Ceramic Review , 2005 **Ordinary Paradise** Richard Teleky, 2018-04-09 While representing the best of human endeavor works of art have become ordinary features of our lives familiar and reliably present writes Richard Teleky They are however extraordinary So extraordinary in fact that in themselves they are a kind of paradise In *Ordinary Paradise* acclaimed author critic and editor Richard Teleky considers a variety of artistic forms from novels and poems to paintings and sculptures to movies and musical compositions in celebration of the creative achievements that surround us and affect our daily lives He examines as well some of the challenges and tensions in any artist s life The essays in *Ordinary Paradise* challenge conventional wisdom and exemplify a dynamic and lively critical approach pointing out troubling trends in contemporary appreciation of art and culture They reveal the rewarding complexities of the demanding art of translation the nostalgic power of re reading in provoking self assessment and the fraught connection between language silence and identity as they relate to marginalized voices Teleky immerses himself into ideas of truth beauty and humanity and in so doing provides a compelling exemplar for engaging with contemporary culture and learning the innumerable lessons that artistic accomplishments have to teach us **Conquering Heroines** Sara Fitzgerald, 2020-07-09 In 1970 a group of women in Ann Arbor launched a crusade with an objective that seemed beyond reach at the time force the University of Michigan to treat women the same as men Sex discrimination was then rampant at U M The school s admissions officials sought to maintain a ratio of 55 45 between male and female undergraduate entrants turning away more qualified female applicants and arguing among other things that men needed help because they were less mature and posted lower grades Women comprised less than seven percent of the University s faculty members and their salaries trailed their male peers by substantial amounts As one administrator put it when pressed about the disparity Men have better use for the extra money Galvanized by their shared experiences with sex discrimination the Ann Arbor women organized a group called FOCUS on Equal Employment for Women led by activist Jean Ledwith King Working with Bernice Sandler of the Women s Equity Action League they developed

a strategy to unleash the power of another powerful institution the federal government to demand change at U M and they hoped across the world of higher education Prompted by a complaint filed by FOCUS the U S Department of Health Education and Welfare soon documented egregious examples of discrimination in Michigan s practices toward women and threatened to withhold millions of dollars in contracts unless the school adopted remedies Among the hundreds of similar complaints filed against U S colleges in 1970 1971 the one brought by the Michigan women achieved the breakthrough that provided the historic template for settlements with other institutions Drawing on oral histories from archives as well as new interviews with living participants Conquering Heroines chronicles this pivotal period in the histories of the University of Michigan and the women s movement An incredible story of grassroots activism and courageous women the book highlights the kind of relentless effort that has helped make inclusivity an ongoing goal at U M

Jobs, Robots & Us Kinley Salmon,2019-05-27 Could millions of jobs soon be eliminated by artificial intelligence and robots From driverless cars to digital assistants it seems the world of work is on the cusp of a technological revolution that is generating hopes and fears alike But are the robots really knocking at the door And what does all this mean for New Zealanders In this far sighted and lucid book Kinley Salmon explores the future of work in New Zealand He interrogates common predictions about a jobless future and explores what might happen to workers in New Zealand as automation becomes more widespread This book also asks big questions about the power we have to shape technological progress and to influence how robots and artificial intelligence are adopted It sketches out two bold alternative futures for New Zealand and suggests what it might take and what we might risk to pursue each of them It is time Salmon argues to start debating and choosing the future we want for New Zealand

Ceramics Monthly,1991 *Reclaiming the Black Past* Pero G. Dagbovie,2018-11-13 The past and future of Black history In this information overloaded twenty first century it seems impossible to fully discern or explain how we know about the past But two things are certain Whether we are conscious of it or not we all think historically on a routine basis And our perceptions of history including African American history have not necessarily been shaped by professional historians In this wide reaching and timely book Pero G. Dagbovie argues that public knowledge and understanding of black history including its historical icons has been shaped by institutions and individuals outside academic ivory towers Drawing on a range of compelling examples Dagbovie explores how in the twenty first century African American history is regarded depicted and juggled by diverse and contesting interpreters from museum curators to filmmakers entertainers politicians journalists and bloggers Underscoring the ubiquitous nature of African American history in contemporary American thought and culture each chapter unpacks how black history has been represented and remembered primarily during the Age of Obama the so called era of post racial American society *Reclaiming the Black Past* is Dagbovie s contribution to expanding how we understand African American history during the new millennium
