Making Capitalism:

Making Capitalism Work Leonard Silk, Mark Silk, 1996-11-01 In 1995 Republicans came to power in the United States with an ambitious program proposing to embrace a degree of laissez faire economics unknown for generations anywhere in the industrialized world Simultaneously politicians entrepreneurs and economists championed the new bastions of unregulated capitalism that sprung up in such unfamiliar precincts as Beijing and Moscow Yet to date many free market economic policies be it in Prague or here in America have not lived up to their initial promises In fact it has become a common joke in Russia that capitalism has succeeded in making communism look good a feat unaccomplished by the Kremlin in its 70 year reign In *Making Capitalism Work* Leonard and Mark Silk analyze the failures and successes of capitalism as seen most recently in the former Soviet Bloc Japan China the European Community and the United States While recognizing that capitalism has been successful in a number of countries the authors point out that overly simplistic policies advocating an unfettered capitalism ignore too large a range of issues central to the formation of any moral economic system Viewing capitalism as simply one of a number of economic systems Leonard and Mark Silk address such issues as the obligation of the rich to the poor the responsibility of the state to insulate its citizens from market fluctuations the responsibility of present generations to provide for future ones and whether economic systems can set the proper extent and limits of individual rights and freedoms An important concise thought provoking book this is the last book Leonard Silk wrote before his death late last year and has been completed here by his son Mark

Making Capitalism Great Again John Di Lemme, 2020-10-15 America will never be a socialist country This was President Donald J Trump s response to the Democrat party pushing for socialism and his commitment to the American people that it will never happen Socialism is a relatively foreign concept for most Americans which is understandable since we ve never lived under a socialist regime That s why it s so easy for the far left politicians to mesmerize our citizens with promises of a better future through economic and social equality They conveniently leave out the devastation that will be caused if socialism is ever adopted in our nation This is especially true for business owners and entrepreneurs As a Capitalism Strategist for over twenty years John Di Lemme has spoken to hundreds of thousands of people around the world and consulted for thousands of business owners and entrepreneurs that have devoted their entire lives to building successful businesses and brands He s seen how our capitalist economy gives us the freedom to build businesses market products services serve consumers and make and spend as much money as we want Because we own our businesses and are in control of the profits that we generate Yes the government does regulate various parts of our businesses and there are laws that we must follow to protect public interests but we are the ultimate decision makers for our success or failure John knew that he couldn t just sit back and watch as our free enterprise system is destroyed by socialists which would simultaneously ruin the lives of every business owner and entrepreneur in America He decided to confront the evils of socialism and call liberals out for their lies Understanding how to maximize capitalism in the United States economy

will stop the socialists in their tracks as businesses flourish and thrive This level of success is possible for any business owner or entrepreneur no matter their industry niche product or service when they implement the strategies and systems that John layouts in this book In order to defeat your enemy you must know your enemy Socialism is the enemy of America He closes the book with the ABCs of Socialism versus Capitalism which provides a more than detailed personal business and political perspective on the benefits of Capitalism and the pitfalls of Socialism John invites you to join the Making Capitalism Great Again movement to increase prosperity in America and defeat the economic enemy of socialism *Making Capitalism*

Without Capitalists Gil Eyal,Ivan Szelenyi,Eleanor R. Townsley,2000 Explores class formation and elite struggles in post communist Central Europe *The Making of Global Capitalism* Leo Panitch,Sam Gindin,2013-10-08 The all encompassing embrace of world capitalism at the beginning of the twenty first century was generally attributed to the superiority of competitive markets Globalization had appeared to be the natural outcome of this unstoppable process But today with global markets roiling and increasingly reliant on state intervention to stay afloat it has become clear that markets and states aren't straightforwardly opposing forces In this groundbreaking work Leo Panitch and Sam Gindin demonstrate the intimate relationship between modern capitalism and the American state The Making of Global Capitalism identifies the centrality of the social conflicts that occur within states rather than between them These emerging fault lines hold out the possibility of new political movements that might transcend global markets **Making Capitalism Fit For Society** Colin

Crouch,2014-08-21 Capitalism is the only complex system known to us that can provide an efficient and innovative economy but the financial crisis has brought out the pernicious side of capitalism and shown that it remains dependent on the state to rescue it from its own deficiencies Can capitalism be reshaped so that it is fit for society or must we acquiesce to the neoliberal view that society will be at its best when markets are given free rein in all areas of life The aim of this book is to show that the acceptance of capitalism and the market does not require us to accept the full neoliberal agenda of unrestrained markets insecurity in our working lives and neglect of the environment and of public services In particular it should not mean supporting the growing dominance of public life by corporate wealth The world's most successful mature economies are those that fully embrace both the discipline of the market and the need for protection against its negative outcomes Indeed a continuing unresolved clash between these two forces is itself a major source of vitality and innovation for economy and society But maintenance of that tension depends on the enduring strength of trade unions and other critical groups in civil society a strength that is threatened by neoliberalism's increasingly intolerant onward march Outlining the principles for a renewed and more assertive social democracy this timely and important book shows that real possibilities exist to create a better world than that which is being offered by the wealthy elites who dominate our public and private lives

Performing Technocapitalism Alev Coban,2024-04-02 In Kenya technology entrepreneurs and makers have to employ their work and emotions in order to re script their peripheral positionalities within technocapitalism and make Kenya a place

for technology development Based on ethnographic research in makerspaces and co working spaces in Nairobi Alev Coban argues that postcolonial technology entrepreneurship is neoliberal and inherently political work Technology developers narratives prototypes and digital fabrication tools unite to achieve ambiguous Kenyan futures of technocapitalist market integration and decolonial emancipation in order to foster national well being and disentangle Kenya from exploitative global structures
