Bas Jan Ader Jan Verwoert, 2006-05-26 An illustrated investigation into the critical motives behind the last unfinished work that has defined the romantic legacy of conceptual artist Bas Jan Ader In 1975 Bas Jan Ader disappeared at sea while trying to sail from the East Coast of the United States to Europe as part of a project titled *In Search of the Miraculous* Ader's considerable influence on later conceptual artists stems from the way in which he used the cool analytic and antisubjective aesthetics of conceptual art to explore experiences that would seem definitively subjective the emotional intensity of tragedy and the romantic quest for the sublime *In Search of the Miraculous* was conceived as a three part project a lonely nighttime walk from the hills of Los Angeles down to the sea documented in photographs the Atlantic crossing a night walk through Amsterdam mirroring the LA photographs The circumstances of his disappearance have led many interpreters to identify Ader as a person with the role of the tragic romantic hero The cult status of the artist as a hero whose work is authenticated through his death however has obscured the fact that Ader's art was a critical investigation of precisely those romantic motives his persona has now come to be identified with This book

unpicks these ties in Ader's work in order to highlight the specific and unique way in which Ader explores the existential and emotional with an artistic approach that is as conceptual and analytic as it is poetic and personal Afterall Books are distributed by The MIT Press

Noël Coward Russell Jackson, 2022-04-21 This is the first book length work to draw extensively on

unpublished archive material to document the composition and reception of some of Noel Coward's most significant plays. It examines his working practices as a playwright from manuscript to performance. This study argues that while he did not embrace any of the more radical theatricalisms of his time, Coward experimented with both form and content. He adapted the familiar well-made formulas while also emphasizing theatrical self-consciousness and an exploration of radical social and sexual relationships. After an overview of Coward's career and the reception of his plays, the work discusses selected texts from successive phases of Coward's career, including some unproduced or uncompleted work and perennially popular plays such as *The Vortex*, *Hay Fever*, *Private Lives*, *Design for Living*, *Blithe Spirit*, and *Present Laughter*. This study also explores how, in the aftermaths of two world wars, as major changes in social and political circumstances suggested new approaches to dramaturgy, Coward's post-1945 work failed to achieve the same success he had enjoyed in earlier periods. The final chapter examines Coward's approach to his craft in response to the new theatrical and cultural environment and the new freedom in the treatment of homosexuality represented by *Suite in Three Keys* and his final uncompleted play *Age Cannot Withstand*.
