Reise Un Die Welt Mit Captain Cook:

Reise Um Die Welt Mit Captain Cook, 1973 Enlightenment and Exploration in the North Pacific, 1741-1805 Cook Inlet Historical Society, Anchorage Museum of History and Art, 1997 Saluting an era of adventure and knowledge seeking fifteen original essays consider the motivations of European explorers of the Pacific the science and technology of 18th century exploration and the significance of Spanish French and British voyages Among the topics discussed are the quest by enlightenment scientists for new species of plant and animal life and their fascination with Native cultures advances in shipbuilding navigation medicine and diet that made extended voyages possible and the lasting significance of the explorers collections artworks and journals Reise um die Welt mit Capitain Cook. Zimmermann's Account of the Third Voyage of Captain Cook, 1776-1780. Translated by Miss U. Tewsley ... under direction of Johannes C. Andersen. With ... explanatory notes. With plates and a map. Heinrich ZIMMERMANN (of Wissloch.), 1926 The Journals of Captain James Cook on his Voyages of Discovery J.C. Beaglehole, 2017-07-05 Captain James Cook's first two voyages of exploration in 1768-71 and 1772-75 had drawn the modern map of the South Pacific Ocean and had opened the door on the discovery of Antarctica These expeditions were the subject of Volumes I and II of Dr J C Beaglehole's edition of Cook's Journals The third voyage on which Cook sailed in 1776 was directed to the Northern Hemisphere Its objective was the discovery of a Northern Passage by sea from the Pacific to the Atlantic Ocean the North west Passage sought since the 16th century which would have transformed the pattern of world trade The search was to take Cook into high latitudes where as in the Antarctic his skill in ice navigation was tested Sailing north from Tahiti in 1778 Cook made the first recorded discovery of the Hawaiian Islands On March 7 he sighted the Oregon coast in 44° N The remarkable voyage which he made northward along the Canadian and Alaskan coasts and through Bering Strait to his farthest north in 70° nearly disproved the existence of a navigable passage towards the Atlantic and produced charts of impressive accuracy Returning to Hawaii to refit Cook met his death in a clash with the natives as tragic as it seems unnecessary Dr Beaglehole discusses with sympathy and insight the tensions which led Cook by then a tired man into miscalculations alien to his own nature and habits The volume and vitality of the records both textual and graphic for this voyage surpass those even for Cook's second voyage The surgeons William Anderson and David Samwell both admirable observers left journals which are also here printed in full for the first time The documentation is completed as in the previous volumes by appendixes of documents and correspondence and by reproductions of original drawings and paintings mainly by John Webber the artist of the expedition In Dr Beaglehole's words no one can study attentively the records of Cook's third and last voyage **Captain Cook** Frank McLynn, 2011-06-07 This thoroughly researched and sharply opinionated biography presents a nuanced portrait of the renowned 18th century navigator The Wall Street Journal The age of discovery was at its peak in the eighteenth century with bold adventurers charting the furthest reaches of the globe Foremost among these explorers was Captain James Cook of the British Royal Navy Recent writers have viewed Cook

through the lens of colonial exploitation regarding him as a villain While they raise important issues many of these critical accounts overlook his major contributions to science navigation and cartography In Captain Cook Frank McLynn re creates the voyages that took the famous navigator from his native England to the outer reaches of the Pacific Ocean Although Cook died in a senseless avoidable conflict with the people of Hawaii McLynn illustrates that to the men with whom he served Cook was master of the seas and nothing less than a titan McLynn reveals Cook s place in history as a brave and brilliant yet tragically flawed man *Gedächtnissrede auf James Cook* Adolf Bernhard Meyer,1882 Reise Um Die Welt Mit Captain

Johann Reinhold Forster and the Making of Natural History on Cook's Second Voyage, 1772-1775 Anne Mariss, 2019-09-09 James Cook's voyages of exploration are a turning point not only in the history of the British Empire but also in the history of science and exploration of the Pacific The last decades have seen a wide ranging scholarly interest in Cook's voyages focusing on their impact on European and Polynesian societies their scientific results and their protagonists such as Cook himself or the nobleman Joseph Banks who took part in Cook's first voyage of exploration This book examines the hitherto underestimated role of the German scholar Johann Reinhold Forster who together with his son Georg Forster accompanied Cook on his second voyage of exploration 1772-1775 as a principal naturalist For a long time the German traveler has remained a rather shadowy figure of Cook's voyages of exploration and has only attracted scholarly attention occasionally Focusing on the making of knowledge onboard the ship and the islands where it made landfall the study provides a historical reappraisal of Forster's scientific performance as a leading naturalist of his time By examining Forster's Resolution Journal Anne Mariss takes a microhistorical approach toward the making of natural history knowledge during the expedition to the Pacific Mariss unveils the difficulties the traveling naturalists encountered while collecting describing classifying and painting the natural world Her study brings to light the contribution of the various actors who were involved in this undertaking such as the scientific assistants sailors officers and the local actors of the Pacific world

Cultures in Conflict Urs Bitterli, Ritchie Robertson, 1989 Most histories of exploration are written from the viewpoint of the explorers This book now available in paperback focuses instead on the cultural encounters between European explorers and non European people reconstructing the experiences of both sides The

result is a remarkable work of comparative cultural history ranging from North America to the South Pacific and from the voyages of Columbus to those of Captain Cook Bitterli distinguishes three basic forms of cultural encounter superficial contact as in the early relations between Europe and China a prolonged relationship like that between missionaries and the North American Indians and collision leading to the destruction of the weaker partner as happened in the Spanish Conquest of the West Indies and of Mexico In a series of case studies Bitterli examines these types of cultural encounter drawing on a wide range of primary sources **General Catalogue of Printed Books** British Museum.
