## Grotesque Figures

Virginia E. Swain, 2020-03-03 Charles Baudelaire is usually read as a paradigmatically modern poet whose work ushered in a new era of French literature But the common emphasis on his use of new forms and styles overlooks the complex role of the past in his work In *Grotesque Figures* Virginia E Swain explores how the specter of the eighteenth century made itself felt in Baudelaire's modern poetry in the pervasive textual and figural presence of Jean Jacques Rousseau Not only do Rousseau's ideas inform Baudelaire's theory of the grotesque but Rousseau makes numerous appearances in Baudelaire's poetry as a caricature or type representing the hold of the Enlightenment and the French Revolution over Baudelaire and his contemporaries As a character in *Le Po me du hashisch* and the *Petits Po mes en prose* Rousseau gives the grotesque a human form Swain's literary cultural and historical analysis deepens our understanding of Baudelaire and of nineteenth century aesthetics by relating Baudelaire's poetic theory and practice to Enlightenment debates about allegory and the grotesque in the arts Offering a novel reading of Baudelaire's ambivalent engagement with the eighteenth century *Grotesque Figures* examines nineteenth century ideological debates over French identity Rousseau's political and artistic legacy the aesthetic and political significance of the rococo and the presence of the grotesque in the modern

*Reading Baudelaire's Le Spleen de Paris and the Nineteenth-Century Prose Poem* Seth Whidden, 2022 A study of Charles Baudelaire's *Le Spleen de Paris* 1859 that explores how the practice of reading prose poems might be different from reading poetry in verse It illustrates how Baudelaire wrote texts that he considered poems and how this form shows aspects of his poetic modernity

The Violence of Modernity Debarati Sanyal, 2020-03-03 The Violence of Modernity turns to Charles Baudelaire one of the most canonical figures of literary modernism in order to reclaim an aesthetic legacy for ethical inquiry and historical critique Works of modern literature are commonly theorized as symptomatic responses to the trauma of history In a climate that tends to privilege crisis over critique Debarati Sanyal argues that it is urgent to rethink literary experience in terms that

recall its contestatory potential Examining Baudelaire's poems afresh she shifts the focus of critical attention toward an account of modernism as an active engagement with violence specifically the violence of history in nineteenth century France Sanyal analyzes a literary current that uses the traditional hallmarks of modernism irony intertextuality self reflexivity and formalism to challenge the historical violence of modernity Baudelaire and the committed ironists writing in his wake teach us how to read and resist the violence of history and thereby to challenge the melancholy tenor of our contemporary wound culture In a series of provocative readings Sanyal presents Baudelaire's poetry as an aesthetic form that contests historical violence through rhetorical strategies of complicity counterviolence and critique The book develops a new account of Baudelaire's significance as a modernist by dislodging him both from his traditional status as a practitioner of art for art's sake and from his more recent incarnation as the poet of trauma Following her extended analysis of Baudelaire's poetry Sanyal in later chapters considers a number of authors influenced by his strategies including Rachilde Virginie Despenes Albert Camus and Jean Paul Sartre to examine the relevance of their interventions for our current climate of trauma and terror The result is a study that underscores how Baudelaire's legacy continues to energize literary engagements with the violence of modernity

*The Persistence of the Human* Matthew Escobar, 2016-09-07 Recent narrative fiction and film increasingly exploit explore and thematize the embodied mind revealing the tenacity of a certain brand of humanism The presence of narratively based concepts of personal identity even in texts which explore posthuman possibilities is strong proof that our basic understanding of what it means to be human has despite appearances remained mostly unchanged This is so even though our perception of time has been greatly modified by the same technology which both interrupts and allows for the rearrangement of our experience of time at a rate and a level of ease which until recently had never been possible Basing his views on a long line of philosophers and literary theorists such as Paul Ricoeur Daniel Dennett and Francisco Varela Escobar maintains in *The Persistence of the Human* that narrative plays an essential role in the process of constituting and maintaining a sense of self It is narrative's effect on the embodied mind which gives it such force Narrative projects us into possible spaces shaping a temporary corporeality termed the meta body a hybrid shared by the lived body and an imagined corporeal sense The meta body is a secondary embodiment that we inhabit for however long our narrative immersion lasts something which in today's world may be a question of milliseconds or hours The more agreeable the meta body is the less happy we are upon being abruptly removed from it though the return is essential We want to be able to slip back and forth between this secondary embodiment and that of our lived body each move entails both forgetting and remembering different subject positions loss and recuperation being salient themes in the works which highlight this process The negotiation of the transfer between these states is shaped by culture and technology and this is something which is precisely in flux now as multiple ephemeral narrative immersion experiences are created by the different screens we come into contact with

The Later Novels of Victor Hugo Kathryn M. Grossman, 2012-03-29 This study places the last three

novels of Hugo's maturity *Les Travailleurs de la mer* 1866 *L'Homme qui rit* 1869 and *Quatrevingt-Treize* 1874 within the context of his artistic development after the success of *Les Misérables* 1862 thereby illuminating the shift from a poetics of harmony to one of transcendence *Hegel, Marx and the Contemporary World* Kaveh Boiveiri, Emmanuel

Chaput, 2016-06-22 This book is the result of a three day conference held in April 2014 at the University of Montreal Canada discussing the relevance of the work of Hegel and Marx in today's world particularly with regard to the ecological economic political and anthropological crisis facing humanity Accordingly the book an exploration of the specific nature of the crisis we face both in our everyday lives and in the realm of theory However if indeed the necessity of a proper critique *Kritikos* is intimately linked to a state of crisis *Krisis* the conceptual frame necessary to produce such a critique may itself be in crisis Among the vast number of critical oppositions to contemporary capitalism what are the keys available to understand the present forms of human conditions alienation and exploitation Controversies and divisions among the different tendencies within the critical tradition tend to highlight the point that there is also a theoretical crisis which prevents a proper diagnosis of the actual crisis and prevents in turn a proper plan of action from being established Looking back to Marx and Hegel allowed a return if not to the sources at least to two unavoidable influences among the various critical approaches to capitalism Be it with or against Hegel and or Marx the criticisms of modernity post modernity and capitalism cannot neglect the shadows of these thinkers Both Marx's and Hegel's philosophical sociological and political enterprises must be linked historically to the will to diagnose and solve what they saw as the most important crises of their own time from in Hegel's case the spiritual crisis which followed the advent of modernity and its accompanying turmoil to the social and political crisis caused by capitalism and the advent of a new industrial society in Marx's case Both intellectual ventures are at every turn haunted by the notion of crisis This book will appeal to anyone interested in Hegel's and Marx's philosophical and political theories Not only does it provide the historical context necessary to understand properly the relation between Marx and Hegel but it also places the relevance of their teachings for the contemporary reader in perspective **La causerie... dualism and ambiguity of laughter has radical implications for such emblems of modernity as the city and the fl neur who roams the streets The modern city is the space of the comic a kind of caricature presenting the fl neur with an image of dualism one s position as subject and object implicated in the same urban experiences one seems to control The theory of the comic invests the idea of modernity with reciprocity one s status as laughter and object of laughter thus preventing the subjective construction and appropriation of the world that has so often been linked with the project of modernism Comic art reflects what Walter Benjamin later defined as Baudelairean allegory at once representing and revealing the alienation of modern experience But Baudelaire also transforms the dualism of the comic into a peculiarly modern unity the doubling of the comic artist enacted for the benefit of the audience the self generating and self reflexive experience of the fl neur in a communion with the crowd This study examines his views in the context of the history of comic theory and contemporary accounts of the individual artists Complete with illustrations of the many works discussed it illuminates the history and theory of caricature the comic and the grotesque and adds to our understanding of modernism in literature and the visual arts
