Cognitive Governance and the Historical Distortion of the Norm of Modern Development: A Theory of Political Asymmetry Rueda, Renny,2023-11-27 In the world of academic scholarship there exists a pressing problem that has long confounded researchers and scholars alike The issue at hand is the glaring gap in our understanding of political asymmetry an elusive concept that holds the key to deciphering how institutions evolve and influence normative constructs within contemporary governance structures Despite its undeniable relevance political asymmetry has remained a neglected subject in social science discourse This omission hampers our capacity to explore the intricate interplay between cultural diversity normative representations and political dynamics As such a critical void persists in comprehending the complex mechanisms

that underpin governance practices in our ever evolving global landscape Cognitive Governance and the Historical Distortion of the Norm of Modern Development A Theory of Political Asymmetry offers an illuminating solution to this enduring problem This pioneering work presents a comprehensive and meticulously crafted exploration of the concept of political asymmetry providing both a theoretical taxonomy and an empirical roadmap for scholars eager to delve into uncharted territory By bridging this knowledge gap the book equips researchers with the tools needed to redefine how political asymmetry is not only understood but also applied in rigorous social science research It marks a transformative shift in our approach to political science enabling us to navigate the labyrinth of contemporary governance structures with newfound clarity

Successful Stabilization and Recovery in Mauritius Ravi Gulhati,Raj Nallari,1990 During the second half of the 1970s the Mauritian sugar boom ended For a number of years thereafter economic instability and financial troubles marred the picture The authors aim to analyze government policy leading up to this setback and to explore the process that ended with stabilization and recovery The reforms appeared to be successful Not only was inflation tamed and financial balance restored during 1984 86 but the economy resumed rapid growth and unemployment dropped to very low levels Not all problems were solved however Mauritius stayed very exposed to exogenous shocks and to adverse policy changes in its trading partners and manufactured exports stayed vulnerable to non tariff barrier restrictions on imports in developed countries and to recession in developed countries There are three lessons to be learned from Mauritius experience of stabilization and recovery 1 the sharp recovery in the economy would have been much less likely if the reforms had followed an acute and protracted crisis instead of being triggered by mild disequilibrium 2 the recovery would have been less impressive if Mauritius did not have access to the relatively large EEC sugar quotas and 3 there was never much disagreement in principle with the international organizations on the direction of desired reforms

Lost Land of the Dodo Anthony Cheke,Julian P. Hume,2009-01-01 The Mascarene islands in the southern Indian Ocean Mauritius Reunion and Rodrigues were once home to an extraordinary range of birds and reptiles Evolving on these isolated volcanic islands in the absence of mammalian predators or competitors the land was dominated by giant tortoises parrots skinks and geckos burrowing boas flightless rails the birds and tortoises were slaughtered indiscriminately while introduced rats cats pigs and monkeys destroyed their eggs the once extensive forests logged and invasive introduced plants from all over the tropics devastated the ecosystem The now familiar icon of extinction the Dodo was gone from Mauritius within 50 years of human settlement and over the next 150 years many of the Mascarenes other native vertebrates followed suit The product of over 30 years research by Anthony Cheke *Lost Land of the Dodo* provides a comprehensive yet hugely enjoyable account of the story of the islands changing ecology interspersed with human stories the islands biogeographical anomalies and much else Many French publications old and new especially for Reunion are discussed and referenced in English for the first time The book is richly illustrated with maps and contemporary illustrations of the animals and their environment many of which have rarely been reprinted before Illustrated box texts look

in detail at each extinct vertebrate species while Julian Hume's superb colour plates bring many of the extinct birds to life

Lost Land of the Dodo provides the definitive account of this tragic yet remarkable fauna and is a must read for anyone interested in islands their ecology and the history of our relationship with the world around us *World Bank Staff Working Paper*, 1984

De l'économie coloniale à l'économie mondialisée - Aspects multiples de la transition (XXe et XXIe siècles) Fred Célimène, André Legris, 2011-12-15 Esclavage et colonisation ont placé des populations entières sous la domination d'autrui Au terme de luttes souvent sanglantes ces régimes se sont écroulés et ont permis aux uns de recouvrer la liberté aux autres de retrouver l'indépendance et l'autodétermination Au-delà du caractère politique idéologique et moral le renversement qu'a eu l'impact de ce dernier sur l'économie de ces régions et pays En quoi ces derniers s'inscrivent-ils encore dans un certain héritage colonial et quelles voies ouvrent-ils pour accéder leur propre originalité Comment leur développement se joue-t-il entre adaptation des systèmes hérités et ruptures avec ceux-ci De la Martinique à la Maurice approche des mutations de l'économie post coloniale Cet ouvrage collectif pose la question largement occultée de l'adaptation des anciennes colonies au paysage de l'économie mondiale en sondant plus particulièrement les prémisses latentes et les bouleversements connus par leur économie indissolublement liée au passé Axé sur les russites et les audaces ici sur les impasses et les obstacles rencontrés ailleurs ce volume a le mérite de ne pas se cantonner au seul registre économique mais de croiser encore perspectives historiques et philosophiques

Macroeconomic Policy Alternatives in the Dominican Republic F. Desmond McCarthy, 1984 Dominican Republic is an open economy with a relatively small domestic market Towards the end of the 1970s a number of external shocks in oil prices terms of trade and higher interest rates presented major problems This resulted in a surfacing of weakness in policy making and institutional structure that had not been apparent previously The debt situation steadily deteriorated as the government borrowed heavily for balance of payments support in 1981 and 1982 leading to the current near crisis situation The analysis in this paper suggests that under any reasonably likely external scenario Dominican Republic will be unable to achieve an acceptable per capita economic growth without major policy shifts Policy alternatives include i a move towards a unified exchange rate ii fiscal and institutional changes and iii a major shift in factor pricing together with a rethinking of investment strategy These policy initiatives should lay the base for a more buoyant and versatile

economy over the medium to long term This paper develops an analytical framework to examine these various policy alternatives **World Bank Research News** World Bank,1983 **International Labour Documentation** International Labour Office.
