Reindeer Hunters:

The Reindeer Hunters Lars Mytting, 2022-11-22 The second novel in bestselling and award winning author Lars Mytting's powerful and compelling Sister Bells trilogy. The Reindeer Hunters is an epic moving and gloriously told historical novel following The Bell in the Lake, an Indie Next pick. Set in fictional Butangen, Norway, where the story of the conjoined twin sisters Halfrid and Gunhild Hekne provides the mythical and mystical undergirding. The Reindeer Hunters unfolds around the extraordinary tapestry that portrays the sisters' vision of Doomsday. After their death in 1613, the tapestry was given to the village church and lost at some point over the centuries. The year is 1903, twenty-two years after the events of The Bell in the Lake. Astrid Hekne's son, Jehans, is now a young man. Driven out by his family, he lives on a homestead in the mountains near the village of Butangen, where he relishes the freedom of his life apart, fishing and hunting for his livelihood. One August morning, Jehans kills a massive reindeer and at the same moment encounters an enigmatic hunter. At the new church in Butangen, Pastor Kai Schweigaard is living with the consequences of his past betrayal, arranging the dismantling and sale of the stave church, including deaths and the loss of the church's mystical sister bells. Kai becomes obsessed with finding the ancient tapestry woven by the conjoined sisters, in whose memory the bells were cast, with the hope that the tapestry will bring him redemption. Despite the unraveling legends from the past that continue to haunt these people, they must figure out how to look to the future. A magnificent story about love, sorrow, and courage, as well as taming waterfalls and the first flash of electric light in the village night. The Reindeer Hunters is a grand and thrilling novel about what it takes to live in and embrace a new era.

The Hekne Tapestry Lars Mytting, 2022-03-03 Lars Mytting writes with an insight, empathy, and integrity few others can match. JO NESBO: The Reindeer Hunters is the second in a thrilling historical trilogy that began with The Bell in the Lake. The year is 1903, and twenty-two years have passed since Astrid Hekne died in childbirth. Her son, Jehans, lives on a modest smallholding up in the hills near Butangen, having withdrawn from his community. He is drawn to freedom, to fishing and reindeer hunting, and one day meets a stranger over the body of a huge reindeer buck. Mytting weaves a compelling saga of love, both lost and found, and of a country in the midst of change. Sunday Times: Outside the new church in Butangen, Pastor Kai Schweigaard still cares for Astrid Hekne's grave. The village's overworked priest is tormented by his old betrayal, which led to death and to the separation of two powerful church bells cast in memory of two sisters in Astrid's family. Kai is set on finding an ancient tapestry made by the sisters, the Hekne Weave, in the hope that it will reveal how he can remedy his iniquities. A craftily woven tale steeped in rich local dyes. Financial Times: Conceived on an epic scale by Norway's bestselling author, The Reindeer Hunters is a novel about love and bitter rivalries, sorrow and courage, about history and myth, and a country as it enters a new era, about the first electric light and the Great War in Europe, where brother stands against brother. Translated from the Norwegian by Deborah Dawkin. The Swidrian Reindeer-hunters of Eastern Europe Leonid L'vovich Zalizniak, 1995. Rentierj ger.

Actas del XXXIII Congreso Internacional de Americanistas, 1959 Life Strategies, Human Evolution, Environmental Design V. Geist, 2013-11-11 Consider that you

were asked how to ensure human survival Where would you begin Conservation of resources jumps to mind We need to conserve resources in order that economic activities may continue Alas this is a false start Resources are always defined by a given economic system and only it determines what is and what is not a resource Therefore conserving resources implies only the perpetuation of the appropriate economic system Conservation of resources as we know them has nothing to do with the survival of mankind but it has very much to do with the survival of the industrial system and society we live in today We have to start therefore at a more basic level This level some may argue is addressed by ensuring for human beings clean genes Again this is a mistaken beginning It is thoroughly mistaken for reasons of science It is a false start because malfunctioning organs and morphological structures are not only due to deleterious hereditary factors but particularly due to unfavorable environments during early growth and development Moreover eugenics is not acceptable to any but a small fraction of society Eugenics may not be irrelevant to our future but is premature and should be of little concern until we understand how human genes and environment interact
