Historic Negro Spirituals as Biblical Interpretation Christa Klingbeil Dixon,2024-12-15 Dr Christa K Dixon 1935 2003 grew up during the time of World War 2 where her father a German Confessing Church pastor regularly visited American POW camps and young Christa heard African American soldiers singing spirituals Her fascination grew but Dixon s interests became quite focused on her interest in how the famous spirituals interpreted the Bible In the mid 1960s Dr Dixon earned her PhD working on Negro Spirituals in Germany and published the text that formed from her years of research and long lasting passion for the spirituals she heard during her visits to the prisoner camps with her father A work of careful analysis and scholarship Dixon s study has since been out of print but now newly translated and presented for an audience to rediscover In John Lovell s important 1972 monograph *Black Song The Forge and Flame* he wrote Perhaps the most intensive study of Biblical influences in the spiritual is found in Christa Dixon s *Wesen und Wandel geistlicher Volkslieder Negro Spirituals* her analyses are not only deeply intensive but quite creative In this book Drs Kim R Harris and Daniel L Smith Christopher provide not only a translation of the published German work but also contribute two new essays to accompany this timeless study as both modern critique and long overdue appreciation

Choral Arrangements of the African-American Spirituals Patricia J. Trice,1998-02-12 Although the choral arrangements of the African American spirituals constitute the largest group of folk song arrangements in western literature they have received little scholarly attention This book provides the needed historical and stylistic information about the spirituals and the arrangements It traces the history and cultural roots of the genre through its inception and delineates the African and European characteristics common to the original folk songs and arrangements

Ensembles that have perpetuated the growth of the spiritual arrangements from Fisk Jubilee Singers of the 1870s through those currently active are chronicled as well. Musicians, choral directors, and scholars will welcome this first complete text on the African American spiritual genre. Annotated listings of titles provide information choral directors need to make ensemble appropriate performance choices. Arrangements indexed by title, arranger, and subject complement the accompanying biographies and repertoire information. Well organized and thoroughly researched, this text is a valuable addition to music, choral, multicultural, and African American libraries.

An Index to African-American Spirituals for the Solo Voice Kathleen A. Abromeit, 1999-01-30 Spirituals were an intrinsic part of the African American plantation life and were sung at all important occasions and events. This volume is the first index of African American spirituals to be published in more than half a century and will be an important research tool for scholars and students of African American history and music. The first collection of slave songs appeared in 1843 without musical notation in a series of three articles by a Methodist Church missionary identified simply as c. Collections that included musical notation began appearing in the 1850s. The earliest book-length collection of spirituals containing both lyrics and music was published in 1867 and entitled *Slave Songs of the United States*. Not since the 1930s with the publication of the *Index to Negro Spirituals* by the Cleveland Public Library has an index of spirituals been compiled. The spirituals are neatly organized in four indexes: a title index, first line index, alternate title index, and a topical index that includes twenty major categories. A bibliography of indexed sources serves as a guide for further research.

Walt Whitman and Modern Music Lawrence Kramer, 2018-12-07 Walt Whitman's poetry, especially his Civil War poetry, attracted settings by a wide variety of modern composers in both English and German speaking countries. The essays in this volume trace the transformation of Whitman's nineteenth century texts into vehicles for confronting twentieth century problems: aesthetic, social, and political. The contributors pay careful attention to music and poetry alike in examining how the Whitman settings become exemplary means of dealing with both the tragic and utopian faces of modernism. The book is accompanied by a recording by Joan Heller and Thomas Stumpf of complete Whitman cycles composed by Kurt Weill, George Crumb, and Lawrence Kramer, and the first recording of four Whitman songs composed in the 1920s by Marc Blitzstein.

So You Want to Sing Spirituals Randye Jones, 2019-10-14 With their rich and complicated history, spirituals hold a special place in the American musical tradition. This soul-stirring musical form is irresistible to singers seeking to diversify their performance repertoire, but it is also riddled with controversy, especially for singers of non-African descent. Singer and historian Randye Jones welcomes singers of all backgrounds into the style while she explores its folk song roots and transformation into choral and solo vocal concert repertoire. Profiling key composers and pioneers of the genre, Jones also discusses the use of dialect and other controversial performance considerations. Contributed chapters address elements of collaborative piano, studio teaching, choral arrangement, voice science, and vocal health as they apply to the performance of spirituals. The *So You Want to Sing* series is produced in partnership with the National Association of Teachers of Singing.

Like all books in the series *So You Want to Sing Spirituals* features online supplemental material on the NATS website

Spirituals Kathleen A. Abromeit, 2015-01-01 Spirituals originated among enslaved Africans in America during the colonial era. They resonate throughout African American history from that time to the civil rights movement from the cotton fields to the concert stage and influenced everything from gospel music to blues and rap. They have offered solace in times of suffering, served as clandestine signals on the Underground Railroad and been a source of celebration and religious inspiration. Spirituals are born from the womb of African American experience yet they transcend national disciplinary and linguistic boundaries as they connect music, theology, literature and poetry, history, society and education. In doing so they reach every aspect of human experience. To make sense of the immense impact spirituals have made on music, culture and society, this bibliography cites writings from a multidisciplinary perspective. This annotated bibliography documents articles, books and dissertations published since 1902. Of those 150 are books, 80 are chapters within books, 615 are journal articles and 150 are dissertations along with a selection of highly significant items published before 1920. The most recent publications included date from early 2014. Disciplines researched include music, literature and poetry, American history, religion and African American Studies. Items included in the annotated bibliography are limited to English language sources that were published in the United States and focus on African American spirituals in the United States but there are a few select citations that focus on spirituals outside of the United States. Of the one thousand annotations they are divided roughly evenly between general studies and geographical studies, information about early spirituals, use of spirituals in art, music, church music and popular music, composers who based music on spirituals, performers of spirituals, ensembles and individuals, Bible, theology and religious education, literature and poetry, pedagogical considerations including the teaching of spirituals as well as prominent educators, reference works and a list of resources that were unavailable for review but are potentially useful. This book also offers considerable depth on particular topics such as the Fisk Jubilee Singers and William Grant Still with over thirty citations devoted to each. At the same time materials included are quite diverse with topics such as spirituals in Zora Neale Hurston's novels, bible studies based on spirituals, enriching the teaching of geography through spirituals, Marian Anderson's historic concert at the Lincoln Memorial, spiritual roots of rap, teaching dialect to singers, expressing African American religion in spirituals, Samuel Coleridge Taylor's music, slave tradition of singing among the Gullah. The book contains indices by author, subject and spiritual title. Additionally an appendix of spirituals by biblical reference listing both spiritual title to scriptural reference as well as scripture to spiritual title is included. T. L. Collins, Christian educator, compiled the appendix.
