Parrett, 2011-11-22 Examine critical studies on high performing high poverty schools to identify how schools can fulfill the mission of educating all students to proficiency especially students at risk The authors compiled the most important research on how low performing high poverty schools achieved radical improvements in learning for their most vulnerable students and also identified eight best practices breaking them down into specific strategies often using real life examples from successful schools **Handbook of Research on Transitional Justice and**

Peace Building in Turbulent Regions Cante, Fredy, Quehl, Hartmut, 2015-12-17 In the era of globalization awareness surrounding issues of violence and human rights violations has reached an all time high In a world where billions of human beings have the potential to create endless destruction these same individuals are capable of working cooperatively to create adequate solutions to current global problems The Handbook of Research on Transitional Justice and Peace Building in Turbulent Regions focuses on current issues facing nations and regions where poverty and conflict are endangering the lives of citizens as well as the socio economic viability of those regions Highlighting crucial topics and offering potential solutions to problems relating to domestic and international conflict societal safety and security as well as political instability this comprehensive publication is designed to meet the research needs of economists social theorists politicians policy makers human rights activists researchers and graduate level students across disciplines Handbook of Regions and

Competitiveness Robert Huggins, Piers Thompson, 2017-03-31 The aim of this Handbook is to take stock of regional competitiveness and complementary concepts as a means of presenting a state of the art discussion of the contemporary theories perspectives and empirical explanations that help make sense of the determinants of uneven development across regions Drawing on an international field of leading scholars the book is assembled and organized so that readers can first learn about the theoretical underpinnings of regional competitiveness and development theory before moving on to deeper discussions of key factors and principal elements the emergence of allied concepts empirical applications and the policy context **Entrepreneurship in the Region** Michael Fritsch, Jürgen Schmude, 2007-10-23 Entrepreneurship in the Region

approaches many different aspects of entrepreneurship from a regional perspective The regional influences on entrepreneurship analyzed entail regional peculiarities and disparities in new business formation processes the success and

the employment effects of new firms the importance of social capital and of network structures as well as entrepreneurship education and training provided in the regions The articles in this book provide strong evidence for the importance of regional factors that shape entrepreneurship and new firm formation processes It is shown that regional differences of start up rates and entrepreneurial attitudes are not at all elusive but tend to be rather persistent and prevail over longer periods of time The evidence clearly suggests that the regional level can be an appropriate starting point for entrepreneurship policy and that research on the issue may considerably benefit from properly accounting for the spatial dimension

Russia's Regions and Comparative Subnational Politics William Mark Reisinger, 2013 Subnational political units are growing in influence in national and international affairs drawing increasing scholarly attention to politics beyond national capitals In this book leading Russian and Western political scientists contribute to debates in comparative politics by examining Russia's subnational politics Beginning with a chapter that reviews major debates in theory and method this book continues to examine Russia's 83 regions exploring a wide range of topics including the nature and stability of authoritarian regimes federal politics political parties ethnic conflict governance and inequality in a comparative perspective Providing both qualitative and quantitative data from 20 years of original research the book draws on elite interaction public opinion and the role of institutions regionally in the post Soviet years The regions vary on a number of theoretically interesting dimensions while their federal membership provides control for other dimensions that are challenging for globally comparative studies The authors demonstrate the utility of subnational analyses and show how regional research can help answer a variety of political questions providing evidence from Russia that can be used by specialists on other large countries or world regions in cross national scholarship Situated within broader theoretical and methodological political science debates this book will be of interest to students and scholars of Russian politics comparative politics regionalism and subnational politics
