“collectivity” in Romance languages Désirée Kleineberg, 2022-08-22 Die im Jahre 1905 von Gustav Gröber ins Leben gerufene Reihe der Beihefte zur Zeitschrift für romanische Philologie zählt zu den renommiertesten Fachpublikationen der Romanistik. Die Beihefte pflegen ein gesamtromanisches Profil, das neben den Nationalsprachen auch die weniger im Fokus stehenden romanischen Sprachen mit einschließt. Zur Begutachtung können eingereicht werden Monographien und Sammelbände zur Sprachwissenschaft in ihrer ganzen Breite, zur mediävistischen Literaturwissenschaft und zur Editionsphilologie. Mögliche Publikationssprachen sind Französisch, Spanisch, Portugiesisch, Italienisch und Rumänisch sowie Deutsch und Englisch. Sammelbände sollten thematisch und sprachlich in sich möglichst einheitlich gehalten sein. Methods in Historical Pragmatics Susan M. Fitzmaurice, Irma Taavitsainen, 2008-08-22 This volume represents a timely collective review and assessment of what it is we do when we do English historical pragmatics or historical discourse analysis. The context for the volume is a critical assessment of the assumptions and practices defining the body of research conducted on the history of the English language from the perspective of historical pragmatics broadly construed. The aim of the volume is to engage with matters of approach and method from different perspectives; accordingly, the contributions offer insights into earlier communicative practices, registers and linguistic functions as gleaned from historical discourse. The essays are grouped according to their orientations within the scope of the study of language and meaning in historical texts, both literary and non-literary. The structure of the volume thus represents a critical convergence of traditions of reading texts and analyzing discourse, and this in turn exposes key questions about the methods and the outcomes of such readings or analyses. The volume contributes to the growing maturity of historical pragmatic research approaches as it exemplifies and extends the range of approaches and methods that dominate the research enterprise. Contributors are prominent international scholars in the fields of linguistics, literature and philology: Dawn Archer, Birte B. S. Laurel Brinton, Gabriella Del Lungo Camiciotti, James Fitzmaurice, Susan Fitzmaurice, Monika Fludernik, Andreas Jucker, Thomas Kohnen, Ursula Lenker, Lynne Magnusson and Irma Taavitsainen.

The Oxford Handbook of Human Symbolic Evolution Nathalie Gontier, Andy Lock, Chris Sinha, 2024-01-17 The biological and neurological capacity to symbolize and the products of behavioral, cognitive, sociocultural, linguistic and technological uses of symbols: symbolism are fundamental to every aspect of human life. The Oxford Handbook of Human Symbolic Evolution explores the origins of our characteristically human abilities: our ability to speak, create images, play music and read and write. The book investigates how symbolization evolved in human evolution and how symbolism is expressed across the various areas of human life. The field is intrinsically interdisciplinary, considering findings from fossil studies, scientific research from primatology, developmental psychology and of course linguistics. Written by world-leading experts, thirty-eight topical chapters are grouped into six thematic parts that respectively focus on epistemological, psychological, anthropological, ethological, linguistic and social technological aspects of human symbolic evolution. The handbook presents an in-depth but comprehensive and interdisciplinary overview of the state of the art.
