Reichswehr and Politics, 1918-1933 John F. Griffiths,1966 *German Military and the Weimar Republic* Karen

Schaefer,2020-03-30 This military biography examines the man who sought to rebuild the Germany Army after WWI and the rival who stoked the rise of Nazism After Germany s devastating defeat in the First World War General Hans von Seeckt became Chief of the Army Command at the Reichewehr Ministry of the Weimar Republic His job was to rebuild the shattered German army and repair the nation s standing on the world stage The punitive terms of the post war settlement made these ambitious goals nearly impossible but the most significant challenges von Seeckt faced came from within Germany Von Seeckt aimed to build a modern and efficient military with a main strategy of peaceful defense purposes This original and far sighted policy was opposed by his rival General Erich Ludendorff who led a nationalistic movement seeking revenge for Germany s defeat Ludendorff proposed to rebuild the once mighty German imperial army as a major international force The failure of von Seeckt s experiment was tragically mirrored by the fall of the Weimar Republic and the rise of rise of Hitler and Nazi Germany **The Reichswehr and Politics: 1918-1933** Francis Ludwig Carsten,1964 The Reichswehr and Politics,

1918 to 193 F. L. Carsten,1966 *The Reichswehr and Politics: 1918-1923* Francis Ludwig Carsten,1966 **Press and Politics in the Weimar Republic** Bernhard Fulda,2009-01-08 Press and Politics offers a new interpretation of the fate of Germany s first democracy and the advent of Hitler s Third Reich It is the first study to explore the role of the press in the politics of the Weimar Republic and to ask how influential it really was in undermining democratic values Anyone who seeks to understand the relationship between the press and politics in Germany at this time has to confront a central problem Newspapers certainly told their readers how to vote especially at election time It was widely accepted that the press wielded immense political power And yet power ultimately fell to Adolf Hitler a radical politician whose party press had been strikingly unsuccessful Press and Politics unravels this apparent paradox by focusing on Berlin the political centre of the Weimar Republic and the capital of the German press The book examines the complex relationship between media presentation popular reception and political attitudes in this period What was the relationship between newspaper circulation and electoral behaviour Which papers did well and why What was the nature of political coverage in the press Who was most influenced by it Bernhard Fulda addresses all these questions and more looking at the nature and impact of newspaper reporting on German politics politicians and voters He shows how the press personalized politics how politicians were turned into celebrities or hate figures and how through deliberate distortions individual newspapers succeeded in building up a plausible partisan counter reality **Paramilitary Politics in Weimar Germany** James M. L. Carsten, 1966 The Indoctrination of the Wehrmacht Bryce Sait, 2019-03-10 Far from the image of an apolitical clean Wehrmacht that persists in popular memory German soldiers regularly cooperated with organizations like the SS in the abuse and murder of countless individuals during the Second World War This in depth study demonstrates that a key factor in the criminalization of the Wehrmacht was the intense political indoctrination imposed on its members At the instigation of senior leadership many ordinary German soldiers and officers became ideological warriors who viewed their enemies in racial and political terms a project that was but one piece of the broader effort to socialize young men during the Nazi era **Revolutionary Contagion and International Politics** Chad E. Nelson, 2022 A unique theory of what happens when leaders fear a revolution abroad will spread to their own country and how that affects international relations When do leaders fear that a revolution elsewhere will spread to their own polities and what are the international effects of this fear In Revolutionary Contagion Chad E Nelson develops and tests a theory that explains how states react to ideological driven revolutions that have occurred in other nations To do this he analyzes four key revolutionary movements over two centuries liberalism communism fascism and Islamism He further explains that the key to understanding the response to revolutions lies in focusing on the extent to which leaders fear upheaval in their own countries According to the theory Nelson argues fear of contagion is driven more by the characteristics of the host rather than the activities of the infecting agents In other words leaders will fear revolutionary contagion when they have significant revolutionary opposition movements that have an ideological affinity with the revolutionary state A powerful theory of the profound effects revolutions have on international relations this book shows why one simply cannot make sense of international politics including patterns of alliances and wars in certain situations without considering the fear of contagion **Makers of Modern Strategy from Machiavelli to the Nuclear Age** Peter Paret, Gordon A. Craig, Felix Gilbert, 2010-10-01 Authoritative and convincing New York Times Book Review The classic reference on the theory and practice of war The essays in this volume analyze war its strategic characteristics and its political and social functions over the past five centuries The diversity of its themes and the broad perspectives applied to them make the book a work of general history as much as a history of the theory and practice of war from the Renaissance to the present Makers of Modern Strategy from Machiavelli to the Nuclear Age takes the first part of its title from an earlier collection of essays that became a classic of historical scholarship Three essays are repinted from the

earlier book while four others have been extensively revised The rest twenty two essays are new The subjects addressed range from major theorists and political and military leaders to impersonal forces Machiavelli Clausewitz and Marx and Engels are discussed as are Napoleon Churchill and Mao Other essays trace the interaction of theory and experience over generations the evolution of American strategy for instance or the emergence of revolutionary war in the modern world Still others analyze the strategy of particular conflicts the First and Second World Wars or the relationship between technology policy and war in the nuclear age Whatever its theme each essay places the specifics of military thought and action in their political social and economic environment Together the contributors have produced a book that reinterprets and illuminates war one of the most powerful forces in history and one that cannot be controlled in the future without an understanding of its past

The Nazi Machtergreifung (RLE Nazi Germany & Holocaust) Peter D. Stachura, 2014-09-19 This book analyses some of the fundamental reasons for the triumph of National Socialism in 1933 Written in 1983 by historians at Canadian American and British universities it provides a clear and balanced historiographical perspective of the dynamics of socio political mobilization which helped make the Machtergreifung possible The relationship during the Weimar republic between the Nazi Party and various social groups constitutes a major element in the book as do the attitudes towards Hitler displayed by a number of influential institutions The Nazis successful mobilization of popular support before 1933 is illustrated through the impact of foreign policy and ideology propaganda on the Germans
