**Analyzing Media** James W. Chesebro, Dale A. Bertelsen, 1998-10-01 For the past 25 years critics of communication have focused on the content and form of verbal and nonverbal communication while for the most part neglecting what traditionally has been considered a technical rather than a critical issue the impact of how messages are produced or formatted in the various media Topics such as the sexual and violent content of television and films the meaning of pornography and the persuasive efforts of advertisers largely have been examined with the use of social science methodologies that ignore the behavioral and message generating implications of specific media systems themselves Filling a significant void in the literature this volume eschews the notion of communication technologies as neutral conduits and instead depicts them as active and creative determinants of meaning In doing so it offers an illuminating examination of the dynamic relationships among communication cognition and social organization Providing a framework for the chapters that follow the first section of the book presents a history of human communication from a technological perspective explores the integral role of communication technologies in everyday life and isolates the ways in which criticism can function as an assessment system Three specific technological cultures that define human communication are identified the oral the literate and the electronic The authors identify structural features and discuss the social implications of each They also provide descriptions interpretations and evaluations of these technological cultures and show how criticism changes when the media of transmission is taken into account The book concludes with a cogent discussion of a range of topics surrounding media criticism such as its pedagogical implications how multiple selves can exist in a world of varied communication technologies the integration of communication technologies and how media studies should be incorporated into the disc

Image, Reality and Media Construction Fengmin Yan, 2019-09-24 This book explores how news media construct social issues and events and thereby convey certain perceptions within the scope of framing theory By operationalizing media framing as a process of interpretation through defining problem diagnosing causes making moral judgments and suggesting solutions the book

proposes a systematic and transparent approach to images in news discourse Based on a frame analysis it examines how German news media framed a list of China related issues and events and thereby conveyed particular beliefs and opinions on this country Moreover it investigates whether there were dominant patterns of interpretation and the extent to which diverse views were evident by comparing two major daily newspapers with opposite political orientations the FAZ and the taz Motivated by the relationship between image and reality the book explores image formation and persistence from media construction of meaning and human cognitive complexity in perceiving others Media select certain issues and events and then interpret them from particular perspectives A variety of professional and non professional factors behind news making may result in biased representations In addition from a social psychological perspective inaccurate perceptions of foreign cultures may arise from categorical thinking biased processing of stimulus information intergroup conflicts of interest and in group favoritism Accordingly whether media coverage deviates from reality is not the main concern of this book instead it emphasizes the underlying logics upon which the conclusions and judgments were drawn It therefore contributes to a rational understanding of Western discourse and holds practical implications for both Chinese public diplomacy and a more constructive role of news media in promoting the understanding of others

**Emerging Technologies and Military Doctrine** Dr. Frank Barnaby, Marlies Ter Borg, 1986-06-18 **New Money, Nice Town** Leonard Nevarez, 2014-01-14 The economic restructuring that has gone on since the 1980s has produced a new economic space in which service and high tech firms are at the forefront of innovation One of the features of the new economy is what pop geographer Joel Kotkin calls nerdistans or smaller cities with a substantial high tech sector limits on growth environmentally friendly policies and a generally well educated population In New Money Nice Town Leonard Nevarez takes a close look at how new economy firms in quality of life cities interact with local political structures finding that they are both more liberal and more detached than their traditional counterparts This new global economy has created communities whose politics are more democratic but also more tenuous and unstable

An Ecological Perspective on Human Communication Theory Jo Ruth Liska, Gary Cronkhite, 1995 AN ECOLOGICAL PERSPECTIVE ON HUMAN COMMUNICATION THEORY introduces communication students to both research and theory at an undergraduate level and avoids extensive discussion of philosophical and epistemological issues The ecological interdisciplinary approach synthesizes information from diverse fields including anthropology biology linguistics psychology and sociology A student manual at the back of the book includes activities discussion questions recommended readings and videos **The Influentials** Gabriel Weimann, 1994-01-01 Although opinion leadership has been the subject of numerous studies in areas ranging from politics to fashion and in many societies and cultures The Influentials represents the first systematic analysis of the concept It offers a multidisciplinary presentation of the definitions typologies methods and findings of opinion leadership from its early formulation through the emergence of the first empirical evidence to the most recent research Weimann examines opinion leadership and personal influence in a

number of areas including marketing public opinion and elections education fashion science agriculture and health care He also examines the growing criticism of the model based on theoretical and empirical weaknesses of the original concept and evaluates for the first time modifications that have emerged including a new measure the PS Scale and its testing and application The final chapters for the first time link opinion leadership with the important theoretical and research tradition of agenda setting

*Talking Politics* William A. Gamson, 1992-08-28 Those who analyze public opinion have long contended that the average citizen is incapable of recounting consistently even the most rudimentary facts about current politics that the little the average person does know is taken strictly from what the media report with no critical reflection and that the consequence is a polity that is ill prepared for democratic governance And yet social movements comprised by and large of average citizens have been a prominent feature of the American political scene throughout American history and have experienced a resurgence William Gamson asks how is it that so many people become active in movements if they are so uninterested and badly informed about issues The conclusion he reaches in this book is a striking refutation of the common wisdom about the public's inability to reason about politics

**Communication and Democracy** Slavko Splichal, Janet Wasko, 1993 The 1980s witnessed a rapid growth of communication technology and an immense expansion of new media around the globe The development of new information and communication technologies has emphasized again the importance of economic social political and cultural institutions associated with the definitions of new technologies Many of the traditional conceptions of the relation of the media to democracy were predicated upon a certain perception of communication technology and the major contemporary debates related to democratization have to do again with the deployment of technologies How do all these developments affect society How is the communications explosion related to democracy What are the implications for the social functions of communications people's activities consciousness and values media ownership and control both nationally and internationally These are some of the questions discussed in this volume

The Irony of Regulatory Reform Robert Britt Horwitz, 1989 This study examines the history of telecommunications both telephone and broadcast with particular reference to attempts to regulate these media in the USA

*Transcultural Realities* Virginia H. Milhouse, Molefi Kete Asante, Peter O. Nwosu, 2001-07-24 Transcultural Realities is an important collection of essays written by an outstanding cast of critical scholars who discuss the importance of transculture in interdisciplinary contexts The primary goal of the contributors is to help the reader to understand that a state of community or harmony cannot be achieved in the world until we are all ready to accept different cultural forms norms and orientations In this book transculture is defined as a form of culture created not from within separate spheres but in the holistic forms of diverse cultures It is based on the principle that a single culture in and of itself is incomplete and requires interaction and dialogue with other cultures Transcultural Realities is divided into five parts Transcultural issues in international and cross cultural contexts Historical and religious struggles within and between nations Socially constructed

racial identities and their consequences for transculturalism in the United States The transformative effects of sojourning in diverse cultural environments The fundamentals of transcultural research Editors Virginia H Milhouse Molefi Kete Asante and Peter O Nwosu set out to meet three specific needs First that the book s interdisciplinary approach to theory and practice in cross cultural relations will make it an important book for several fields of study including intercultural and interpersonal communication international relations human relations psychology anthropology philosophy and sociology Second that the book will be a reference tool for scholars of transcultural research providing up to date information on cross cultural relations that are transcultural in nature And finally through the use of research is critical to a fuller understanding of cross cultural relations in a transcultural world

**New Themes in Institutional Analysis** Georg Krücken, Carmelo Mazza, Renate E. Meyer, Peter Walgenbach, 2017-08-25 Institutional theory has become one of the dominant organizational approaches in recent decades Its roots can be traced to Europe and an important intellectual objective of this book is to examine North American theory strands and reconnect them with European research traditions In addition this book focuses on how organizations and individuals handle heterogeneous and challenging social conditions which are subsequently reflected in various forms of change

**Southwestern Mass Communication Journal**, 1995 **Proceedings of the Annual Meeting** American Society for Information Science, 1986 *Into the Future: The Foundations of Library and Information Services in the Post-Industrial Era*, 1993 *Media-rich, Media-poor* Larry Lester Pearson, 1990 Doctoral dissertation examining two media systems one media rich and one media poor the functions of various media in the systems existence and degree of knowledge gaps in each and the influence of individual preference on the gaps as well as the extent to which Alaskan policy makers have been able to determine the function of the media in rural Alaska

**Advances in Social Network Analysis** Stanley Wasserman, Joseph Galaskiewicz, 1994-07-27 Social network analysis a method for analyzing relationships between social entities has expanded over the last decade as new research has been done in this area How can these new developments be applied effectively in the behavioral and social sciences disciplines In *Advances in Social Network Analysis* a team of leading methodologists in network analysis addresses this issue They explore such topics as ways to specify the network contents to be studied how to select the method for representing network structures how social network analysis has been used to study interorganizational relations via the resource dependence model how to use a contact matrix for studying the spread of disease in epidemiology and how cohesion and structural equivalence network theories relate to studying social influence It also offers statistical models for social support networks *Advances in Social Network Analysis* is useful for researchers involved in general research methods and qualitative methods and who are interested in psychology and sociology

**Super Media** Michael R. Real, 1989-05-01 Written in a clear and engaging style *Super Media* introduces and examines the newly emerging cultural studies approach to understanding media Michael Real begins by providing a critical review of previous traditions of media research and theory illustrated with tables and

comparative charts and re integrates media study around cultural studies He argues that issues of personal identity and consciousness of conflict and bias of politics and policy are more effectively articulated and understood through cultural studies Drawing from both humanities and the social sciences he centers his analyses in text meaning representation interpretation conflict ideology hegemony and culture Extensive case stud
