A Working Nation David T. Ellwood, Rebecca M. Blank, Joseph Blasi, Douglas Kruse, William A. Niskanen, Karen Lynn-Dyson, 2000-09-14 The nature of work in the United States is changing dramatically as new technologies a global economy and more demanding investors combine to create a far more competitive marketplace Corporate efforts to respond to these new challenges have yielded mixed results Headlines about instant millionaires and innovative e businesses mingle with coverage of increasing job insecurity and record wage gaps between upper management and hourly workers *A Working Nation* tracks the profound implications the changing workplace has had for all workers and shows who the real economic winners and losers have been in the past twenty five years *A Working Nation* sorts fact from fiction about the new relationship between workers and firms and addresses several critical issues Who are the real winners and losers in this new economy Has the relationship between workers and firms really been transformed How have employees become more integrated into or disconnected from corporate strategies and performance Should government step into this new economic reality and how should it intervene Among the topics investigated David T Ellwood explores and explains the apparent paradox between the steady rise in per capita national income and the stagnant wages of middle and working class workers Douglas Kruse and Joseph Blasi study relative changes in long term vs temporary work and evaluate the introduction of profit sharing schemes and high performance workplace programs William A Niskanen and Rebecca M Blank both former members of the president's Council of Economic Advisers offer their perspectives on what direction government might take to make this a working nation for everyone Though Niskanen and Blank take alternative approaches they both conclude that the primary policy emphasis ought to be on the problems of the least skilled more than on inequality per se and that a focus on childhood education and tax supports for low income working families should be of

primary concern A Working Nation paints a compelling and surprisingly consistent picture of today's workplace While the booming economy has created millions of new jobs it has also lead to an alarmingly unbalanced system of rewards that puts less skilled and many middle class workers at risk This book is essential reading for those seeking the most efficient answers to the challenges and opportunities of the evolving economy Labor Relations in the Public Sector Patrice M.

Jeanne M. Plas,1996-04-11 Why hasn't Total Quality Management TQM worked as well in the United States as it has in other countries In the US employees seem to prefer recognition of individual achievement over recognition of the work team Could the North American cultural emphasis on the individual be a crucial factor This book demonstrates that the recent participatory management failures are the result of a lack of appreciation for the cultural role of rugged individualism and offers an alternative person centred leadership which puts the individual at the very centre of the management approach The author presents effective psychology based person centred management techniques through the use of examples and cases many of them drawn from **International HRM** Chris Brewster,Hilary Harris,1999 Taking a thematic approach this text
