Reinventing the Culture of Womanhood in America and Brazil, an Anthropological Perspective Alex Huxley Westfried, 2002-07-16 In *Reinventing the Culture of Womanhood in America and Brazil an Anthropological Perspective* Alex Westfried examines the heroic struggle of Brazilian women to restore justice bring a democratic society and gain virtually total independence economically socially sexually and spiritually to their society The culture of Brazil and recent developments provide Brazilian middle class women with advantages that American women have still not obtained Using case studies of Brazilian women Westfried gives in full detail the process of liberation and the Epilogue develops conceptual icons that compare American and Brazilian culture This work is integrated with historical events changes in the family in a postmodern society changes in women s sexuality and changes in women s identity This study is significant as it gives us models for the 21st century and for American women to complete their struggle for equality [Brazilian Evangelicalism in the Twenty-First Century](#) Eric Miller, Ronald J. Morgan, 2019-05-09 Over the past fifty years Brazil s evangelical community has increased from five to twenty five percent of the population This volume s authors use statistical overview historical narrative personal anecdote social scientific analysis and theological inquiry to map out this emerging landscape The book s thematic center pivots on the question of how Brazilian evangelicals are exerting their presence and effecting change in the public life of the nation Rather than fixing its focus on the interior life of Brazilian evangelicals and their congregations the book s attention is directed toward social expression the ways in which Brazilian evangelicals are present and active in the common life of the nation *Women, Sport, Society* Roberta Park, Patricia Vertinsky, 2013-09-13 During the last four decades women s and gender history have become vibrant fields including studies of attitudes regarding the limited physical and other abilities of females as well as studies of the accomplishments of notable female athletes We have become increasingly aware that women have made contributions to physical education dance and sport that go far beyond being teachers athletes and coaches They have created and implemented an astonishing variety of programs intended to serve the needs of large numbers of children and youth sometimes organizing student health services as well as chairing departments of physical education They have worked as directors of sport physical education and dance running playgrounds and recreational facilities and have created and or served as important officers of a variety of sporting organizations This book explores the contributions and achievements of women in a variety of historical and geographical contexts which not surprisingly opens opportunities for additions revisions and counter narratives to accepted histories of physical education and sport science It seeks to broaden our understandings about the backgrounds motivations and achievements of dedicated women working to improve health and bodily practices in a variety of different arenas and for often different purposes This book was previously published as a special issue of the *International Journal of the History of Sport* **Mixed Towns, Trapped Communities** Daniel Monterescu, 2016-04-22 Modern urban spaces are by definition mixed socio spatial

configurations In many ways their enduring success and vitality lie in the richness of their ethnic texture and ongoing exchange of economic goods cultural practices political ideas and social movements This mixture however is rarely harmonious and has often led to violent conflict over land and identity Focusing on mixed towns in Israel Palestine this insightful volume theorizes the relationship between modernity and nationalism and the social dynamics which engender and characterize the growth of urban spaces and the emergence therein of inter communal relations For more than a century Arabs and Jews have been interacting in the workplaces residential areas commercial enterprises cultural arenas and political theatres of mixed towns Defying prevailing Manichean oppositions these towns both exemplify and resist the forces of nationalist segregation In this interdisciplinary volume a new generation of Israeli and Palestinian scholars come together to explore ways in which these towns have been perceived as utopian or dystopian and whether they are best conceptualized as divided dual or colonial Identifying ethnically mixed towns as a historically specific analytic category this volume calls for further research comparison and debate

Contesting Development Philip McMichael, 2010-02-17 At a time when the development promise is increasingly in

question with dwindling social gains the vision of modernity is losing its legitimacy and coherence This moment is observable through the lens of critical struggles of those who experience disempowerment displacement and development contradictions In this book case studies serve as an effective means of teaching key concepts and theories in the sociology of development This collection of cases all original never previously published and with framing essays by Phillip McMichael has been written with this purpose in mind An important additional feature is that the book as a whole reveals the limiting assumptions of development and suggests alternate conditions of possibility for social existence in the world today In that sense the book pushes the boundaries of thinking about development and makes an important theoretical contribution to the literature

Culture Shock and Multiculturalism Edward Dutton, 2011-11-15 It used to be widely accepted amongst anthropologists that when they conducted fieldwork with foreign cultures they experienced something called culture shock This book will argue that culture shock is a useful model for understanding an important part of human experience However in its most widely known form the stage model culture shock has been heavily influenced by the same anti science latter day religiosity that has become so influential more broadly Multiculturalism This book will examine culture shock through the model of religion It will show how the most well known model of culture shock so popular amongst business consultants expatriates international students and travelers has become a means of promoting and sustaining this replacement religion which includes everything from dogmatism and fervour to conversion experience By so doing it will aim both to better understand culture shock and to show how it can still be useful if divorced from its implicitly religious dimensions to broadly scientific scholars It will also suggest how anthropology itself might be stripped of its ideological infiltration and returned to the realm of science

anthropology as a discipline as well as for the discourse on science more generally In the context of increasing globalization the articulation of new ethical dilemmas around such issues as technology indigenous knowledge and rights government regulation and bioethics among others can and do inform and shape scientific public policy The authors in this volume work in traditional research centres and universities as well as in private and public sectors and across specialties from medical anthropology and social medicine to archaeology and cyberspace They explore the dimensions of an ethical anthropology in today s world and the unique contribution of anthropology to the sciences

Negras in Brazil Kia Caldwell, 2007-01-05 For most of the twentieth century Brazil was widely regarded as a racial democracy a country untainted by the scourge of racism and prejudice In recent decades however this image has been severely critiqued with a growing number of studies highlighting persistent and deep seated patterns of racial discrimination and inequality Yet recent work on race and racism has rarely considered gender as part of its analysis In *Negras in Brazil* Kia Lilly Caldwell examines the life experiences of Afro Brazilian women whose stories have until now been largely untold This pathbreaking study analyzes the links between race and gender and broader processes of social economic and political exclusion Drawing on ethnographic research with social movement organizations and thirty five life history interviews Caldwell explores the everyday struggles Afro Brazilian women face in their efforts to achieve equal rights and full citizenship She also shows how the black women s movement which has emerged in recent decades has sought to challenge racial and gender discrimination in Brazil While proposing a broader view of citizenship that includes domains such as popular culture and the body *Negras in Brazil* highlights the continuing relevance of identity politics for members of racially marginalized communities Providing new insights into black women s social activism and a gendered perspective on Brazilian racial dynamics this book will be of interest to students and scholars of Latin American Studies African diaspora studies women s studies politics and cultural anthropology
