

Sexual Identities

- Despite recent binary constructions of hetero- homo- and bi- sexualities, sexuality is far more complex, fluid and socially, historically and contextually contingent
- Since Kinsey, there has been growing recognition of the overlap between the hetero- and the homo- and of sexual fluidity in individual lives.
- Sexuality is contested: behaviour, orientation (innate or acquired), a strategic identity, an actual identity, with/out a politicised component, a broader ethos....
- Sexuality is plural, gendered, socially, temporally and spatially contingent.

Regulation Of Desire Homo And Hetero Sexualities:

The Regulation of Desire Gary William Kinsman, 1996 A substantial contribution to our understanding of the politics of same gender sexual relations

Queer Inclusions, Continental Divisions David Rayside, 2008-04-05 No area of public policy and law has seen more change than lesbian gay bi sexual and trans gender rights and none so greatly needs careful comparative analysis *Queer Inclusions Continental Divisions* explores the politics of sexual diversity in Canada and the United States by analyzing three contentious areas relationship recognition parenting and schooling It enters into long standing debates over Canadian American contrasts while paying close attention to regional differences David Rayside s examination of change over time in the public recognition of sexual minorities is based on his long experience with the analysis of trends as well as on a wide ranging search of media legal and social science accounts of developments across Canada and the United States Rayside points to a take off pattern in Canadian policy change on relationship recognition and parenting but not in schooling At the same time he explores the reasons for a pioneering pattern in early gains by American LGBT activists a surprising number of court wins by American lesbian and gay parents and changes in American schooling that while still modest are more substantial than those instituted by the Canadian system *Queer Inclusions Continental Divisions* is a timely examination of controversial policy areas in North America and a reasoned judgment on the progress of lesbian and gay issues in our time

Planning and LGBTQ Communities Petra L. Doan, 2015-03-24 Although the last decade has seen steady progress towards wider acceptance of lesbian gay bisexual transgendered and queer LGBTQ individuals LGBTQ residential and commercial areas have come under increasing pressure from gentrification and redevelopment initiatives As a result many of these neighborhoods are losing their special character as safe havens for

sexual and gender minorities Urban planners and municipal officials have sometimes ignored the transformation of these neighborhoods and at other times been complicit in these changes Planning and LGBTQ Communities brings together experienced planners administrators and researchers in the fields of planning and geography to reflect on the evolution of urban neighborhoods in which LGBTQ populations live work and play The authors examine a variety of LGBTQ residential and commercial areas to highlight policy and planning links to the development of these neighborhoods Each chapter explores a particular urban context and asks how the field of planning has enabled facilitated and or neglected the specialized and diverse needs of the LGBTQ population A central theme of this book is that urban planners need to think beyond queer space because LGBTQ populations are more diverse and dispersed than the white gay male populations that created many of the most visible gayborhoods The authors provide practical guidance for cities and citizens seeking to strengthen neighborhoods that have an explicit LGBTQ focus as well as other areas that are LGBTQ friendly They also encourage broader awareness of the needs of this marginalized population and the need to establish more formal linkages between municipal government and a range of LGBTQ groups Planning and LGBTQ Communities also adds useful material for graduate level courses in planning theory urban and regional theory planning for multicultural cities urban geography and geographies of gender and sexuality
