Good and Evil Bhimeswara Challa, 2021-09-03 By any measure we are at an inflection point in human history As the ongoing coronavirus pandemic has shown it is not only the planet that is at risk but our very destiny We must take an unblinking look at who we are compared with who we want to be or ought to be That entails going within to discover what is happening deep inside our consciousness This book suggests that the root of our troubles is our ignorance that there is a perennial war within each of us between good and evil Like in any war both sides need supplies But in this internal war they must come from outside in the shape of our daily doings and choices As you read you'll get a roadmap on how to make better decisions and contain the evil within Get answers to questions such as Why must we fix the inside before fixing the outside How can we prevent evil from overwhelming our consciousness How can the good inside of us overwhelm the bad outside There is no nobler calling for any of us at this pivotal point than to volunteer to join others committed to bettering themselves so we can rescue mankind from self annihilation
