REGULATING COMMERCIAL GAMBLING

Past, Present, and Future

DAVID MIERS

Regulating Commercial Gambling

W.A. Bogart

Regulating Commercial Gambling:

Regulating Commercial Gambling David Miers, 2004 Three quarters of the British population gamble mainly on the National Lottery and they generate around 46 billion pounds a year This volume sets recent developments in the regulation and deregulation of its three primary forms betting gaming and lotteries against an account of their social and legal history Many of the concerns that excite controversy today are little different from those with which the Home Office grappled for most of the nineteenth and twentieth centuries Based upon Home Office files and contemporary accounts this book begins by evaluating how the law was used to control and suppress popular gambling Miers shows how and why prohibition gave way to the recognition that regulation offered a more effective method of controlling a social pastime that by the mid twentieth century had become a feature of everyday life Concerns over gambling have recently resurfaced as a result of Government proposals to replace the existing strict controls with a regulatory regime that will give greater scope for licensees to adopt more competitive practices Like the introduction of the National Lottery in 1994 these proposals represent a marked departure from the traditional response to permit but not to stimulate commercial gambling The potential for expansion in opportunities to gamble raises concerns about the accessibility of gambling to children and the possibility of increased numbers of problem gamblers Miers examines the implementation and impact of the present law governing gaming and the National Lottery in terms of regulation and the enforcement of regulatory regimes He focusses on how these regimes regulate the probity of the supplier the supply of gambling opportunities the nature of the transaction and the player s participation The book concludes with an evaluation of the Gambling Bill a draft of which was published in 2003 aiming to give effect to the Government s proposals

The Regulation of Gambling Alan David Littler, Cyrille Fijnaut, 2007 In November 2005 Tilburg University hosted for the first time an international Colloquium on the European and National Perspectives of the Regulation of Gambling The results of this exciting day are reflected in this book which brings together a wide range of perspectives from the contemporary debate surrounding the regulation of gambling markets within the context of the European Union Not only does the book encompass both ends of the spectrum of the current discussion it also brings together the perspectives of academics lawyers and operators The debate on the regulation of gambling has been gathering pace following a series of judgments of the ECJ In 2006 gambling was excluded from the proposed Services Directive and the European Commission commenced infringement proceedings against a handful of Member States regarding restrictions on the supply of sports betting services Given these developments and being one of the very few publications concerned with this topic this book will serve as a timely and valuable contribution for all those interested in this emerging and at times decisive debate

Crime, Addiction and the Regulation of Gambling A. Spapens, Cyrille J.C.F. Fijnaut, Alan Littler, 2009-02-28 This is the third book to be produced by members of the Gambling Research Group associated with Tilburg University s Faculty of Law concerning issues closely connected with the debate on the gambling policies that the European

Union and its Member States are pursuing

The first book Alan Littler and Cyrille Fijnaut eds *The Regulation of Gambling European and National Perspectives* Leiden Martinus Nijhoff Publishers 2007 mainly considers the legal aspects of gambling regulation at both European Union and Member State level

The second book Tom Coryn Cyrille Fijnaut and Alan Littler eds *Economic Aspects of Gambling Regulation EU and US Perspectives* Leiden Martinus Nijhoff Publishers 2008 looks at research conducted in the United States and the European Union into the costs and benefits involved in the regulation of gambling

The contributions to this third book turn the spotlight on two social problems crime and addiction both of which play a significant part in the institutional debate in the European Union concerning whether gambling should be treated as a service that like other services should be subject to the laws universally applicable to the internal market

This volume is primarily devoted to the research that has been conducted in several Member States into the problems of gambling related crime and addiction

It also examines developments at EU level

What policy is the European Commission currently pursuing

And what stance does the European Court of Justice take these days

Crime and addiction problems that can arise in the context of online gambling and at possible ways of keeping them under control are also examined

Gambling Regulation and Vulnerability Malgorzata Anna Carran, 2018-03-30

Since the UK Gambling Act of 2005 was introduced gambling has stopped being seen politically and legally as an inherent vice and is now viewed as a legitimate form of entertainment

Gambling Regulation and Vulnerability explores the laws around gambling that aim to protect society and individuals examining the differences between regulatory rhetoric and the impact of legislative and regulatory measures

Malgorzata Carran finds that although the Gambling Act introduced many positive changes to gambling regulation it has created an environment in which protection of vulnerable individuals becomes difficult

Carran challenges the existing legislative premise that regulation alone is able to balance the effect of liberalisation for those who are vulnerable

Economic Aspects of Gambling Regulation Tom Coryn, Cyrille Fijnaut, Alan Littler, 2008

Il libro riporta i contributi presentati nel Colloquio internazionale sugli aspetti economici della giurisdizione sul gioco con riferimento ad Europa e Stati Uniti

Universit di Tilburg 2005

Sono analizzate le attuali prospettive sul tema in particolare quelle di legislatori accademici ed operatori

Gaming United States. Congress. Senate. Committee on Indian Affairs (1993-), 2005

Member States versus the European Union Alan Littler, 2011-04-11

Since the 1990s the European Court of Justice has provided an institutional backdrop from which the requirements of EU law regarding gambling regulation are evolving

Given the total absence of harmonisation Member States are competent to regulate gambling conditional upon such regulation being compatible with EU law

This book analyses the regulatory approaches undertaken in France the Netherlands and the United Kingdom regarding a variety of forms of online and offline gambling with a view to assessing the compatibility of these approaches

Furthermore it illustrates prevailing commonalities between the regimes and injects a degree of realism into the debate softening the hard stance taken by stakeholders at opposite ends of the policy spectrum

Gambling Regulation, Consumer Protection, and Enforcement Act United States. Congress. House. Committee on Financial Services, 2010 **Regulating Obesity?** W.A. Bogart, 2013-11 This book explores the effectiveness of legal interventions aimed at promoting healthier lifestyles In it W A Bogart examines the complex effects of law and its relationship with norms including the unintended consequences of regulation *Gaming, S. Hrg. 109-50, Pt. 1, April 27, 2005, 109-1 Hearing, **, 2005 *The Casino and Society in Britain* Seamus Murphy, 2020-11-23 This book is a study of the British casino industry and how it has been shaped by criminality prohibition regulation and liberalization since the beginning of the First World War The reader will gain a detailed knowledge of the history culture identity and participants within the British casino industry which has to date escaped the attention of a dedicated historical and criminological investigation This monograph fills this gap in inquiry while drawing on primary source material that has not been used previously including but not confined to records in the National Archives relating to the Gaming Board of Great Britain and the Metropolitan Police In addition to archive material oral histories newspapers published journals and books have been utilised and referenced where appropriate Envisaged to close a gap in historical research this book will be of interest to historians criminologists regulators students and individuals interested in gambling society and cultural history Gambling, Crime and Society James Banks, 2017-03-09 This book explores the manifold actual possible and probable interconnections between gambling and crime in the context of the increased availability of wagering activities across many regions of the world It examines the impact of the proliferation and propinquity of land based betting establishments on crime the role of organised crime in the provision of both licit and illicit forms of gambling as well as problem gambling crime and the administration of criminal justice It also assesses the links between gambling sport and corruption and the dimensions of crime that takes place in and around internet gambling sites A thought provoking study this will be of particular interest to scholars in the fields of sociology criminology and social policy **In the Shadow of Luxembourg: EU and National Developments in the Regulation of Gambling** Alan Littler, Nele Hoekx, Cyrille J.C.F. Fijnaut, 2011-01-17 This book provides a number of differing views on the consequences of the stream of gambling related case law from the European Court of Justice and political debates alongside current regulatory developments occurring within five Member States **The Gambling Act 2005** Great Britain: Parliament: House of Commons: Culture, Media and Sport Committee, 2012-07-24 High street betting shops and casinos alike are currently allowed a maximum of four B2 FOBT gaming machines which allow stakes up to 100 and a 500 prize Casinos should instead be permitted to operate up to twenty B2 type gaming machines Limiting the number of B2 machines in betting shops has encouraged them to cluster in some high streets in order to satisfy customer demand Local Authorities should have the power to permit more than the four B2 machines per shop if they believe it will help with clustering The Committee also recommends that any local authority be able to make the decision as to whether or not they want a casino As a step towards this existing 1968 Act Casino licences should be made portable allowing operators to

relocate to any local authority provided that they continue to be constrained by the need to obtain local authority approval a premises licence and planning permission The failure to set remote gambling taxation at a level at which online operators could remain within the UK has led to almost every online gambling operator moving offshore whilst most are still able to advertise and operate into the UK The Committee further recommends the Gambling Commission should introduce a new licence fee structure which reduces the current anomaly where small independent bookmakers pay much higher fees per shop than large chains Particularly given the absence of a significant UK regulated online sector or any Regional Casinos the Gambling Commission remains an overly expensive bureaucratic regulator **Gambling Cultures** Jan McMillen, 2005-12-20

First published in 1996 Routledge is an imprint of Taylor Francis an informa company **The Rise of Mass Advertising** Anat Rosenberg, 2022-08-25 This is an open access title available under the terms of a CC BY NC ND 4.0 International licence It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations The Rise of Mass Advertising is a first cultural legal history of advertising in Britain tracing the rise of mass advertising c 1840 1914 and its legal shaping The emergence of this new system disrupted the perceived foundations of modernity The idea that culture was organized by identifiable fields of knowledge experience and authority came under strain as advertisers claimed to share values with the era's most prominent fields including news art science and religiously inflected morality While cultural boundaries grew blurry the assumption that the world was becoming progressively disenchanted was undermined as enchanted experiences multiplied with the transformation of everyday environments by advertising Magical thinking a dwelling in mysteries searches for transfiguration affective connection between humans and things and powerful fantasy disrupted assumptions that the capitalist economy was a victory of reason The Rise of Mass Advertising examines how contemporaries came to terms with the disruptive impact by mobilizing legal processes powers and concepts Law was implicated in performing boundary work that preserved the modern sense of field distinctions Advertising's cultural meanings and its organization were shaped dialectically vis vis other fields in a process that mainstreamed and legitimized it with legal means but also construed it as an inferior simulation of the values of a progressive modernity exhibiting epistemological shortfalls and aesthetic compromises that marked it apart from adjacent fields The dual treatment meanwhile disavowed the central role of enchantment in what amounted to a normative enterprise of disenchantment One of the ironies of this enterprise was that it ultimately drove professional advertisers to embrace enchantment as their peculiar expertise The analysis draws on an extensive archive that bridges disciplinary divides It offers a novel methodological approach to the study of advertising which brings together the history of capitalism the history of knowledge and the history of modern disenchantment and yields a new account of advertising's significance for modernity
