Warrior Women and Trans Warriors Carolina Castellanos Gonella, 2024-11-15 Latin American literature has depicted warrior woman and trans warrior characters in armed conflicts but literary critics have not paid much attention to their empowerment. They also have critiqued these characters using traditional gender binary concepts or have viewed their access to power as evil or abnormal. *Warrior Women and Trans Warriors Performing Masculinities in Twentieth Century Latin American Literature* introduces a new perspective by analyzing how one trans warrior and two warrior women from three canonical novels contest traditional codes of behavior and appearance. It examines Pintada in the Mexican novel *Los de abajo* 1915, Doña Bárbara in the Venezuelan novel *Doña Bárbara* 1929 and Diadorim in the Brazilian novel *Grande sertão de Veredas* 1956. *Warrior Women and Trans Warriors* focuses on how these three characters challenge conventional norms and empower themselves by giving orders, using weapons, fighting, competing with other characters, exposing traditional gender ideologies and transgressing sartorial gender rules. Drawing on trans theory, intersectionality, gender performance theory, and masculinities studies, this book argues that performing masculinities allow these characters to occupy the place of the most desired position of their contexts. Central at the Margin Renata Ruth Mautner Wasserman, 2007 Discusses Julia Lopes de Almeida, Rachel de Queiroz, Lygia Fagundes Telles, Clarice Lispector, and Carolina Maria de Jesus. Encyclopedia of Latin American Literature Verity Smith, 1997-03-26 A comprehensive encyclopedic guide to the authors' works and topics crucial to the literature of Central and South America and the Caribbean. The *Encyclopedia of Latin American Literature* includes over 400 entries written by experts in the field of Latin American studies. Most entries are of 1500 words, but the encyclopedia also includes survey articles of up to 10,000 words on the literature of individual countries of the colonial period and of ethnic minorities, including the Hispanic communities in the United States. Besides presenting and illuminating the traditional canon, the encyclopedia also stresses the contribution made by women authors and by contemporary writers. Outstanding Reference Source, Outstanding Reference Book. **The Woman of a Thousand Names** Alexandra Lapierre, 2020-03-31 From the internationally bestselling author of the fascinating epic *Associated Press Between Love and Honor* comes a rich, sweeping tale based on the captivating true story of the Mata Hari of Russia, featuring a beautiful aristocrat fighting for survival during the deadly upheaval of the Russian Revolution. Born into Russian aristocracy, wealth, and security, Moura never had any reason to worry. But in the upheaval of the Bolshevik Revolution, her entire world crumbles. As her family and friends are being persecuted by Vladimir Lenin's ruthless police, she falls into a passionate affair with British secret agent Sir Robert Bruce Lockhart. But when he is abruptly and mysteriously deported from Russia, Moura is left alone and vulnerable. Now she must find new paths for her survival, even if it means shedding her past and taking on new identities. Some will praise her tenderness and undying loyalty; others will denounce her lies. But all will agree on one point: Moura embodies life at all cost. Set against the volatile landscape of 20th-century Russia, *The Woman of a Thousand Names* brings history to vivid life in

a captivating tale about an extraordinary woman caught in the waves of change with only her wits to save her *Redefining Latin American Historical Fiction* H. Weldt-Basson, 2013-06-05 Current scholarship on Latin American historical fiction has failed to take feminism and postcolonialism into account This study uses these important contemporary discourses as a starting point for a new definition of the Latin American historical novel that includes national identity magical realism historical intertextuality and symbolism

Workers Before the Court Teixeira da Silva Fernando, 2019-03-18 Law and justice are studied in this book from the perspective of social and global history The main focus of *Workers Before the Tribunal* is to overcome traditional binary oppositions between corporatist and contratualist models of labor relations the former representing a view in which the working class would have more autonomy in struggling for better labor conditions the latter meaning the protagonism of the State in promoting labor rights Teixeira da Silva presents three main arguments First he shows that the Brazilian labor justice system created during the Get lio Vargas dictatorship 1930 1945 although inspired by Mussolini s legal order in Italy is very different from the Fascist Magistratura del Lavoro Second in his comparative analysis with other national cases such as the United States France Germany and Australia the author argues that there was a large circulation of ideas and practices resulting in a more complex dynamic of appropriation of international ideas on labor rights and institutions in Brazil Third Teixeira da Silva demonstrates that litigation in labor

courts was one strategy of the working class movement in Brazil together with strikes and other means of confrontation Therefore he questions historiographical and political approaches that see labor justice as a weak substitute for class action The jurisdictionalization of labor relations became a constitutive element in the making of the Brazilian working class The book is anchored in the research of hundreds of labor litigation cases during the dramatic months preceding the 1964 civil military coup that inaugurated a quarter century of dictatorial rule in Brazil
