Farrell then surveys and evaluates key primary and secondary sources for researchers on just war theory, as well as related sources on Christian realism and the responses of just war theorists to proponents of pacifism and secular just war theories. **Modern Just War Theory** will appeal to students and scholars of theology, military history, international law, and Christian ethics.

The Essential Reinhold Niebuhr Reinhold Niebuhr, 1986-01-01 Theologian, ethicist, and political analyst. Reinhold Niebuhr was a towering figure of twentieth-century religious thought. Now newly repackaged, this important book gathers the best of Niebuhr's essays together in a single volume. Selected, edited, and introduced by Robert McAfee Brown, a student and friend of Niebuhr's and himself a distinguished theologian, the works included here testify to the brilliant polemics, incisive analysis, and deep faith that characterized the whole of Niebuhr's life. This fine anthology makes available to a new generation the thought of one of the most penetrating and rewarding of twentieth-century minds. Reinhold Niebuhr remains the great illuminator of the dark conundrums of human nature, history, and public policy. Arthur Schlesinger Jr. Sparkling gems brought from the shadows of history into contemporary light. Beautifully selected and edited; they show that Niebuhr's fiery polemics and gracious assurances still speak with power to us today. Roger L. Shinn. An extremely useful volume. David Brion Davis. *New York Review of Books*. This collection, which brings together Niebuhr's most penetrating and enduring essays on theology and politics, should demonstrate for a new generation that his best thought transcends the immediate historical setting in which he wrote. Brown's introduction succinctly presents the central features of Niebuhr's life and thought. *Library Journal*.

The Dramatizing of Theology Matthew S. Farlow, 2017-07-14 Matthew Farlow traces the thoughts of Balthasar and Barth so as to enter into the theological truth of God's Being in Act. This exploration embarks on a journey into the reality of our Triune God, who has engaged his creation so as to elicit fellow actors. God seeking out humanity is God with us, a truth that not only informs our theological endeavors but invites us into the dramatic performance of reconciliation. As Farlow illumines, God is an acting God who seeks fellow participants in his ongoing drama of salvation.

Through the dramatizing of theology the church and her theologians come to realize God's threefold movement: revelation, invitation, and reconciliation. It is a unified act that startles humanity and thus theology out of its spectator's seat so as to drag it onto the world's stage. As Farlow discusses, it is through the dramatizing of theology that we find ourselves best equipped to participate faithfully in the role of a lifetime.

Just War Thinkers Revisited Daniel R. Brunstetter, Cian O'Driscoll, 2024-11-25 This book comprises essays that focus on a range of thinkers who challenge the boundaries of the just war tradition. The ethics of war scholarship has become a rigid and highly disciplined activity closely associated with a very particular canon of thinkers. This volume moves beyond this by presenting thinkers not typically regarded as part of that canon but who have interesting and potentially important things to say about the ethics of war. The book presents 20 profile essays on an eclectic cast of heretics, humanists, and radicals from ancient Greece to the twenty-first century who lived through and theorized about violence. The book asks how ethics of war scholars might benefit from engaging with them. Some of these thinkers engage directly with to augment or criticize the just war tradition while others contribute to military thinking across the ages pushing the boundaries of what was acceptable in war. Many proffer alternative moral frameworks regarding the legitimacy of political violence. The present volume thus invites scholars to reconsider the ethics of war in a way that challenges the standard delineation between just war theory, realism, and pacifism and to reflect on how those positions might inform our own approach to these matters. This book will be of much interest to students of just war theory, ethics of war, war studies, and International Relations.

Excellent Protestant Congregations Paul Wilkes, 2001-01-01 Profiles eight dynamic and diverse congregations, identifying the characteristics that make each distinctive while explaining how any church can apply their ideas locally in a resource that also lists more than 300 recommended Protestant congregations. Kierkegaard Julia Watkin, 2001-03-01 Søren Kierkegaard (1813-1855) has been proposed as the father of existentialism, as a forerunner of postmodernism, and as the proponent of a purely humanistic religiosity. According to Julia Watkin, all of these approaches suppress the reality of Kierkegaard as a Christian thinker, albeit one of a uniquely challenging cast who saw the need to treat Christianity as a personal existential adventure in which one is not afraid to risk oneself. In *Kierkegaard*, Watkin uses Danish critical sources to classify the legendary thinker as one of a radical Christian persuasion. Kierkegaard raised and addressed vital philosophical and ethical religious questions about existence in a way that continues to be relevant across disciplines, generations, and cultures. This book distinctly and simply introduces Kierkegaard to new readers as a Christian religious thinker.

Public Intellectuals and the Common Good Todd C. Ream, Jerry A. Pattengale, Christopher J. Devers, 2021-01-26 In the midst of a divisive culture, public intellectuals speaking from an evangelical perspective have a critical role to play within the church and beyond. Representing the church, higher education, journalism, and the nonprofit sector, these world-class scholars and practitioners cast a vision for intellectuals who promote human flourishing.

Faith and Force David L. Clough, Brian Stiltner, 2007-06-04 This book began in an argument between

friends surprised to find themselves on opposite sides of the debate about whether the United States and the United Kingdom should invade Iraq in 2003. Situated on opposite sides of the Atlantic in different churches and on different sides of the just war pacifist fence we exchanged long emails that rehearsed on a small scale the great national and international debates that were taking place around us. We discovered the common ground we shared as well as some predictable and some surprising points of difference. When the initial hostilities ended our conversation continued and we felt the urgency of contributing to a wider Christian debate about whether and when war could be justified. From the Preface So began a dynamic collaboration that developed into a civil but provocative debate over matters of war and peace that is *Faith and Force*. From the ancient battles between Greek city states to the Crusades to the World Wars of the twentieth century to the present day wars in Afghanistan and Iraq and the Middle East aggressors and defenders alike have claimed the mantle of righteousness and termed their actions just. But can the carnage of war ever be morally grounded? And if so how? These are the questions that David L. Clough, a Methodist proponent of pacifism, and Brian Stiltner, a Catholic theologian and just war adherent, have vowed to answer together. With one voice Clough and Stiltner outline and clarify issues of humanitarian intervention, weapons proliferation, and preventative war against rogue states. Their writing is grounded in Christian tradition and provides a fresh and illuminating account of the complexities and nuances of the pacifist and just war positions. In each chapter Clough and Stiltner engage in debate on the issues, demonstrating a respectful exchange of ideas absent in much contemporary political discourse, whether on television or in the classroom. The result is a well-reasoned, challenging repartee that searches for common ground within the Christian tradition and on behalf of the faithful, promotes justice yet one that also recognizes genuine differences that cannot be bridged easily. Intended for a broad audience, *Faith and Force* is the perfect foil to the shrill screeching that surrounds partisan perspectives on military power and its use. To help with using the book in a classroom context, the authors have provided Questions for Reflection and Discussion for each chapter. You can download these questions in PDF format at press.georgetown.edu.

Reinhold Niebuhr; His Religious, Social, and Political Thought
Charles W. Kegley, 2009-12-01. This collection of essays by world scholars of different faiths and fields of study eloquently documents the importance and continuing influence of Niebuhr's extensive body of work. Following an intellectual autobiography by Niebuhr are twenty essays forming a candid and vigorous discussion spanning the range of Niebuhr's thought. Since Niebuhr first came to the world's attention as a critic of social conditions, the book begins with an examination of his social thought, especially as a Christian ethicist, proceeding from this to the political sphere. Further essays offer critical exposition, criticism, and questions on such topics as Niebuhr's philosophy of history, his role in American political thought and life, his theology, and the historical roots of his thought. For this new edition, there are updated essays by John Bennett, Arthur Schlesinger Jr., and Kenneth Thompson, plus new interpretations by Ronald Stone and Richard Fox. Other contributors include Paul Tillich, Emil Brunner, and Abraham I. Heschel. A bibliography of Niebuhr's work has been brought up to date by D. B.
