Religion in International Relations F. Petito, P. Hatzopoulos, 2003-06-13

Are the secular foundations of international relations sustainable at present This comprehensive study shows how the global resurgence of religion confronts international relations theory with a theoretical challenge comparable to that raised by the end of the Cold War or the emergence of globalization The volume tries to shake the secular foundational myths of the discipline and outline the need for an expansion into religiously inspired spheres of thought It also challenges the most condemning accusation against religion the view that the politicization of religion is always a threat to security and inimical to the resolution of conflict Finally the task of demystifying religion is taken further with an argument for a stronger and progressive political

engagement of the worldwide religious traditions in the contemporary globalized era History and Its Limits Dominick LaCapra, 2011-02-23 Dominick LaCapra's *History and Its Limits* articulates the relations among intellectual history, cultural history, and critical theory, examining the recent rise of Practice Theory and probing the limitations of prevalent forms of humanism. LaCapra focuses on the problem of understanding extreme cases, specifically events and experiences involving violence and victimization. He asks how historians treat and are simultaneously implicated in the traumatic processes they attempt to represent. In addressing these questions, he also investigates violence's impact on various types of writing and establishes a distinctive role for critical theory in the face of an insufficiently discriminating aesthetic of the sublime, often unreflectively amalgamated with the uncanny. In *History and Its Limits*, LaCapra inquires into the related phenomenon of a turn to the postsecular, even the messianic or the miraculous, in recent theoretical discussions of extreme events by such prominent figures as Giorgio Agamben, Eric L. Santner, and Slavoj Žižek. In a related vein, he discusses Martin Heidegger's evocative if not enchanting understanding of *The Origin of the Work of Art*. LaCapra subjects to critical scrutiny the sometimes internally divided way in which violence has been valorized in sacrificial, regenerative, or redemptive terms by a series of important modern intellectuals on both the far right and the far left, including Georges Sorel, the early Walter Benjamin, Georges Bataille, Frantz Fanon, and Ernst Jünger. Violence and victimization are prominent in the relation between the human and the animal. LaCapra questions prevalent anthropocentrism evident even in theorists of the posthuman and the long-standing quest for a decisive criterion separating or dividing the human from the animal. LaCapra regards this attempt to fix the difference as misguided and potentially dangerous because it renders insufficiently problematic the manner in which humans treat other animals and interact with the environment. In raising the issue of desirable transformations in modernity, *History and Its Limits* examines the legitimacy of normative limits necessary for life in common and explores the disconcerting role of transgressive initiatives beyond limits, including limits blocking the recognition that humans are themselves animals.

Religion-State Relations in the United States and Germany Claudia E. Haupt, 2011-12-08 This comparative analysis of the constitutional law of religion-state relations in the United States and Germany focuses on the principle of state neutrality. A strong emphasis on state neutrality, a notoriously ambiguous concept, is a shared feature in the constitutional jurisprudence of the US Supreme Court and the German Federal Constitutional Court, but neutrality does not have the same meaning in both systems. In Germany, neutrality tends to indicate more distance between church and state, whereas the opposite is the case in the United States. Neutrality also has other meanings in both systems, making straightforward comparison more difficult than it might seem. Although the underlying trajectory of neutrality is different in both countries, the discussion of neutrality breaks down into largely parallel themes. By examining those themes in a comparative perspective, the meaning of state neutrality in religion-state relations can be delineated.
