Making Of Saints:

Making Saints Kenneth L. Woodward, 1991 A pioneering work of investigative journalism penetrates the Vatican to explain the canonization process and describes the political in fighting the medical questions and the costs of canonization

Making Saints Kenneth L. Woodward, 2016-04-26 From inside the Vatican the book that became a modern classic on sainthood in the Catholic Church Working from church documents Kenneth Woodward shows how saint makers decide who is worthy of the church's highest honor He describes the investigations into lives of candidates explains how claims for miracles are approved or rejected and reveals the role politics papal and secular plays in the ultimate decision From his examination of such controversial candidates as Archbishop Oscar Romero of El Salvador and Edith Stein a Jewish philosopher who became a nun and was gassed at Auschwitz to his insights into the changes Pope John Paul II has instituted Woodward opens the door on a 2 000 year old tradition The Making of Saints Michael Freze, 1991 *Making Saints in Modern China*

David Ownby, 2017 Sainthood has been and remains a contested category in China given the commitment of China's modern leadership to secularization modernization and revolution and the discomfort of China's elite with matters concerning religion However sainted religious leaders have succeeded in rebuilding old institutions and creating new ones despite the Chinese government's censure This book offers a new perspective on the history of religion in modern and contemporary China by focusing on the profiles of these religious leaders from the early 20th century through the present Edited by noted authorities in the field of Chinese religion *Making Saints in Modern China* offers biographies of prominent Daoists and Buddhists as well as of the charismatic leaders of redemptive societies and state managers of religious associations in the People's Republic The focus of the volume is largely on figures in China proper although some attention is accorded to those in Taiwan Hong Kong and other areas of the Chinese diaspora Each chapter offers a biography of a religious leader and a detailed discussion of the way in which he or she became a saint The biographies illustrate how these leaders deployed and sometimes retooled traditional themes in hagiography and charismatic communication to attract followers and compete in the religious marketplace Negotiation with often hostile authorities was also an important aspect of religious leadership and many of the saints' stories reveal unexpected reserves of creativity and determination The volume's contributors from the United States Canada France Italy China and Taiwan provide cutting edge scholarship Taken together these essays make the case that vital religious leadership and practice has existed and continues to exist in China despite the state's commitment to wholesale secularization Ordinary Saints Stuart C. A Saint of Our Own Kathleen Sprows Cummings, 2019-02-27 What drove U S Catholics in their arduous quest full of twists and turns over more than a century to win an American saint The absence of American names in the canon of the saints had left many of the faithful feeling spiritually unmoored But while canonization may be fundamentally about holiness it is never only about holiness reveals Kathleen Sprows Cummings in this panoramic passionate chronicle of American sanctity Catholics had another reason for petitioning the Vatican to acknowledge an American holy hero A home grown saint would serve as a mediator between heaven and earth yes but also between Catholicism and American culture Throughout much of U S history the making of a saint was also about the ways in which the members of a minority religious group defined defended and celebrated their identities as Americans Their fascinatingly diverse causes for canonization from Kateri Tekakwitha and Elizabeth Ann Seton to many others that are failed forgotten or still under way represented evolving national values as Catholics made themselves at home Cummings s vision of American sanctity shows just how much Catholics had at stake in cultivating devotion to men and women perched at the nexus of holiness and American history until they finally felt little need to prove that they belonged

Saints Herald , 1887 **Historical Sketch of the Church of St. Antony of Padua, Brooklyn, N.Y.** Michael P. Heffernan, 1897 *Martyrdom and the Politics of Religion*

Anna L. Peterson, 1996-10-17 *Martyrdom and the Politics of Religion* explores the ways that Salvadoran Catholics sought to make sense of political violence in their country in the 1970s and 1980s by constructing a theological ethics that could both explain repression in religious terms and propose specific responses to violence. Drawing on extensive fieldwork, the book highlights the ways that progressive Catholicism offered a justification and tools for political resistance in the face of extraordinary destruction. Using the case of Catholicism in El Salvador, the book explores the nature of religious responses to social crisis and the ways that ordinary believers construct and strive to live by ethical systems. By highlighting the importance of theological belief, narrative, and of religious rationality in political mobilization, it touches questions of general interest to readers concerned with the social role of religion and ethics. **Witness to Hope** George

Weigel, 2009-10-13 This definitive biography of Pope John Paul II explores his historic influence on the world stage. Magnificent! A tremendous achievement. *Washington Post*. As head of the Catholic Church from 1978 until his death in 2005, John Paul II was one of the world's most transformational figures. With unprecedented cooperation from the Pope as well as the people who knew and worked with him throughout his life, George Weigel offers a groundbreaking portrait of him as a man, a thinker, and a leader whose religious convictions defined a new approach to world politics and changed the course of history. The Pope played a crucial yet underexplored role in some of the most momentous events of his time, including the collapse of European communism, the quest for peace in the Middle East, and the democratic transformation of Latin America. With an updated preface, this edition of *Witness to Hope* explains how this man from a far country did all of that and much more, and what both his accomplishments and the unfinished business of his pontificate mean for the future of the Church and the world. **The Making of Saints in Late Antique North Africa** Sabine Panzram, Nathalie Klinck, 2024

The Making of Saints is a phenomenon of central significance to Christianity since a vision inspired Ambrosius discovered the remains of the martyrs Gervasius and Protasius in 386 AD in Milan. In North Africa, it seems to have taken on an extremely interesting form that makes Brent D. Shaw speak of the blood of the martyrs as the vital force, the kinetic energy powering Christian life in Africa. This volume contributes to the productively expanding research field of North African Christianity by providing narrative analyses on the one hand and presenting case studies from an archaeological perspective on the other, which allow a comparative perspective of the phenomenon in order to systematically combine them. Narrative alone did not make a martyr; architectural staging too was needed. The story made the martyr, and the staging made the saint. The multidisciplinary approach brings together the most recent results concerning excavations and epigraphy but also an innovative conceptual understanding of text, space, and last but not least religion in order to examine the social function that the veneration of martyrs had in a longue durée perspective. **Prophets in Their Own Country** Aviad M. Kleinberg, 1997-06 In this original study of the making of saintly reputations, Aviad M. Kleinberg shows how sainthood, though frequently seen as a personal trait, is actually the product of negotiations between particular individuals and their communities. Employing the methods of

history anthropology and textual criticism Kleinberg examines the mechanics of sainthood in daily interactions between putative saints and their audiences This book will interest historians anthropologists sociologists medievalists and those interested in the study of religion A fascinating and sometimes iconoclastic view of saints in the medieval period Sandra R O Neal Theological Studies An important new book And an excellent piece of scholarship Diane L Mockridge Method the book is a pleasure to read Veronica Lawrence Theological Book Review Original and interesting Kleinberg has made a major contribution Anne L Clark American Historical Review Kleinberg s concern is not just with perceptions of sanctity but refreshingly with what actually happened and he is especially good on the conflict of the two This is not just a book but a way of thought and one that promises interesting conversations at all levels from the church porch to the tutorial and the academic conference Helen Cooper Times Literary Supplement **Publishers Weekly** ,1990 The Universalist Leader ,1924
