Housing and Planning References ,1983      *Politics and Public Policy* Donald C. Baumer,Carl E. Van Horn,2013-07-09

Getting beyond the traditional policy cycle discussed in most textbooks the fully updated fourth edition of Politics and Public Policy offers a more comprehensive and realistic view of policymaking in the United States one that looks beyond the jockeying between presidents and members of Congress and explores the influence of corporate leaders interest groups bureaucrats judges and journalists The book explores six distinct yet connected policy domains Boardroom Politics decisions by business leaders and professionals Bureaucratic Politics rule making and adjudication by administrators Cloakroom Politics lawmaking by legislators Chief Executive Politics decision making by presidents governors mayors and their advisers Courtroom Politics rulings by judges and Living Room Politics opinions expressed through the mass media grassroots movements political activists and voters The authors unique framework prepares students to evaluate the strategies of various political actors within each domain      Regulation and Its Alternatives Alan Stone,1982      *The Politics of American Economic Policy Making* Paul Peretz,2016-09-16 A reader on American government and the economy It contains wide ranging articles by people such as Richard Musgrave Milton Friedman James Buchanan and Alan Greenspan      Alaska Politics and Public Policy Clive S. Thomas,Laura Savatgy,Kristina Klimovich,2016-06-15 Politics in Alaska have changed significantly since the last major book on the subject was published more than twenty years ago with the rise and fall of Sarah Palin and the rise and fall of oil prices being but two of the many developments to alter the political landscape This book the most comprehensive on the subject to date focuses on the question of how beliefs institutions personalities and power interact to shape Alaska politics and public policy Drawing on these interactions the contributors explain how and why certain issues get dealt with successfully and others unsuccessfully and why some issues are taken up quickly while others are not addressed at all This comprehensive guide to the political climate of Alaska will be essential to anyone studying the politics of America s largest and in some ways most unusual state      **The Politics of Marketising Asia** T. Carroll,D. Jarvis,2014-05-29 Economic growth continues to transform the economic and political landscape of Asia Equally the policies now being adopted to promote private sector participation re structure state entities and reduce the presence of the state in the provision of public goods and services are tied to fundamental transformations in Asia s state society relations The global cast of contributors present a timely analysis of the impact of neo liberalism on Asia s developmental policies and the organisation of Asian states and markets Ironically the developmental state that has historically driven Asia s rapid economic transformation is now threatened by an increasingly dominant neoliberal agenda that aims to roll back the state in the name of market fundamentalism      **Public Forces and Private Politics in American Big Business** Timothy Werner,2012-06-21 What are the political motivations behind firms decisions to adopt policies that self regulate their behavior in a manner that is beyond compliance with state federal and local law Public Forces and Private Politics in American Big Business advances a

new understanding of the firm as a political actor that expands beyond the limited conceptualizations offered by economists and organization theorists Timothy Werner develops a general theory of private politics that is tested using three case studies the environment gay rights and executive compensation Using the conclusions of these case studies and an analysis of interviews with executives at Fortune 500 firms Werner finds that politics can contribute significantly to our understanding of corporate decision making on private policies and corporate social responsibility in the United States

**Alternative Tracks** Gerald Berk,1997-07-23 Berk concludes that our understanding of historical political economy must take markets technologies and organizational forms as the contingent outcomes of such constitutional politics rather than as premeditated contexts for state and economic development

**Politics, Values, And Public Policy** Frank Fischer,2019-06-04 Addressed to the growing concerns about norms and values in policy assessment this study develops a methodology for the political evaluation of public policy It is designed to move policy evaluation beyond its current emphasis on efficient achievement of goals focusing instead on the assessment of the acceptability of the goals themselves emplo

**Regulatory Politics in an Age of Polarization and Drift** Marc Allen Eisner,2017-02-24 Regulatory change is typically understood as a response to significant crises like the Great Depression or salient events that focus public attention like Earth Day 1970 Without discounting the importance of these kinds of events change often assumes more gradual and less visible forms But how do we see change and what institutions and processes are behind it In this book author Marc Eisner brings these questions to bear on the analysis of regulatory change walking the reader through a clear eyed and careful examination of the dynamics of regulatory change since the 1970s social regulation and institutional design forms of gradual change including conversion layering and drift gridlock polarization and the privatization of regulation financial collapse and the anatomy of regulatory failure Demonstrating that transparency and accountability the hallmarks of public regulation are increasingly absent and that deregulation was but one factor in our most recent significant financial collapse the Great Recession this book urges readers to look beyond deregulation and consider the broader political implications for our current system of voluntary participation in regulatory programs and the proliferation of public private partnerships This book provides an accessible introduction to the complex topic of regulatory politics ideal for upper level and graduate courses on regulation government and business bureaucratic politics and public policy

**Bank Politics** David Howarth,Scott James,2022-11-29 This book examines the response of financial regulators to the problem of banks being too big to fail David Howarth and Scott James explore the politics of bank structural reform across six key jurisdictions and propose a novel framework for analysing the influence of financial industry influence

**Ethics and the politics of food** Matthias Kaiser,Marianne Elisabeth Lien,2023-08-28 Food has emerged as a political topic par excellence It is increasingly involved in controversies at a transnational level in relation to issues of access dominance trade and control in a shared global environment At the same time innovations in biotechnology and animal domestication have brought ethics to the forefront of

food debates Thus we live in an era when the ethics and the politics of food must come together This book addresses the ethics and the politics of food from a broad range of academic disciplines including sociology philosophy nutrition anthropology ethics political science and history The chapters expose novel problem areas and suggest guidelines for approaching them Topics range from fundamental issues in philosophy to sustainability from consumer trust in food to ethical toolkits Transparency power and responsibility are key concerns and special attention is given to animal welfare emerging technologies in food production and marine domestication Together the chapters represent a wide range of academic responses to the fundamental dilemmas posed by food production and food consumption in the contemporary world

**In the Long Run We're All Dead** Timothy Lewis, 2003 Canadian politics in the 1990s were characterized by an unwavering focus on the deficit At the beginning of the decade it seemed that fiscal deficits were intractable a fait accompli of Canadian politics Yet by the end of the decade remarkably Ottawa had eradicated its budgetary shortfalls How such a radical change of political course came to pass is still not well understood In the Long Run We're All Dead offers the first comprehensive account of this vital public policy issue Lewis deftly analyses the history of deficit finance from before Confederation through Canada's postwar Keynesianism to the retrenchment of the Mulroney and Chretien years He illuminates how the political conditions for Ottawa's deficit elimination in the 1990s materialized after more than twenty consecutive years in the red and how the decline of Canadian Keynesianism has made way for the emergence of politics organized on the basis of balanced budgets This important book provides scholars and students of Canadian politics with a new framework by which to understand the adoption of government policy the economic and fiscal legacy of the Mulroney administrations and the emergence of the new politics of surplus Essential for anyone needing to be well informed about Canadian politics political economy and public policy *Future Survey Annual 1992* Michael Marien, 1993-01-30

Regulatory Innovation Julia Black, Martin Lodge, Mark Thatcher, 2006-01-01 The book is a good read due to its well integrated form its comparative approach its empirical case descriptions and its ability to encourage readers to approach the field of regulatory innovation Estrid S. Rensen Science Studies Much hype has been generated about the importance of innovation for public and private sector organisations Regulatory Innovation offers the first detailed study of regulatory innovation in a multiplicity of countries and domains This book draws on in depth studies of innovation in regulatory instruments and practices across high and low technology sectors across different countries and from the early to the late 20th century Highlighting different worlds of regulatory innovation those of the individual the organization the state the global polity and innovation itself this book offers a fresh perspective and valuable insights for the practice and study of regulatory innovation The explicit comparative focus of the case studies and the worlds of regulatory innovation approach make this book essential reading for academic researchers and students interested in regulation Recycling and the Politics of Urban Waste Matthew Gandy, 1994-05-15 This book examines recycling and municipal waste management in three

major cities London New York and Hamburg      Comparative Politics Daniele Caramani,2011-02-17 Comparative Politics provides a comprehensive introduction to political systems around the world It covers methods and theories the nation state institutions actors and processes policies and recent changes      *The Politics of Gun Control* Robert J. Spitzer,2023-08-10 Since its initial publication this book has become the classic work on every important element of the tumultuous national gun debate in America This new edition brings together the latest developments and research in gun politics policy law history and criminology to provide a comprehensive and accessible source widely used by scholars journalists and in classrooms In this era of polarized politics this book provides a unique window into how and why that polarization drives our politics Among the new topics covered in this edition are the Bipartisan Safer Communities Act new Supreme Court protections for concealed carry permits and the impacts of the COVID 19 pandemic on gun violence and policy New to the Ninth Edition Examines current gun control legislation at both state and federal levels particularly the circumstances that lead to the passage of the Bipartisan Safer Communities Act in 2022 Introduces the new constitutional standards for gun control legislation set by the controversial pro Second Amendment Supreme Court ruling in *New York State Rifle Pistol Association v Bruen* 2022 Provides expanded and updated consideration on related issues including the rise of gun carry movements on college campuses attempts to regulate ghost guns bump stocks and guns with high capacity magazines 50 caliber sniper rifles and the impacts of the COVID 19 pandemic the January 6 Capitol Attack and the Black Lives Matter movement on contemporary gun control debates Tracks the financial political and legal crises that threaten the dominance of the National Rifle Association and examines the rise of new gun rights groups such as the National Association for Gun Rights Presents new and updated statistical research on gun ownership in America gun related fatalities public opinion support of red flag laws and other gun control measures Incorporates new pedagogical features of chapter summaries and discussion questions into each chapter      *Regulatory Delegation in the European Union* Emmanuelle Mathieu,2016-09-08 This book addresses the regulatory capacity of the EU as it responds to the huge challenge of realizing the single market It explores its weaknesses the EU regulatory networks expert committees and EU agencies formed in response and the exceptionally large and complex transnational regulatory system which has resulted It defines the EU regulatory space as a multi faceted phenomenon of institutional expansion whose shape varies across sectors and changes over time Empirically based on the exploration of how regulatory delegation has emerged and evolved in three key EU policies food safety electricity and telecommunications the book disentangles and links together the functional institutional and power distributional factors and their interplay over time into a unified explanation of the many faces of the EU regulatory space      **The Blind Spots of Public Bureaucracy and the Politics of Non-Coordination** Tobias Bach,Kai Wegrich,2018-05-29 How to better coordinate policies and public services across public sector organizations has been a major topic of public administration research for decades However few attempts have been made to connect these concerns with the growing body of research on

biases and blind spots in decision making This book attempts to make that connection It explores how day to day decision making in public sector organizations is subject to different types of organizational attention biases that may lead to a variety of coordination problems in and between organizations and sometimes also to major blunders and disasters The contributions address those biases and their effects for various types of public organizations in different policy sectors and national contexts In particular it elaborates on blind spots or not seeing the not seeing and different forms of bureaucratic politics as theoretical explanations for seemingly irrational organizational behaviour The book s theoretical tools and empirical insights address conditions for effective coordination and problem solving by public bureaucracies using an organizational perspective
