Revolution and Its Alternatives Tom Brass, 2018-11-26 Against the usual argument heard most frequently on the left that there is no subject for a radical politics together with its form of political mobilization there is but in the absence of a radical leftist project this subject has in the past transferred and in many instances is still transferring his/her support to the radical politics on offer from the other end of the ideological spectrum The combination of on the one hand a globally expanding industrial reserve army generating ever more intense competition in the labour markets of capitalism and on the other the endorsement by many on the left not of class but rather of non class

identities espoused by the new populist postmodernism has fuelled what can only be described as a perfect storm politically speaking

National Character Alex Inkeles, 2017-07-12 Seen in modern perspective the concept of national character poses fundamental problems for social science theory and research To what extent do conditions of life in a particular society give rise to certain patterns in the personalities of its members What are the consequences Alex Inkeles surveys various definitions of national character tracing developments through the twentieth century His approach is to examine the regularity of specific personality patterns among individuals in a society He argues that modal personality may be extremely important in determining which new cultural elements are accepted and which institutional forms persist in a society Reviewing previous studies Inkeles canvasses the attitudes and psychological states of different nations in an effort to discover a set of values in the United States He concludes that despite recent advances in the field there is much to be done before we can have a clear picture of the degree of differentiation in the personality structure of modern nations Until now there were few formal definitions and discussions on national character and the limits of this field of study This book will be of great interest to psychologists sociologists philosophers and political theorists
