Make It Im The Mother:

Just As I Am E. Lynn Harris, 1995-02-15 E Lynn Harris's blend of rich romantic storytelling and controversial contemporary issues like race and bisexuality have found an enthusiastic and diverse audience across America. Readers celebrate the arrival in paperback of his second novel *Just As I Am* which picks up where *Invisible Life* left off introducing Harris's appealing and authentic characters to a new set of joys, conflicts and choices. Raymond, a young black lawyer from the South, struggles to come to terms with his sexuality and with the grim reality of AIDS. Nicole, an aspiring singer/actress, experiences frustration in both her career and in her attempts to find a genuine love relationship. Both characters share an eclectic group of friends who challenge them and the reader to look at themselves and the world around them through different eyes. By portraying Nicole's and Raymond's joys as well as their pain, Harris never ceases to remind us that life like love is about self-acceptance. In this vivid portrait of contemporary black life with all its pressures and the complications of bisexuality, AIDS and racism, Harris confirms a faith in the power of love, love of all kinds, to thrill and to heal, which will warm the hearts of readers everywhere.

CAN-M: Camberwell Assessment of Need for Mothers Louise Howard, Katherine Hunt, Mike Slade, Veronica O'Keane, 2008-07. The Camberwell Assessment of Need for Mothers (CAN-M) is a tool for assessing the needs of pregnant women and mothers with severe mental illness. It is a modification of the Camberwell Assessment of Need, the most widely used needs assessment for people with severe mental health problems. Comprehensive versions are included for research and for clinical use as well as a short summary version suitable for both clinical and research use. The CAN-M has been rigorously developed by a multidisciplinary team at the Institute of Psychiatry, King's College London, and is suitable for use in mental health, obstetric and primary care settings. This book includes a review of the needs of pregnant women and mothers with severe mental illness, the rating scales, descriptions of how they were developed and their psychometric properties. Administration details a full training programme, guidance on scoring and blank assessment forms for all three versions for photocopying.
