Rudolf Steiner and the Founding of the New Mysteries Sergei O. Prokofieff, 2017-06-21 In this revised and expanded edition of his classic debut Sergei O. Prokofieff investigates the deepest mysteries of Rudolf Steiner's life and individuality from the years of apprenticeship and the great Sun period to the path of the Teacher of Humanity and the birth of the New Mysteries. He discusses the earthly and supersensible aspects of the first Goetheanum, the implications of the Christmas Conference of 1923-24 and the Foundation Stone meditation that Steiner left as a legacy to members of the Anthroposophical Society. In his very personal Introduction Prokofieff describes in moving detail the events in his life which led to his discovery of anthroposophy whilst living in Communist Russia and how eventually he came to write this extraordinary study of Rudolf Steiner. The resulting volume, a work of secondary anthroposophical literature unprecedented in its depth and significance, was first published in Germany in 1982, meeting with equal amounts of acclaim, astonishment and controversy. It is published in this paperback edition to mark the 35th anniversary of the original publication.

Reincarnation and the Law of Karma William Walker Atkinson, 1908 By Reincarnation we mean the repeated incarnation or embodiment in flesh of the soul or immaterial part of man's nature. The term Metempsychosis is frequently employed in the same sense, the definition of the latter term being: The passage of the soul as an immortal essence at the death of the body into another living body. The term Transmigration of Souls is sometimes employed, the term being used in the sense of passing from one body into another. But the term Transmigration is often used in connection with the belief of certain undeveloped races who held that the soul of men sometimes passed into the bodies of the lower animals as a punishment for their sins committed during the human life. But this belief is held in disrepute by the adherents of Reincarnation or Metempsychosis and has no connection with their philosophy or beliefs, the ideas having sprung from an entirely different source and having nothing in common. There are many forms of belief, many degrees of doctrine regarding Reincarnation as we shall see as we proceed, but there is a fundamental and basic principle underlying all of the various shades of opinion and divisions of the schools. This fundamental belief may be expressed as the doctrine that there is in man an immaterial something called the soul, spirit, inner self, or many other names, which does not perish at the death or disintegration of the body, but which persists as an entity and after a shorter or longer interval of rest reincarnates or is re-born into a new body, that of an unborn infant from whence it proceeds.

to live a new life in the body more or less unconscious of its past existences but containing within itself the essence or results of its past lives which experiences go to make up its new character or personality It is usually held that the rebirth is governed by the law of attraction under one name or another and which law operates in accordance with strict justice in the direction of attracting the reincarnating soul to a body and conditions in accordance with the tendencies of the past life the parents also attracting to them a soul bound to them by some ties in the past the law being universal uniform and equitable to all concerned in the matter This is a general statement of the doctrine as it is generally held by the most intelligent of its adherents

A Western Approach to Reincarnation and Karma Rudolf Steiner, 1997-10 I came forth from the mouth of the Most High and covered the earth like a mist I encamped in the heights and my throne was in a pillar of cloud Alone I compassed the vault of heaven and traversed the depths of the abyss Over waves of the sea over all the earth and over every people and nation I have held sway Before the ages in the beginning he created me and for all ages I shall not cease to be Eccl 24 3 6 9 Sophia the world soul fell from her place in the heavens to the chaos below Sophia is among the most haunting and mysterious figures in Western spirituality She is also one of the great symbols of the divine feminine in world civilization The personification of divine Wisdom Sophia is praised in the biblical book of Proverbs as co creator of the universe with God In the secret teachings of early Christianity known as Gnosticism she represents our shared consciousness trapped in the material world as a result of the Fall One of the most sublime Gnostic texts is the Pistis Sophia or Faith Wisdom a great allegory in which the resurrected Christ explains how he freed the divine Sophia from her imprisonment by the forces of spiritual wickedness Christ goes on to show his disciples how they will share in this cosmic act of redemption In this profound yet accessible work Egyptologist Violet MacDermot gives us a fresh translation of the Pistis Sophia from the Coptic and discusses it in its historical setting She also shows us how Sophia s story of is our story It is a tale of our separation and isolation as a result of ego consciousness but it is one in which we too can share spiritual liberation Her engaging discussion relates this work not only to ancient teachings but to the thought of C G Jung Emanuel Swedenborg and the Kabbalah

The Burning Bush Edward Reaugh Smith, 1997-07 Even more significant for Christianity in the long run than the twentieth century Dead Sea and Nag Hammadi discoveries is the growing North American awareness of Rudolf Steiner s works Virtually unavailable until the end of the twentieth century English translations from the German archives are gradually coming into print Both Steiner and his works have thus far been virtually unknown in traditional theological circles No Bible commentary has yet reflected the remarkable spiritual insights of Anthroposophy Now ten years after first encountering a written comment about Rudolf Steiner Ed Smith combines his own extensive traditional biblical knowledge with his years of concentrated study and reflection on hundreds of assembled works by Steiner The result is the first Bible commentary in the light of anthroposophic insight This is the first volume of a series of Bible commentary by the author It is based on the anthroposophic understanding given to humanity by Rudolf Steiner during the first quarter of the twentieth century Bible

commentaries have always reflected the general line of thinking of their authors However the dramatic newness of anthroposophic thought means that perhaps the usual method of using a Bible commentary is not appropriate here A large part of The Burning Bush is necessarily devoted to laying an anthroposophic or spiritual scientific groundwork A major assumption indulged in most Bible commentaries that one can go directly to portions dealing with given passages of scripture and understand what is being said about them does not fit **Reincarnation and Karma** Louis Stanley Jast,1956

May Human Beings Hear It! Sergei O. Prokofieff, 2014-03-12 During the Christmas period of 1923 4 Rudolf Steiner refounded the Anthroposophical Society at its headquarters in Dornach Switzerland This important event which has come to be known as the Christmas Conference can be studied on many levels and its many mysteries have been central to Sergei O Prokofieff's anthroposophical research over the years His beginning point has been an enduring question What did Rudolf Steiner mean when he called the Christmas Conference the start of a World Turning point of Time In this far reaching work the author working from several different viewpoints guides the reader towards an answer Prokofieff suggests that the impulse of the Christmas Conference can only be reenlivened today through conscious action by individuals to experience its spiritual essence Rather than offering dogmatic conclusions he opens up paths of approaching this goal by throwing light on different aspects of the Conference and what lies at its heart the Foundation Stone and its Meditation In particular Prokofieff explores three key perspectives the connection of the Christmas Conference with humanity's evolution the inner relationship of each individual anthroposophist to the Christmas Conference and the significance of the Conference to Rudolf Steiner himself Although this is major work of some length the individual chapters of May Human Beings Hear It are complete in themselves and can therefore be studied independently of each other

Self-Transformation Rudolf Steiner, 1995 At the heart of Rudolf Steiner's spiritual philosophy is the esoteric path of inner development that can lead to true self transformation In these lectures Steiner shows how By developing certain qualities such as clear thinking inner tranquility and positivity as well as through meditative exercises it is possible to break out of the

shadowy brain bound world of everyday consciousness
