Neighborhood Control in the 1970's: Politics, Administration, and Citizen Participation H. George Frederickson, 1973

The Age of Direct Citizen Participation Nancy C. Roberts, 2015-01-28 Citizen involvement is considered the cornerstone of democratic theory and practice Citizens today have the knowledge and ability to participate more fully in the political technical and administrative decisions that affect them On the other hand direct citizen participation is often viewed with skepticism even wariness Many argue that citizens do not have the time preparation or interest to be directly involved in public affairs and suggest instead that representative democracy or indirect citizen participation is the most effective form of government Some of the very best writings on this key topic which is at the root of the entire reinventing government movement can be found in the journals that ASPA publishes or sponsors In this collection Nancy Roberts has brought together the emerging classics on the ongoing debate over citizen involvement Her detailed introductory essay and section openers frame the key issues provide historical context and fill in any gaps not directly covered by the articles More than just an anthology *The Age of Direct Citizen Participation* provides a unique and useful framework for understanding this important subject It is an ideal resource for any Public Administration course involving citizen engagement and performance management

Urban Education with an Attitude

Lauri Johnson, Mary E. Finn, Rebecca Lewis, 2012-02-01 This book profiles local and national efforts to transform urban education and reinvent urban teacher preparation It describes real programs in real urban schools that have developed policy initiatives that promote educational equity community based curricula and teacher education and parent empowerment programs that emphasize democratic collaboration among universities urban teachers parents and community members By involving all stakeholders this comprehensive approach provides a model for creating urban schools that not only excite and inspire but also serve as engines for social change Contending that urban education reform will fail without public engagement and a

commitment to social justice the contributors challenge urban educators to become accountable to their students and the communities they serve Social Equity and Public Administration: Origins, Developments, and Applications H George Frederickson, 2015-02-12 This book is designed to be the definitive statement on social equity theory and practice in public administration Social equity is often referred to as the third pillar in PA after efficiency and economy It concerns itself with the fairness of the organization its management and its delivery of public services H George Frederickson is widely recognized as the originator of the concept and the person most associated with its development and application The book's introduction and chapters 1-4 offer general descriptions of social equity in terms of its arguments and claims in changing political economic and social circumstances and trace the development of the concept over the past forty years Chapters 5-9 provide applications of social equity theory to particular policy arenas such as education or to specific public administration issues such as the range of administrative discretion the legal context the research challenges and social equity in the context of time and generations Chapters 10 and 11 describe the current state of social equity and look towards the future

Private Neighborhoods and the Transformation of Local Government Robert Henry Nelson, 2005 From 1980 to 2000 half the new housing in the United States was built in a development project governed by a neighborhood association More than 50 million Americans now live in these associations In *Private Neighborhoods and the Transformation of Local Government* Robert Nelson reviews the history of neighborhood associations explains their recent explosive growth and speculates on their future role in American society Unlike many previous studies Nelson takes on the whole a positive view Neighborhood associations are providing the neighborhood environment controls desired by the residents high quality common services and a stronger sense of neighborhood community Identifying significant operating problems Nelson proposes new options for improving the future governance of neighborhood associations
