**Jews and the Wine Trade in Medieval Europe** Haym Soloveitchik, 2024-05-03 Although Jews were at the centre of commercial activity in medieval Europe a talmudic ban on any wine touched by a Gentile prevented them from engaging in the lucrative wine trade Wine was consumed in vast quantities in the Middle Ages and the banks of the Rhineland hosted some of the finest vineyards in northern Europe German Jews were until the thirteenth century a merchant class How could they abstain from trading in one of the region's major commodities In time they ruled that it was permissible to accept wine in payment of debt but forbade trading in it and they maintained that ban throughout the Middle Ages Further study in the twelfth century however led Talmudists to discover that Jews were only forbidden to profit from trading in Gentile wine if they dealt with idolaters but that trade with Christians and Muslims was permitted Nevertheless the German community refused to take advantage of this clear licence Using Jewish and Gentile sources this study probes the sources of this powerful taboo In describing the complex ways in which deeply held cultural values affect Jews' engagement in the economy of the surrounding society this book also illustrates the law of unintended consequences how the ban on Gentile wine led both to a major Jewish contribution to German viticulture and to the involvement of Jews in moneylending with all its tragic consequences

**A Cultural History of Food in the Medieval Age** Massimo Montanari, 2014-05-22 Europe was formed in the Middle Ages The merging of the traditions of Roman Mediterranean societies with the customs of Northern Europe created new political economic social and religious structures and practices Between 500 and 1300 CE food in all its

manifestations from agriculture to symbol became ever more complex and integral to Europe's culture and economy. The period saw the growth of culinary literature, the introduction of new spices and cuisines as a result of trade and war, the impact of the Black Death on food resources, the widening gap between what was eaten by the rich and what by the poor, as well as the influence of religion on food rituals. A Cultural History of Food in the Medieval Age presents an overview of the period with essays on food production, food systems, food security, safety and crises, food and politics, eating out, professional cooking, kitchens and service work, family and domesticity, body and soul, representations of food and developments in food production and consumption globally.

**Power and Pleasure** Hugh M. Thomas, 2020-11-19. Although King John is remembered for his political and military failures, he also resided over a magnificent court. *Power and Pleasure* reconstructs life at the court of King John and explores how his court produced both pleasure and soft power. Much work exists on courts of the late medieval and early modern periods, but the jump in record keeping under John allows a detailed reconstruction of court life for an earlier period. *Power and Pleasure: Court Life under King John 1199-1216* examines the many facets of John's court, exploring hunting, feasting, castles, landscapes, material luxury, chivalry, sexual coercion, and religious activities. It explains how John mishandled his use of soft power, just as he failed to exploit his financial and military advantages, and why he received so little political benefit from his magnificent court. John's court is viewed in comparison to other courts of the time and in previous and subsequent centuries.

However, they were never the majority in the Middle Ages; almost all people were peasants. Not all farmers had the same category and social status. Many of them were free men. Among these, some were small landowners who lived on their own land, while others, the settlers, leased the feudal lord a small plot of land.

*Food, Feasting and Table Manners in the Late Middle Ages* Guillermo Alvar Nuño, 2023-12-01. This book offers a study of what and how people ate in the Iberian Peninsula between the twelfth and fifteenth centuries. It has long been recognized that Mediterranean cultures attach great importance to communal meals and food cooked with great refinement. However, whilst medieval feasting in England, France, and Italy has been thoroughly studied, Spain and Portugal have both been somewhat neglected in this area of study. This volume analyses how medieval men of the Iberian Peninsula questioned themselves about different aspects deemed important in social feasting. It investigates the acquisition of table manners and

rhetorical skills the interaction between medicine and eating and the presence of food in literature and religion The book also shows how this shared society and culture as well as their attitude towards food connected them to a Western European tradition The book will appeal to scholars and students alike interested in food and feasting from the perspectives of literature history language art religion and medicine and to those interested in a social cultural and literary overview of life in the Iberian Peninsula during the late Middle Ages      *Misconceptions About the Middle Ages* Stephen Harris, Bryon L.
