those things which are on the side of greatness and cease resisting the petty and the unimportant Life is a process of intelligence It always acts intelligently Problems are the result of living life unintelligently The universe is actually a mental system Its primary nature is the process of ideas becoming form Every fact in your world is also an idea in your mind To get new things in your world you must have new ideas in your consciousness Few people do enough abstract thinking to create new ideas in their minds They continually think about what they already know and have known for years This explains the monotony of their lives Select the idea of some new experience you want and then think it without ceasing Mind will deliver to you everything you need in order to accomplish your demonstration This is far from being impossible The great the wise and the true have proven this to be so You have done it and so have your friends You may not have thought of the process as being either spiritual or psychological You intuitively knew a new idea Your thinking in terms of this idea caused something to happen in your experience This book has been written for that large section of today s population which is spiritually liberal and psychologically aware Those bound by traditional beliefs will cast it aside It is my desire that thousands will be helped and healed by reading these pages Raymond Charles Barker *Memorial of the Life and Ministry of B.
