**The Poetics of Repetition in English and Chinese Lyric Poetry** Cecile Chu-chin Sun, 2011-01-15 For more than half a century Chinese Western comparative literature has been recognized as a formal academic discipline but critics and scholars in the field have done little to develop a viable common basis for comparison between these disparate literatures In this pioneering book Cecile Chu chin Sun establishes repetition as the ideal perspective from which to compare the poetry and

poetics from these two traditions Sun contends that repetition is at the heart of all that defines the lyric as a unique art form and by closely examining its use in Chinese and Western poetry she demonstrates how one can identify important points of convergence and divergence Through a representative sampling of poems from both traditions she illustrates how the irreducible generic nature of the lyric transcends linguistic and cultural barriers but also reveals the fundamental distinctions between the traditions Most crucially she dissects the two radically different conceptualizations of reality mimesis and xing that serve as underlying principles for the poetic practices of each tradition Skillfully integrating theory and practice *The Poetics of Repetition in English and Chinese Lyric Poetry* provides a much needed model for future study of Chinese and English poetry as well as lucid succinct interpretations of individual poems *The Routledge Handbook of Progressive Rock, Metal, and the Literary Imagination* Chris Anderton, Lori Burns, 2025-02-26 This Handbook illustrates the many ways that progressive rock and metal music forge striking engagements with literary texts and themes The authors and their objects of analytic inquiry offer global and diverse perspectives on these genres and their literary connections from ancient times to the modern world from children's literature to epic poetry from mythology to science fiction and from esoteric fantasy to harsh political criticism The musical treatments of these literary materials span the continents from South and North America through Europe and Asia The collection presents critical perspectives on the enduring and complex relationships between words and music as these are expressed in progressive rock and metal The book is aimed primarily at an academic market valuable for second through final year students on undergraduate courses devoted to both popular music and to literary studies and to postgraduate programs and researchers in a range of fields including popular music studies musicology creative music performance and composition songwriting literary studies narrative studies folklore studies science fiction studies cultural studies liberal studies and sociology and for media and history courses that have an interest in the intersection of narratives music and society ***Advances in Natural Computation, Fuzzy Systems and Knowledge Discovery*** Ning Xiong, Maozhen Li, Kenli Li, Zheng Xiao, Longlong Liao, Lipo Wang, 2023-01-29 This book consists of papers on the recent progresses in the state of the art in natural computation fuzzy systems and knowledge discovery The book is useful for researchers including professors graduate students as well as R D staff in the industry with a general interest in natural computation fuzzy systems and knowledge discovery The work printed in this book was presented at the 2022 18th International Conference on Natural Computation Fuzzy Systems and Knowledge Discovery ICNC FSKD 2022 held from 30 July to 1 August 2022 in Fuzhou China All papers were rigorously peer reviewed by experts in the areas *Images of Jazz* Larry Minsky, 1997 *New Definitions of Lyric* Mark Jeffreys, 1998 This volume traces the modern critical and performance history of this play one of Shakespeare's most loved and most performed comedies The essay focus on such modern concerns as feminism deconstruction textual theory and queer theory ***Song Translation: Lyrics in Contexts*** Johan Franzon, Annjo K.
