Regional Security in the Middle East Pinar Bilgin, 2019-01-31 In this new and fully revised edition Pinar Bilgin provides an accessible yet critical analysis of regional security in the Middle East analysing the significant developments that have taken place in the past years Drawing from a wide range of critical approaches to security the book offers a comprehensive study of pasts presents and futures of security in the region The book distinguishes itself from previous critical studies on regional security by opening up both region and security Different from those approaches that bracket one or the other this study takes seriously the constitutive relationship between inventing regions and conceptions and practices of security There is not one Middle East but many shaped by the insecurities of those who voice them This book focuses on how present day insecurities have their roots in practices that have throughout history been shaped by geopolitical inventions of security In doing so the book lays the contours of a framework for thinking critically about regional security in this part of the world This second edition of *Regional Security in the Middle East* is a key resource for students and scholars interested in International Relations and Political Science Security Studies and Middle East Studies **Security Studies**

explain the variations in the outcomes of great power interventions and the differences in the level and type of war and peace in different eras and various parts of the world For example the book s model can account for recent outcomes such as the effects of the 2003 American intervention in Iraq the post 2011 Arab Spring and the conflicts between Russia and Ukraine The book also provides a model for explaining the changes in American grand strategy with a special focus on accounting for the causes of the invasion of Iraq in 2003 Finally the book addresses the debate on the future of war and peace in the 21st century This book will be essential reading for students of international security regional security Middle Eastern politics foreign policy and IR

Building Regional Security in the Middle East Emily B. Landau, Tamar Malz, Zeev Maoz, 2004-11-23 Discussions on regional security were initiated in the Middle East in 1992 as part of the Middle East peace process The collapse of the Oslo process and other regional developments in the latter half of the 1990s have diminished hopes that the initial gains made in this direction might further develop as violence has again become the primary mode of effecting political changes in the region On the backdrop of this somewhat dismal current reality in the Middle East the rationale for this volume is that research into regional security structures should nevertheless be pursued When looking at the long term process of creating regional security setbacks are not unlikely The articles that make up this collection focus on the problems that have been encountered and possible directions for getting regional efforts back on track A special issue of the *Journal of Strategic Studies*
