**Self-Efficacy, Adaptation, and Adjustment** James E. Maddux, 2013-03-09 Covering over fifteen years of research this compilation offers the first comprehensive review of the relationships between self efficacy adaptation and adjustment Following a general overview of self efficacy renowned researchers discuss important topics such as depression anxiety addictive disorders vocational and career choice preventive behavior rehabilitation stress academic achievement and instruction and collective efficacy Psychologists concerned with social cognition and practitioners in clinical counseling will find this an invaluable reference Gay Men and Childhood Sexual Trauma James Cassese, 2016-01-20 Learn powerful techniques for healing the scars of early sexual abuse in gay men The first book of its kind *Gay Men and Childhood Sexual Trauma* Integrating the Shattered Self addresses the specific therapeutic needs of gay men in recovery All too often gay men hide their childhood memories of being sexually victimized because of fear shame and the stigma of stereotypes which equate homosexuality with child abuse Some gay men may view these histories as rites of passage and dismiss other perspectives as betrayals of their community or inadvertent support for the anti gay agenda of the religious right Certain therapists and so

called support groups ridicule them as hysterics with false memories Groups like the North American Man Boy Love Association or the Rene Guyon Society dismiss the source of their anguish as wishful thinking or a healthy consensual intergenerational romance Finally here is a book that addresses the unique emotional and psychological needs of gay male survivors of sexual abuse Gay Men and Childhood Sexual Trauma offers new hope by separating the crime of pedophilia from the consensual intimacy of an adult male same sex relationship It provides specific guidance for therapists working with gay men either in individual or group therapy settings and offers practical treatment suggestions as well as moving insights into the painful conflicts gay men may have in accepting their own sexuality and revealing their status as child survivor of an adult sexual predator Gay Men and Childhood Sexual Trauma discusses practical ways to help the survivor heal including adopting eye movement desensitization and reprocessing techniques to treat traumatized gay men helping gay men to break the old arousal patterns associated with their abusers handling survivors formidable issues of trust addictions depression and low self esteem leading survivor groups of mixed sexual orientation discerning the special meaning of HIV to traumatized gay men respecting cross cultural differences in treating the gay male sexual trauma survivor finding new directions for research This powerful volume offers sufficient technical detail to be useful for the therapist working with gay men yet it is written with enough clarity and compassion to be used as bibliotherapy for men just coming out as gay as survivor or as both Gay Men and Childhood Sexual Trauma is an essential resource for mental health professionals as well as for gay men who have themselves survived sexual abuse or who love someone who did

**Changing Addictive Behavior** Jalie A. Tucker, Dennis M. Donovan, G. Alan Marlatt, 2001-02-15 This volume proposes that prevailing clinical approaches to treating addictive behaviors are actually best suited to a minority of the population with problems in the case of substance abusers those with substantial functional impairment and physical dependence But what about persons with mild to moderate addictive behavior problems for whom intensive treatment may prove unnecessarily costly disruptive and stigmatizing Or those substance abusers who are unable or unmotivated to abstain but want to reduce the harm associated with drug use Contributors draw upon cutting edge theory and research to examine ways that traditional therapeutic treatments can be supplemented by public health interventions that extend the reach and effectiveness of care Timely and pragmatic the book points the way toward necessary evolutions in the roles of behavior change specialists in today s challenging health care environment

**Handbook of HIV Prevention** John L. Peterson, Ralph J. DiClemente, 2012-12-06 In the nearly two decades since the HIV pandemic began the rapid expansion of behavioral research on HIV prevention has prompted a crucial need for a sourcebook more advanced than an introductory textbook and broader and more readily accessible than a review periodical The Handbook of HIV Prevention is intended as the first attempt to meet this need The current state of affairs led us to edit a book that would represent the major areas of HIV behavioral research at a level appropriate for graduate students and experienced researchers in public health medicine nursing education and the social and behavioral sciences In addition we expect that the handbook will be useful in advanced undergraduate courses and as a reference book for health care professionals Our plans to assemble the Handbook began in

the fall of 1996 when we prepared a tentative outline of chapters and invited a large number of distinguished researchers in the field to be the authors of various chapters We received an overwhelmingly favorable response from potential authors to our letters of invitation After considerable effort by both the contributors and the editors the volume was completed in 1999 when all chapters went to press

**Addiction and Pregnancy** Laura M. Sanders, Barry R. Sherman, Chau Trinh, 1998-08-27

Pioneering evidence is presented in this book to support the effectiveness of peer counseling for substance abuse treatment of pregnant women and their families The introduction by Barry R Sherman describes his personal experience as a behavioral scientist doing work in a culture other than his own A comprehensive overview of the crack epidemic and its impact on women is followed by an up to date account of acupuncture in addiction treatment The authors use the theory and principles of social learning to justify the peer counselor model known as SISTERS Chapters include discussions of conducting culturally competent research development and validation of the Abstinence Self Efficacy Scale ASES and the Traumatic Life Events TLE Inventory as well as the social support systems of drug dependent women Both quantitative and qualitative methods are used to evaluate program impact A urine toxicology index of sobriety as well as empirical measures of psychosocial functioning and client satisfaction demonstrate sufficient success and cost effectiveness of the program to warrant serious support by health care providers and insurance companies
