Water Security: Big Data-Driven Risk Identification, Assessment and Control of Emerging Contaminants Bin Liang, Shu-Hong Gao, Hongcheng Wang, 2024-06-12 Water Security Big Data Driven Risk Identification Assessment and Control of Emerging Contaminants contains the latest information on big data driven risk detection and analysis risk assessment and environmental health effect intelligent risk control technologies and global control strategy of emerging contaminants First this book highlights advances and challenges throughout the detection of emerging chemical contaminants e g antimicrobials microplastics by sensors or mass spectrometry as well as emerging biological contaminant e g ARGs pathogens by a combination of next and third generation sequencing technologies in aquatic environment Second it discusses in depth the ecological risk assessment and environmental health effects of emerging contaminants Lastly it presents the most up to date intelligent risk management technologies This book shares instrumental global strategy and policy analysis on how to control emerging contaminants Offering interdisciplinary and global perspectives from experts in environmental sciences and engineering environmental microbiology and microbiome environmental informatics and bioinformatics intelligent systems and knowledge engineering this book provides an accessible and flexible resource for researchers and upper level students working in these fields Covers the detection high throughput analyses and environmental behavior of the typical emerging chemical and biological contaminants Focuses on chemical and biological big data driven aquatic ecological risk assessment models and techniques Highlights the intelligent management and control technologies and policies for emerging contaminants in water environments [French Warships in the Age of Sail, 1626-1786](#) Rif Winfield, Stephen S Roberts, 2017-10-30 The first comprehensive listing of these ships in English Profusely illustrated and impressively informative Midwest Book Review The origins of a permanent French sailing navy can be traced to the work of Cardinal Richelieu in the 1620s but this naval force declined rapidly in the 1650s and a virtually new Marine Royale had to be re created by Colbert from 1661 Thereafter Louis XIV s navy grew rapidly to become the largest and most powerful in the world at the same time establishing a reputation for the quality of its ship design that lasted until the end of sail The eighteenth century was to see defeat and decline revival and victory but by 1786 the French Navy had emerged from its most successful naval war having frequently outfought or outmaneuvered the British Navy in battle and in the process making a major contribution to American independence This book provides significant technical and building data as well as highlights of the careers of each ship in every class For the first time it is possible to form a clear picture of the overall development of French warships throughout the whole of the sailing era A handy and quick reference to a variety of vessels A top notch reference book British Tars 1740 1790 **André Malraux** John Beals Romeiser, 1994 An annotated listing of critical studies in English French German Italian and Spanish covering a half century of French author Malraux s 1901 1976 work Focusing on the critical reception of Malraux s work that began after the fall of France to Nazi Germany in 1940 it

covers all significant contributions to Malraux scholarship including magazine articles essays from scholarly or literary journals and edited collections and monographs Annotation copyright by Book News Inc Portland OR *Figuring the East* Marie-Paule Ha,2000-01-01 Examines the ambiguous constructions of the Orient in the works of four major twentieth century French writers *Microbial Ecotoxicology* Stéphane Pesce,Fabrice Martin-Laurent,Ed Topp,Ghiglione Jean-Francois,2020-07-17 **Space and Fates of International Law** Ekaterina Yahyaoui Krivenko,2020-09-17 The book offers the first analysis of the influence exercised by the concept of space on the emergence and continuing operation of international law By adopting a historical perspective and analysing work of two central early modern thinkers Leibniz and Hobbes it offers a significant addition to a limited range of resources on early modern history of international law The book traces links between concepts of space universality human cognition law and international law in these two early modern thinkers in a comparative fashion Through this analysis the book demonstrates the dependency of the contemporary international law on the Hobbesian concept of space Although some Leibnizian elements continue to operate they are distorted This continuing operation of Leibnizian elements is explained by the inability of international law which is based on the Hobbesian concept of space to ensure universality of its normative foundation French Political Travel Writing in the Interwar Years Martyn Cornick,Martin Hurcombe,Angela Kershaw,2017-02-10 This book studies travel writing produced by French authors between the two World Wars following visits to authoritarian regimes in Europe and the Union of Soviet Socialist Republics USSR It sheds new light on the phenomenon of French political travel in this period by considering the well documented appeal of Soviet communism for French intellectuals alongside their interest in other radical regimes which have been much less studied fascist Italy the Iberian dictatorships and Nazi Germany Through analyses of the travel writing produced as a result of such visits the book gauges the appeal of these forms of authoritarianism for inter war French intellectuals from a broad political spectrum It examines not only those whose political sympathies with the extreme right or extreme left were already publicly known but also non aligned intellectuals who were interested in political models that offered an apparently radical alternative to the French Third Republic This study shows how travel writing provided a space for reflection on the lessons France might learn from the radical political experiments of the inter war years It argues that such writing can usefully be read as a form of utopian thinking distinguishing this from colloquial understandings of utopia as an ideal location Utopianism is understood neither as a fantasy ungrounded in the real nor as a dangerously totalitarian ideal but in line with Karl Mannheim Paul Ric ur and Ruth Levitas as a form of non congruence with the real that it seeks to transcend The utopianism of French political travel writing is seen to lie not in the attempt to portray the destination visited as utopia but rather in the pursuit of a dialogue with radical political alterity **Routledge Companion to Shen Congwen** Gang Zhou,Sihe Chen,Zhang Xinying,Jeffrey C Kinkley,2019-06-07 This volume is about studies of Shen Congwen 1902 1988 one of the most important writers in modern China but more importantly it is about how Shen Congwen has been received in

and beyond Mainland China By presenting the best literary criticism on Shen Congwen in Mainland China over the past 80 years and views of how Shen Congwen has been understood interpreted and appreciated in Japan the US and Europe the editors propose a new way to approach the topics of canonic writers modern Chinese literature and world literature This is itself a translated project Its Chinese edition appeared in May 2017 The bilingual rendering of the best criticism of Shen Congwen from a global perspective intends to initiate and advance dialogues between Chinese and English language scholarly communities We strive to explore the complexities of worldwide images and interpretations of Shen Congwen By calling attention to the foreign spaces into which overseas Shen Congwens and modern Chinese literature are reborn as world literature we acknowledge and celebrate the study of Shen Congwen and modern Chinese literature as ongoing and endless cross cultural dialogues and manifestations
