Music Of Harrison Birtwistle:

Harrison Birtwistle Jonathan Cross,2000 Sir Harrison Birtwistle is the most original the most challenging and the most controversial British composer of our time His notoriously angular music is at once defiantly modernist and deeply indebted to the traditions medieval and modern of English music Birtwistle composes for ensembles of every size and shape but is perhaps best known for his music for the opera stage His opera Gawain possibly his most famous work is fully characteristic in its marriage of a modernist musical language and a mythic subject Accessible to anyone with an interest in modern music this book uncovers the sources of Birtwistle s art and presents a critical account of his musical dramatic and aesthetic preoccupations through an exploration of such topics as theater myth ritual pastoral pulse and line It places Birtwistle in a broad cultural context examining the composers and painters who have influenced his work [The Music of Harrison Birtwistle](#) Robert Adlington,2006-11-02 Harrison Birtwistle has become the most eminent and acclaimed of contemporary British composers This book provides a comprehensive view of his large and varied output It contains descriptions of every published work and also of a number of withdrawn and unpublished pieces Revealing light is often cast on the more familiar pieces by considering these lesser known areas of Birtwistle s oeuvre The book is structured around a number of broad themes themes of significance to Birtwistle but also to much other music These include theatre song time and texture This approach emphasizes the music s multifarious ways of meaning now that even the academic world no longer takes the merits of difficult contemporary music for granted it is all the more important to assess what it represents beyond mere technical innovation Adlington thus avoids in depth technical analysis focusing instead upon the music s wider cultural significance

Harrison Birtwistle's Operas and Music Theatre David Beard,2012-10-25 A definitive source study of the stage works of Harrison Birtwistle one of Britain s foremost living composers [Harrison Birtwistle](#) Fiona Maddocks,Sir Harrison Birtwistle,2014-05-13 Anyone with the smallest interest in composition not just concertos but novels buildings lives you name it should read this absorbing spiky dazzling book Adam Thirwell TLS Books of the Year Harrison Birtwistle is recognised

worldwide as one of the greatest of living composers behind such works of trail blazingly modern classical music as *The Shadow of Night* and *The Mask of Orpheus* famously staged at the English National Opera in 1986 and winner of the Grawemeyer Award His music is both deeply original and highly personal yet he has always been notoriously reticent about explaining either his music or himself In this conversation diary spanning six months he talks openly to the distinguished writer and critic Fiona Maddocks author of the acclaimed *Hildegard of Bingen The Woman of her Age* offering rare insights into the challenges uncertainties and rewards which have shaped his life and work since childhood and which remain with him today as he enters his ninth decade We see the composer in the privacy of his Wiltshire studio and garden and in the public glare of the elite Salzburg and Aldeburgh Festivals But mostly he is at his kitchen table talking about the essential aspects of his life family cooking cricket landscape pruning trees and reflecting on the never easy process of composition What distinguishes him and his remarkable music is an ability to see the extraordinary in the everyday giving rise to work that is both elemental and profound For anyone concerned with the future of music this book is essential reading

The Music of Harrison Birtwistle Anthony Gritten, 2000 *Harrison Birtwistle: The Mask of Orpheus* Jonathan Cross, 2017-07-05

Hailed at its premiere at the London Coliseum in 1986 as the most important musical and theatrical event of the decade *The Mask of Orpheus* is undoubtedly a key work in Harrison Birtwistle's output His subsequent stage and concert pieces demand to be evaluated in its light Increasingly it is also viewed as a key work in the development of opera since the Second World War a work that pushed at the boundaries of what was possible in lyrical theatre In its imaginative fusion of music song drama myth mime and electronics it has become a beacon for many younger composers and the object of wide critical attention Jonathan Cross begins his detailed study of this lyric tragedy by placing it in the wider context of the reception of the Orpheus myth In particular the significance of Orpheus for the twentieth century is discussed and this provides the backdrop for an examination of Birtwistle's preoccupation with the story in a variety of works across his creative life The sources and genesis of *The Mask of Orpheus* are explored This is followed by a close reading of the work's three acts analysing their structure and meaning investigating the relationship between music text and drama drawing on Zinovieff's textual drafts and Birtwistle's compositional sketches The book concludes by suggesting a range of contexts within which *The Mask of Orpheus* might be understood Its central themes of time memory and identity loss mourning and melancholy touch a deep sensibility in late modern society and culture Interviews with the librettist and composer round off this important study

The Bible in Music Robert Ignatius Letellier, 2017-06-23 This book explores the relationship between the Bible and the world of music an association that is recorded from ancient times in the Old Testament and one that has continued to characterize the cultural self expression of Western Civilization ever since

Skin David Harsent, 2024-01-30 Skin David Harsent's new collection consists of ten dramatic sequences of poems which like a planetary system operate on one another in a dynamic assemblage of propulsion and pull

The stage is charged and minimal Harsent works from an image bank of touchstones accrued over the course of a long poetic career and rich with symbolic import doorways and windows a bed a mirror the sea the moon To which the players arrive in various configurations a man a woman a chorus of feral angels a caged bird the breath of animals Conveyed in language that is profoundly musical preoccupied with signs and portents numbers and repetitions driven by the mutable nature of desire the ensuing drama is intense domestic mythic and visionary

Salt David Harsent, 2017-10-17 Salt is a distinctive new assembly of poems by the multi award winning David Harsent Resting somewhere between fragment and exposition these intense and primal pieces stretch out across the measure of the page in brief utterances One extends sonnet length one consists of a single line but each piece uniquely completes its own world and at the same time shades on to the next as a succession of frames and stills and imaginings that lends light and colour in the round The poems in this book are a series not a sequence the author explains They belong to each other in mood in tone by way of certain images and words that form a ricochet of echoes not least the word salt Mineral eerie sensory spine tingling the poems in the collection are experienced as encounters some with the surety of daylight others in dream life that refresh with the turning of each page Like a set of shared notes or little fictions passed through space from hand to hand the writings build powerfully to make Salt an unforgettable volume from this most visionary of writers

Loss David Harsent, 2020-01-14 The city never sleeps Silence would weaken it When all else fails it talks to itself seamless thrum of machinery dark undertone It is 00 00 and the full of the night yet to come A haunting twenty part sequence that captures the rich psychological depth of a mind at night filmic in quality Each poem should be read in numerical order and consists of an unrhymed sonnet followed by a 60 line column sealed with a rhymed quatrain Between the sections a fragmentary account of a series of white nights endured by the male protagonist unfolds They speak of a world outside seen from inside a window vigil and tell of a recurring dream that takes place in a white landscape We learn of the man s life his childhood a doomed love affair and an apprehension of death but also of the savagely troubled world in which

we live mention of the Holocaust of Bataclan of Aleppo of ISIS of failed religion of rough sleepers Harsent tests and teases the balance between control and wildness demonstrating his breathtaking formal skill an arresting use of white space and conveying psychological turmoil all the more powerfully in this masterful fragmentary epic The Modernist Legacy: Essays on New Music Bj Heile, 2017-07-05 This collection of essays offers a historical reappraisal of what musical modernism was and what its potential for the present and future could be It thus moves away from the binary oppositions that have beset twentieth century music studies in the past such as those between modernism and postmodernism between conceptions of musical autonomy and of cultural contingency and between formalist analytical and cultural historical approaches Focussing particularly on music from the 1970s to the 1990s the volume assembles approaches from different perspectives to new music with a particular emphasis on a critical reassessment of the meaning and function of the legacy of musical modernism The authors include scholars musicologists and composers who combine culturally socially historically and aesthetically oriented approaches with analytical methods in imaginative ways Sound, Music and the Moving-Thinking Body Osvaldo Glieca, Marilyn Wyers, 2014-07-08 It has long been known that practicing musicians and dancers draw upon interdisciplinary relationships between sound and movement to inform their work and that many performance arts educators apply these relationships in working with aspiring composers choreographers and performers However most material on the subject has been to this point relegated to single chapters in books and journal articles Now Sound Music and the Moving Thinking Body brings together the diverse topics researchers and practitioners across the sector are exploring and raises issues concerning the collaborative aspects of creating and performing new work Sound Music and the Moving Thinking Body is a result of the Composer Choreographer and Performer Collaboration Conference of Contemporary Music and Dance Movement 2012 hosted by the Institute of Musical Research Senate House University of London and the Department of Music at Goldsmiths University of London Classical Music Duncan Clark, 2001 Sketches of classical composers and CD reviews **Opera after 1900** Margaret Notley, 2017-07-05 The articles reprinted in this volume treat operas as opera and from some sort of critical angle none of the articles uses methodology appropriate for another kind of musical work Additional criteria used in selecting the articles were that they should not have been reprinted widely before and that taken together they should cover an extended array of significant operas and critical questions about them Trends in Anglophone scholarship on post 1900 opera then determined the structure of the volume The anthologized articles are organized according to the place of origin of the opera discussed in each of them the introduction however follows a thematic approach Themes considered in the introduction include questions of genre and reception perspectives on librettos and librettists words lyricism and roles of the orchestra and modernism and other political contexts
