India's political economy and the growth economies of Asia **Contesting Development** Philip McMichael, 2010-02-17 At a time when the development promise is increasingly in question with dwindling social gains the vision of modernity is losing its legitimacy and coherence This moment is observable through the lens of critical struggles of those who experience disempowerment displacement and development contradictions In this book case studies serve as an effective means of teaching key concepts and theories in the sociology of development This collection of cases all original never previously published and with framing essays by Phillip McMichael has been written with this purpose in mind An important additional feature is that the book as a whole reveals the limiting assumptions of development and suggests alternate conditions of possibility for social existence in the world today In that sense the book pushes the boundaries of thinking about development and makes an important theoretical contribution to the literature Politicizing Creative Economy Dia Da Costa, 2016-12-08 Scholars increasingly view the arts creativity and the creative economy as engines for regenerating global citizenship renewing decayed local economies and nurturing a new type of all inclusive politics Dia Da Costa delves into the global development nationalist and leftist progressive histories shaping these ideas with a critical ethnography of two activist performance groups in India the Communist affiliated Jana Natya Manch and Budhan Theatre a community based group of the indigenous Chhara people As Da Costa shows commodification heritage and management discussions inevitably creep into performance Yet the ability of performance to undermine such subtle invasions make activist theater a crucial site for considering what counts as creativity in the cultural politics of creative economy Da Costa explores the precarious lives livelihoods and ideologies at the intersection of heritage projects planning discourse and activist performance By analyzing the creators performers and activists involved individuals at the margins of creative economy as well as society Da Costa builds a provocative argument Their creative economy practices may survive challenge and even reinforce the economies of death displacement and divisiveness used by the urban poor to survive **A Companion to the Anthropology of Politics** David Nugent, Joan Vincent, 2008-04-15 This Companion offers an unprecedented overview of anthropology's unique contribution to the study of politics Explores the key concepts and issues of our time from AIDS globalization displacement and militarization to identity politics and beyond Each chapter reflects on concepts and issues that have shaped the anthropology of politics and concludes with thoughts on and challenges for the way ahead Anthropology's distinctive genre ethnography lies at the heart of this volume **Retro-modern India** Manuela Ciotti, 2012-03-12 Firmly situated within the analytics of the political economy of a north Indian province this book explores self fashioning in pursuit of the modern amongst low caste Chamars Challenging existing accounts of national modernity in the non West the book argues that subaltern classes shape their own ideas about modernity by taking and rejecting from models of other classes within the same national context While displacing the West in its colonial and non colonial manifestations as the immanent comparative focus the book puts forward a unique framework for the analysis of subaltern modernity This builds on the entanglements

between two main trajectories both of which are viewed as the outcome of the generative impetus of modernisation in India the first consists of the Chamar appropriation of socio cultural distinctions forged by 19th century Indian middle classes in their encounter with colonial modernity the second features the Chamar subversion of high caste ideals and practices as a result of low caste politics initiated during the 20th century The author contends that these conflicting trends give rise to a temporal antinomy within the Chamar politics of self making caught up between compulsions of a past modern and of a contemporary one The eclectic outcome is termed as retro modernity While the book signals a politics of becoming whose dynamics had previously been overlooked by scholars it simultaneously opens up novel avenues for the understanding of non elite modern life forms in postcolonial settings The book will interest scholars of anthropology South Asian studies development studies gender studies political science and postcolonial studies

Crossing Borders deconstructs contemporary theories of Soviet history from the revolution through the Stalin period and offers new interpretations based on a transnational perspective To Michael David Fox Soviet history was shaped by interactions across its borders By reexamining conceptions of modernity ideology and cultural transformation he challenges the polarizing camps of Soviet exceptionalism and shared modernity and instead strives for a theoretical and empirical middle ground as the basis for a creative and richly textured analysis Discussions of Soviet modernity have tended to see the Soviet state either as an archaic holdover from the Russian past or as merely another form of conventional modernity David Fox instead considers the Soviet Union in its own light as a seismic shift from tsarist society that attracted influential visitors from the pacifist Left to the fascist Right By reassembling Russian legacies as he shows the Soviet system evolved into a complex intelligentsia statist form that introduced an array of novel agendas and practices many embodied in the unique structures of the party state Crossing Borders demonstrates the need for a new interpretation of the Russian Soviet historical trajectory one that strikes a balance between the particular and the universal
