The Modernization of Fatherhood Ralph LaRossa, 1997 The period between World War I and World War II was an important time in the history of gender relations and of American fatherhood Revealing the surprising extent to which some of yesterday s fathers were involved with their children The Modernization of Fatherhood recounts how fatherhood was reshaped during the Machine Age into the configuration we know today LaRossa explains that during the interwar period the

image of the father as economic provider pal and male role model all in one became institutionalized Using personal letters and popular magazine and newspaper sources he explores how the social and economic conditions of the Roaring Twenties and the Great Depression a period of technical innovation as well as economic hardship fused these expectations into a cultural ideal With chapters on the U S Children s Bureau the fathercraft movement the magazine industry and the development of Parent s Magazine and the creation of Father s Day this book is a major addition to the growing literature on masculinity and fatherhood *The American Father* Wade C. Mackey, 2013-06-29 In *The American Father* Wade C Mackey documents a wealth of information demonstrating the vast benefits to society when its children are raised in families with fathers The biopsychosocial approach Mackey employs is consistent with the current treatment of topics development This approach which is grounded in a variety of diverse sources assumes that we understand little about people when we study them a bit at a time rather the fullness of the individual requires a fullness of examination For example in the cases of fathers we note that humans do not reproduce alone after all we are not an asexual species No human reproduction and its sequelae are social just as clearly as they are biological and involve the whole panoply of psychic function motivation sociability intelligence and the like The evidence marshaled by Mackey indicates strongly that individuals and societies have an essential requirement for something more than mothering they also need fathering Much of the discourse and publication on fathers during the past several decades has been posited on a more is better model of male parenting in which it is seldom stated who it is better for the father the child the mother the couple or the family Further much of this discussion infers that fathers are merely Mr Moms yet this is not so **Fatherhood** Elizabeth Peters, Randal D. Day, 2000 *Fatherhood Research Interventions and Policies* addresses the central questions of the role of fathers What is the impact of father involvement on child outcomes What factors predict increased involvement of fathers This volume includes contributions by leading scholars in a multitude of fields The discussion of fatherhood ranges well beyond the case of intact middle class white families to include fathers from many other situations and ethnic groups This comprehensive powerful book combines pioneering empirical research with thoughtful consideration of the social and psychological implications of fatherhood Contemporary fathering Brigid Featherstone, 2009-04-15 Since 1997 child welfare services have been faced with new demands to engage fathers or develop father inclusive services This book emerges from work by the author as a researcher and educator over many years on the issues posed by this agenda for child welfare practitioners in a variety of contexts In locating fathers fathering and fatherhood within a historical and social landscape the book addresses issues seldom taken up in practice settings It explores diversity and complexity in fathering in different disciplines such as psychoanalysis sociology and psychology and analyses contemporary developments in social policies and welfare practices The author employs a feminist perspective to highlight the opportunities and dangers in contemporary developments for those wishing to advance gender equity A key strength of the book is its interdisciplinary focus It will be required reading for students graduate and

postgraduate of social work social policy sociology and child and family studies Academic researchers will also find the book invaluable because of its breadth of scholarship

Of War and Men Ralph LaRossa, 2011-06-01 Fathers in the fifties tend to be portrayed as wise and genial pipe smokers or distant emotionless patriarchs This common but limited stereotype obscures the remarkable diversity of their experiences and those of their children To uncover the real story of fatherhood during this transformative era Ralph LaRossa takes the long view from the attack on Pearl Harbor up to the election of John F Kennedy revealing the myriad ways that World War II and its aftermath shaped men Offering compelling accounts of people both ordinary and extraordinary **Of War and Men** digs deep into the terrain of fatherhood LaRossa explores the nature and aftereffects of combat the culture of fear during the Cold War the ways that fear altered the lives of racial and sexual minorities and how the civil rights movement affected families both black and white Overturning some calcified myths LaRossa also analyzes the impact of suburbanization on fathers and their kids discovering that living in the suburbs often strengthened their bond And finally looking beyond the idealized dad enshrined in TV sitcoms **Of War and Men** explores the brutal side of family life in the postwar years LaRossa's richly researched book dismantles stereotypes while offering up a fascinating and incisive chronicle of fatherhood in all its complexity

An excellent resource. Stephanie Coontz, author of *The Way We Really Are: Coming to Terms with America's Changing Families*. What has happened to marriage and families? What is the current state of families? Where are families headed? Where is family scholarship headed? As families face challenges today brought on by events that have changed their perception of the world, there is a need for a clear assessment of what has happened to families in the past and an examination of some data based theories about what is likely to happen in the future. The Handbook of Contemporary Families explores how families have changed in the last 30 years and speculates about future trends. Editors Marilyn Coleman and Lawrence H. Ganong along with a multidisciplinary group of contributors critique the approaches used to study relationships and families while suggesting modern approaches for the new millennium. The Handbook looks at how changes within the contemporary family have been reflected in family law, family education and family therapy. Features of this Handbook: Examines a diverse array of families and relationships in which people live including chapters on alternative lifestyles, gay and lesbian relationships, economically distressed families, religion and families, racial and ethnic diversity, a feminist vision for families, older families and the effect of computers and other technology on family relationships. Includes both a historical review and future speculation on the subjects covered in each chapter. Interdisciplinary contributors representing a variety of fields such as history, family studies, sociology, law, therapy, social work, psychology, nursing and human development. The Handbook of Contemporary Families is an excellent resource for advanced undergraduate and graduate students, researchers, educators and practitioners who study and work with families in several disciplines including Family Science, Human Development and Family Studies, Sociology, Marriage, Family Therapy and Social Work.

The Man Question Nancy E. Dowd, 2010-09-20 Among the many important tools feminist legal theorists have given scholars is that of anti essentialism all women are not created equal and privilege varies greatly by circumstances particularly that of race and class Yet at the same time feminist legal theory tends to view men through an essentialist lens in which men are created equal The study of masculinities inspired by feminist theory to explore the construction of manhood and masculinity questions the real circumstances of men not in order to deny men s privilege but to explore in particular how privilege is constructed and what price is paid for it In this groundbreaking work feminist legal theorist Nancy E Dowd exhorts readers to apply the anti essentialist model so dominant in feminist jurisprudence to the study of masculinities She demonstrates how men s treatment by the law and society in general varies by race economic position sexuality and other factors She applies these insights to both boys and men examining how masculinities analysis exposes both privilege and subordination She examines men s experience of fatherhood and sexual abuse and boys experience in the contexts of education and juvenile justice Ultimately Dowd calls for a more inclusive feminist theory which by acknowledging the study of masculinities can broaden our understanding of privilege and subordination

New Fathers? Contemporary American Stories of Masculinity, Domesticity and Kinship Helena Wahlström, 2010-10-12 What do novels such as Annie Proulx s *The Shipping News* Michael Cunningham s *A Home at the End of the World* and Jayne Anne Phillips *MotherKind* have in common with films such as *Smoke* and *Mrs Doubtfire* This study explores the intersection of masculinity and domesticity in contemporary film and literature It argues that these texts produced since the 1990s address with some urgency the notion of new fatherhood in the United States They offer explorations of the idea that American fatherhood around the turn of the twenty first century is changing and they

problematize the legitimacy of new fathers and alternative families in a national culture where the old patriarch and the nuclear family still often loom large in the imagination of many Americans **Men and Maternity** Rosemary Mander, 2004-08-02 With men becoming increasingly involved in childbearing as obstetricians and more recently as fathers this book considering the findings of recent research and wider literature argues that the beneficial contribution of men has been taken for granted *Gender and the European Labour Market* Francesca Bettio, Janneke Plantenga, Mark Smith, 2013 The book presents state of the art research on women's current position in European labour markets It combines analysis of the latest trends in employment occupational segregation working time unpaid work social provisions especially care provisions and the impact of the financial crisis with overall assessment of the actual impact of the European Employment Strategy and the specific impact of key policies such as taxation and flexicurity
