Paul Merkley

Reinhold Niebuhr A Political Account:

Reinhold Niebuhr Paul Merkley,1975 This book examines Niebuhr s early career as a preacher in the movement known as Social Gospel his middle years as a writer and political activist in the context of American liberalism and socialism and his mature career as an oracle of the Vital Center against the background of the Cold War s effects on the American liberal consensus It concludes with an essay on Niebuhr s philosophy of history which it is argued contains those elements of his thought which will survive the inevitable lessening of his reputation as a political commentator and which will secure his distinction as one of America s few original philosophers Publisher **Reinhold Niebuhr** Paul Merkle,1965 **Reinhold Niebuhr** Paul Merkley,1975 **The Theological Vision of Reinhold Niebuhr's "The Irony of American History"** Scott R. Erwin,2013-06-13 Reinhold Niebuhr remains at the center of a national conversation about America s role in the world and commentators with divergent political and religious positions draw upon his 1951 work *The Irony of American History* in support of their views In this study Scott R Erwin argues that an appreciation of Niebuhr s theological vision is necessary for understanding the full measure of Irony An appreciation of Niebuhr s theology is important because the majority of individuals reading Irony today fail to acknowledge the central role that his Christian beliefs played in its formulation Niebuhr described his theological vision as being in the battle and above it and in more extensive terms explained it to be a combination of moral resoluteness about the immediate issues with a religious awareness of another dimension of meaning and judgment It was this perspective that led Niebuhr in Irony to assert that America must both take morally hazardous action in combating the aggression of the Soviet Union and engage in critical self evaluation to prevent the country from assuming the most odious traits of its Cold War foe Niebuhr developed this theological vision over the course of the 1930s and 1940s through engagement with Christian doctrine as most readily seen in his academic works such as *The Nature and Destiny of Man* and engagement with current history as seen in his many journalistic writings during this period By focusing primarily on Niebuhr s writings between 1931 and 1951 Erwin traces the development of his Christian interpretation of human nature and history establishes how it informed his theological vision and reveals how that theological vision underlay his writings on current affairs Such excavation is necessary given the fact that Niebuhr became less explicit about the theological nature of his later writings Indeed rather than clearly advance his theological vision in Irony Niebuhr chose to communicate it implicitly through the historical figure of Abraham Lincoln In multiple writings over the course of his career Niebuhr referred to the sixteenth president as both America s greatest statesman and theologian and ultimately portrayed him as the personification of his own religious beliefs Erwin demonstrates that the study of both Niebuhr s theological vision and his application of this vision throughout his life is instructive as the contemporary generation engages with global problems **Edinburgh Companion to Political Realism** Robert Schuett,2018-11-14 Political realism is a highly diverse body of international relations theory This substantial reference work examines political realism in terms of its history its

scientific methodology and its normative role in international affairs Split into three sections it covers the 2000 year canon of realism the different schools of thought the key thinkers and how it responds to foreign policy challenges faced by individual states and globally It brings political realism up to date by showing where theory has failed to keep up with contemporary problems and suggests how it can be applied and adapted to fit our new globalised world order **An American**

Conscience Sabella, Jeremy, 2017 Reinhold Niebuhr 1892-1971 was an inner city pastor ethics professor and author of the famous Serenity Prayer Time magazine's 25th anniversary issue in March 1948 featured Niebuhr on its cover and Time later eulogized him as the greatest Protestant theologian in America since Jonathan Edwards Cited as an influence by public figures ranging from Billy Graham to Barack Obama Niebuhr was described by historian Arthur Schlesinger Jr as the most influential American theologian of the twentieth century In this companion volume to the forthcoming documentary film by Martin Doblmeier on the life and influence of Reinhold Niebuhr Jeremy Sabella draws on an unprecedented set of exclusive interviews to explore how Niebuhr continues to compel minds and stir consciences in the twenty first century Interviews with leading voices such as Jimmy Carter David Brooks Cornel West and Stanley Hauerwas as well as with people who knew Niebuhr personally including his daughter Elisabeth provide a rich trove of original material to help readers understand Niebuhr's enduring impact on American life and thought CONTRIBUTORS interviewees Andrew J Bacevich David Brooks Lisa Sowle Cahill Jimmy Carter Gary Dorrien Andrew Finstuen K Healan Gaston Stanley Hauerwas Susannah Heschel William H Hudnut III Robin W Lovin Fr Mark S Massa SJ Elisabeth Sifton Ronald H Stone Cornel West Andrew Young The Politics of Christian Zionism 1891-1948 Paul C. Merkley, 2012-10-12 For this book Professor Merkley has researched presidential archives Jewish historical libraries and official Zionist records in the US and in Israel for evidence of the dealings between official Zionists and active Christian Restorationists Much of this record appears here for the first time in print and is linked to the much better known history of the relationship between the official Zionists and the politicians and leaders of the US and Britain Religion and the Liberal State in Niebuhr's Christian Realism Christoph Rohde, 2021-09-02 This book intends to analyze Reinhold Niebuhr's understanding of the state in his Christian Realism Although his overall notion was thoroughly analyzed in different disciplines and respects this specific focus can be diagnosed as a lacuna The task of this book is to develop a hypothesis in terms of under what political social organizational or intellectual context Niebuhr made use of what definition of the state When did he support the extension of state power e.g. in war times during economic crisis and when did he criticize tendencies toward autocratic structures inside Western style democracies *Christian Ethics and Political Economy in North America* Peter Travis Kroeker, 1995 In this religious and moral critique of liberalism Travis Kroeker analyses how religious ethical discourse is changed when it is translated into the economic policy discourse of North American liberalism Focusing on influential representatives of contempo **Historical Dictionary of Calvinism** Stuart D.B. Picken, 2011-11-11 Calvinism is named after 16th century Reformer John Calvin whose overall theology is contained in his

Institutes of the Christian Religion 1559 Calvin's theology and ecclesiology provided the foundation upon which the Reformed Churches of Europe were built. It was a comprehensive and carefully expounded alternative to the doctrines of the Roman Catholic Church and was designed to expose their weaknesses and present a view of the Christian Faith that was a reformed version of the old faith. The Historical Dictionary of Calvinism relates the history of its founder John Calvin, the Reformed Church, and the impact that Calvinism has had in the modern world along with an account of modern and contemporary developments within the religious, political, and social culture it has created. This is done through a chronology, an introductory essay, an extensive bibliography, and over 300 cross-referenced dictionary entries on concepts, significant figures, places, activities, and periods. This book is an excellent access point for students, researchers, and anyone wanting to know more about Calvinism.

The End of American History David W. Noble, Using the work of four major historians, Noble focuses on the dramatic change in historical structure and meaning that came with the collapse of the progressive paradigm and its guiding metaphor of exodus from the Old World to the New World.

Socialism before Sanders Jake Altman, 2019-06-13 The early years of the twentieth century are often thought of as socialism's first heyday in the United States when the Socialist Party won elections across the country and Eugene Debs ran for president from a prison cell, winning more than 900,000 votes. Less well known is the socialist revival of the 1930s. Radicalized by the contradiction of crushing poverty and unimaginable wealth that existed side by side during the Great Depression, socialists built institutions, organized the unemployed, extended aid to the labor movement, developed local political movements, and built networks that would remain active in the struggle against injustice throughout the twentieth century. Jake Altman brings this overlooked moment in the history of the American left into focus, highlighting the leadership of women, the development of the Highlander Folk School and Soviet House, and the shift from revolutionary rhetoric to pragmatic reform by the close of the decade. As another socialist revival takes shape today, this book lays the groundwork for a more nuanced history of the movement in the United States.

Religion and the Realist Tradition Jodok Troy, 2013-09-11 This volume picks up a rather uninvested field of international relations theory: the influence of religion on Realism, as well as the power of Realism to address religious issues in world politics. Although classical scholars of Realism rarely mention religion explicitly in their well-known work, this volume suggests that Realism offers serious ground for taking religion and faith into account, as well as evaluating the impact of religion on its theoretical framework, how religion and religious worldviews influence and affect the theoretical framework of Realism, and how Realism approaches religious issues in international relations as a relatively new field of international studies. Although international relations scholars now widely deal with issues of religion, large portions of the theoretical underpinning are missing. In addressing this lack, the volume illustrates the possibility of reform and change in Realism. Furthermore, the chapters reach out to normative statements. The contributors offer a theoretical view on religion in international relations in the context of Realism but always connect this with actual, real-world related political problems.

The volume takes into account not only classical thinkers and approaches of Realism but also present day authors dealing with ethical and normative questions of international relations in the aftermath of 9 11 Offering a fresh perspective on the influence of religion on international relations theory this work will be of great interest to scholars of religion and international relations international relations theory and political philosophy

Religion and Radical Politics Robert Hedborg Craig,1992 This study discusses an array of movements organisations and activists many largely unstudied who sought to aid the poor and oppressed through Christian social action

The Transcendence of Desire Tom James,David True,2023-11-28 The secular age is not a smooth untroubled process of accumulation and advance but an uneven and unpredictable series of clashes of interest Charles Taylor s immanent frame cannot be construed merely as a phenomenon within religion and culture but urgently needs to be understood in political and economic terms i e as a class project The failure of the secular vividly displayed in the crumbling legitimacy of global institutions and in the spectacle of police violence both calls for and makes possible a renewal of political agency Tom James and David True argue that a theology of the cross has a distinctive potential today it can pierce the sacred aura of normalcy around the consensual anti politics of the neoliberal order so that a vision of a world beyond today s racialized capitalism can emerge But they contend that we don t need to forsake the emancipatory aims of modernity nor retreat to local communities As an alternative to these weak strategies theyoffer a constructive and cruciform account of political agency that includes both prophetic resistance and practical wisdom each embedded in contemporary struggles for freedom that they argue embody divine desire for a common world

God & Money Charles McDaniel,2007 God Money confronts the current dominant right wing Republican evangelical Christian view that unfettered market driven capitalism and Christian faith and values are compatible Drawing on such ethical luminaries as Reinhold Niebuhr G K Chesterton Peter Berger and John Paul II author Charles McDaniel shows that to reverse the current decline in public morality capitalism must be balanced by enduring religious and moral values Challenging the captivity of Christian culture by free market global capitalism McDaniel joins other Christian ethical visionaries in advocating a redemptive economy one that champions individual human dignity true community and the moral regeneration of cultural traditions in vital dialectic with the inevitable market capitalism of the contemporary world

Freedom's Distant Shores R. Drew Smith,2006 This volume examines relations between U S Protestants and Africa since the end of colonial rule It draws attention to shifting ecclesiastical and socio political priorities especially the decreased momentum of social justice advocacy and the growing missionary influence of churches emphasizing spiritual revival and personal prosperity The book provides a thought provoking assessment of U S Protestant involvements with Africa and it proposes forms of engagement that build upon ecclesiastical dynamism within American and African contexts

T&T Clark Handbook of Political Theology Rubén Rosario Rodríguez,2019-10-03 The T and the contributors then build on previously discussed historical resources and methods to engage with contemporary issues and challenges emphasizing interreligious

dialogue even while addressing concerns of relevance to a particular faith tradition The volume concludes with three essays that look at the future of political theology from the perspective of each Abrahamic religion Complete with select bibliographies for each topic this companion features the most current overview of political theology that will reach a broader global audience of students and scholars Modern American Religion, Volume 2 Martin E. Marty, 1997-06-21 In this second volume of two tracing the history of 20th century American religion Martin E Marty tells the story of how America has survived religious disturbances and culturally prospered from them Extremist for Love Rufus Burrow Jr. ,2014-01-01 In spite of extensive research and publishing on King insufficient attention has been given to the convergence of ideas and action in his life In an era where people are often sorted into the categories of thinker and doer King stands out a rare mix of the deeply profound thinker and intellect who put the fruit of that reflection into the service of direct social action

Reinhold Niebuhr A Political Account Book Review: Unveiling the Power of Words
