wide variety of international educational contexts On the basis of a critical analysis of current theory and practice in RE the authors argue that this educational framing is no longer plausible in the light of new theoretical developments within the academy A new educational approach to RE is outlined that challenges students to think and practice differently This includes a becoming ethnographer approach that can acknowledge socio material relations and engage the broader literacies necessary for such study Part One examines how RE has been constructed as a discipline in historical and spatial terms that abstract its study from material concerns Part Two offers some new starting points Spinoza Foucault and feminist theory that differently foreground context and relationality and Islam read as a discursive located tradition rather than as world view Finally Part

Three proposes a new trajectory for research and practice in RE with the aim of re engaging schools colleges and universities in a dialogue that promotes thinking and practice that as educational is continually in touch with the need to be critical open ended and ethically justifiable *Foucault and Educational Leadership* Richard Niesche,2011-03-15 School principals are increasingly working in an environment of work intensification high stakes testing accountability pressures and increased managerialism Rather than searching for the latest leadership fad or best practice model this book suggests that in order to better understand these pressures the work of educational leadership requires more sophisticated theorisation of these practices In so doing the book draws upon the work of Michel Foucault to provoke new thought into how the principalship is lived and disciplined in ways that produce both contradictions and tensions for school principals Amidst claims of a shortage of applicants for principal positions in a number of Western countries what is required are more sophisticated and nuanced tools with which to understand the pressures and constraints that face principals in their work on a daily basis This book provides a powerful example of theory working through practice to move beyond traditional approaches to school leadership Key features of the book provides a well theorised analysis of leadership practices acknowledges the messy reality of life for school principals provides key insights to the real work that principals undertake every day examines the production of principals subjectivities in education foregrounding issues of gender and race includes the principals voices through rich interview data The book will be of significant interest to principals and those working and researching in educational leadership including researchers in the field and academics who teach into educational leadership and administration courses The book will also be of great interest to those working with the ideas of Foucault in education *Educational Research: Discourses of Change and Changes of Discourse* Paul Smeyers,Marc Depaepe,2016-05-26 This collection addresses concepts and theories of change contexts and functions of reform discourses and fields of change in educational research It examines a wide variety of issues such as girls education in France educational neuroscience the professionalization in Child Protection and mathematics discourses It pays attention to the pervasiveness of crisis rhetoric in American Education Research to the current university climate and to perspectives for teacher education The volume presents in depth studies that integrate the perspective of history and philosophy of education Educational research has been typically carried out within a discourse of change changing educational practice changing policy or changing the world Sometimes these expectations have been grand as in claims of emancipation sometimes they have been more modest as in research as a support for specific reforms This book explores the answers to such questions as Are these expectations justified How have these discourses of change themselves changed over time What have researchers meant by change and related concepts such as reform improvement innovation progress and the new Does this teleological and hopeful discourse itself reflect a particular historical and national cultural point of view Is it over promising for educational research to claim to solve social problems and are these properly understood as educational problems In doing so it challenges prevailing ideas about the

application of philosophy and history of education and demonstrates the relevance of philosophical and historical approaches for the practice and theory of education and for educational research This publication as well as the ones that are mentioned in the preliminary pages of this work were realized by the Research Community FWO Vlaanderen Research Foundation Flanders Belgium Philosophy and History of the Discipline of Education Faces and Spaces of Educational Research

Negation, Subjectivity, and The History of Rhetoric Victor J. Vitanza, 1997-01-01 Vitanza introduces his book with the questions What Do I Want Wanting to Write This our Book What Do I Want Wanting You to Read This our Book Thereafter in a series of chapters and excursions and as schizographer of rhetorics erotics he interrogates three recent influential historians of Sophists Edward Schiappa John Poulakos and Susan Jarratt and how these historians as well as others represent Sophists and in particular Isocrates and Gorgias under the sign of the negative Vitanza concludes rather rebegins in a sophistic performative excursus with a prelude to future anterior histories of rhetorics Vitanza asks What will have been anti Oedipalized de negated hysterics of rhetorics What will have they looked like sounded read like Or to ask affirmatively what then will have libidinalized hysterics of rhetorics looked sounded read like **Heidegger, Education, and Modernity** Michael A. Peters, 2002 Martin Heidegger is perhaps the most controversial philosopher of the twentieth century Little has been written on him or about his work and its significance for educational thought This unique collection by a group of international scholars reexamines Heidegger s work and its legacy for educational thought Thematically the collection focuses on Heidegger s critique of modernity and contributors investigate the central significance for education of Heidegger s ontology and his investigation of the question of the meaning of Being by examining his art of teaching a translation of his submission to the denazification hearing his view of science and reason his philosophy of technology his poetics and the implications of his thought for learning These essays point to the crucial importance of Heidegger s work for understanding modern highly technologized forms of education and for the possibilities of redemption from its worst excesses *Critical Race Theory in Education* Adrienne D. Dixon, Celia K. Rousseau Anderson, Jamel K. Donnor, 2016-08-25 Appropriate for both students curious about Critical Race Theory CRT and established scholars Critical Race Theory in Education is a valuable guide to how this theoretical lens can help better understand and seek solutions to educational inequity While CRT has been established as a vital theoretical framework for understanding the ways race neutral policies and laws sustain and promote racial inequity questions around how to engage and use CRT remain This second edition of Critical Race Theory in Education evaluates the role of CRT in the field of higher education answering important questions about how we should understand and account for racial disparities in our school systems Parts I and II trace the roots of CRT from the legal scholarship in which it originated to the educational discourse in which it now resides A much anticipated Part III examines contemporary issues in racial discourse and offers all important practical methods for adopting CRT in the classroom **Geometry as Objective Science in Elementary School Classrooms** Wolff-Michael Roth, 2011-05-09 This study examines the origins of

geometry in and out of the intuitively given everyday lifeworlds of children in a second grade mathematics class These lifeworlds though pre geometric are not without model objects that denote and come to anchor geometric idealities that they will understand at later points in their lives Roth s analyses explain how geometry an objective science arises anew from the pre scientific but nevertheless methodic actions of children in a structured world always already shot through with significations He presents a way of understanding knowing and learning in mathematics that differs from other current approaches using case studies to demonstrate contradictions and incongruences of other theories Immanuel Kant Jean Piaget and more recent forms of radical social constructivism embodiment theories and enactivism and to show how material phenomenology fused with phenomenological sociology provides answers to the problems that these other paradigms do not answer
