When Your Kid Is Hurting Dr. Kevin Leman,2018-09-04 As parents we have a strong impulse to protect our children but that very protection can end up handicapping them for life Rather than seek to save them from the hard things we must teach our kids how to cope with and rise above their problems In one of his most important books to date internationally known psychologist and bestselling author Dr Kevin Leman shows parents how to be good listeners tell the truth even when it s difficult find balance between being protective and being

Ectogenesis, the gestation of the foetus outside of the human body, will not for much longer be in the realm of science fiction; a number of projects attempting to develop ectogenetic technology are currently under way. This book examines the ethical implications of the development of ectogenesis. Examining the implications for abortion ethics in particular, this book also deals with the ethical objections to developing such a technology and the uses to which it may be put, such as creating embryos to supply donor organs for transplantation. The development of the artificial uterus may well be similar to cloning, a sudden technological advance with dramatic ethical implications thrust suddenly into the public eye. **The End of International Adoption?** Estye Fenton, 2019-06-28. Since 2004, the number of international adoptions in the United States has declined by more than seventy percent. In *The End of International Adoption*, Estye Fenton studies parents in the United States who adopted internationally in the past decade during this shift. She investigates the experiences of a cohort of adoptive mothers who were forced to negotiate their desire to be parents in the context of a growing societal awareness of international adoption as a flawed reproductive marketplace. Many parents, activists, and scholars have questioned whether the inequality inherent in international adoption renders the entire system suspect. In the face of such concerns, international adoption has not only become more difficult but also more politically and ethically fraught. The mothers interviewed for this book found themselves navigating contemporary American family life in an unexpected way, caught between the double bind of work/family life and a new paradigm of thinking about the method of international adoption that they used to create those families. **It's Your Kid, Not a Gerbil!** Kevin Leman, 2011. Do you sometimes feel like a gerbil running on a wheel inside a cage as you scurry from place to place, chauffeuring your children from one endless activity to another?
