Relationship Residue Haiku:

Relationship Residue Haiku Bill Mattia, 2002-04 This book was written to inspire and encourage everyone who reads it no matter what your profession is The fact is that we are all creatures of habit and all have a single date with destiny One of my favorite personal quotes is we are destined to die but we were born to live so which end you focus on will determine your motivation in life That's why every poem was carefully woven together and have special some hidden meanings inside So please don't rush when reading the book I encourage you to find an undisturbed quiet place so that you can allow each poem to reach deep inside your heart and breathe new life into your inner being This book was two years in the making and each poem hand selected from fresh writings over that time frame These poems have been birthed forth through triumph some through much pain some through heavy laughter some through failures some through relentless perseverance but all through the grace of God

The Forgiveness of Others Ashraf H. A. Rushdy, 2025-05-02 The Forgiveness of Others claims that forgiveness is a complex and dynamic moral practice that raises metaphysical questions about the meaning of change and of personal identity When we forgive we are transformed from one state resentment say and one identity injured party to another state and identity someone forgiving By looking closely at various accounts of forgiving and being forgiven and of being unforgiving and unforgiven this book explores how often we find cases in which we have substitutions as well as transformations Rushdy focuses on two kinds of substitutions cases in which we have survivors who forgive on behalf of the absent injured party and cases in which we have proxies who are forgiven on behalf of the wrongdoer He contends that these substitutions help us more fully understand the dynamic conditions of forgiveness What might seem to some to be violations of the protocols of forgiveness being offered by and to others is arguably the crux of forgiveness as a moral practice that transforms those who offer and receive it in a way that represents or effects their transformation This volume advocates a pluralist approach that traces an alternative path between those who argue that forgiveness is meaningful only if it follows a particularly restrictive paradigm and those who argue that it is meaningless because it is either futile or impossible

Utamakura, Allusion, and Intertextuality in Traditional Japanese Poetry Edward Kamens, Howard I. Kamens, 1997-01-01 Kamens focuses especially on one figure the buried tree which refers to fossilized wood associated in particular with an utamakura site the Natori River and is mentioned in poems that first appear in anthologies in the early tenth century The figure surfaces again at many points in the history of traditional Japanese poetry as do the buried trees themselves in the shallow waters that otherwise conceal them After explaining and discussing the literary history of the concept of utamakura Kamens traces the allusive and intertextual development of the figure of the buried tree and the use of the place name Natorigawa in waka poetry through the late nineteenth century He investigates the relationship between utamakura and the collecting of fetishes and curios associated with utamakura sites by waka connoisseurs

Transformational Processes in Clinical Psychoanalysis Lawrence J. Brown, 2018-10-09 In this book Lawrence J Brown offers a contemporary perspective on

how the mind transforms and gives meaning to emotional experience that arises unconsciously in the here and now of the clinical hour Brown surveys the developments in theory and practice that follow from Freud's original observations and traces this evolution from its conception to contemporary analytic field theory Brown emphasizes that these unconscious transformational processes occur spontaneously in the blink of an eye through the unconscious work in which the analyst and patient are engaged Though unconscious these processes are accessible and the analyst must train himself to become aware of the subtle ways he is affected by the patient in the clinical moment By paying attention to one's reveries countertransference manifestations and even supposed wild or extraneous thoughts the analyst is able to obtain a glimpse of how his unconscious is transforming the ambient emotions of the session in order to formulate an interpretation Brown casts a wide theoretical net in his exploration of these transformational processes and builds on the contributions of Freud Theodor Reik Bion Ogden the Barangers Cassorla Civitarese and Ferro Bion's theories of alpha function transformations dreaming and his clinical emphasis on the present moment are foundational to this book Brown's writing is clear and aims to describe the various theoretical ideas as plainly as possible Detailed clinical material is given in most chapters to illustrate the theoretical perspectives Brown applies this theory of transformational processes to a variety of topics including the analyst's receptivity countertransference as transformation the analytic setting the paintings of J M W Turner autistic transformations and other clinical situations in the analysis of children and adults Transformational Processes in Clinical Psychoanalysis will be of great interest to all psychoanalysts and psychoanalytic psychotherapists Attention Equals Life Andrew

Epstein, 2016-06-01 Poetry has long been thought of as a genre devoted to grand subjects timeless themes and sublime beauty Why then have contemporary poets turned with such intensity to documenting and capturing the everyday and mundane Drawing on insights about the nature of everyday life from philosophy history and critical theory Andrew Epstein traces the modern history of this preoccupation and considers why it is so much with us today Attention Equals Life argues that a potent hunger for everyday life explodes in the post 1945 period as a reaction to the rapid unsettling transformations of this epoch which have resulted in a culture of perilous distraction Epstein demonstrates that poetry is an important and perhaps unlikely cultural form that has mounted a response and even a mode of resistance to a culture suffering from an acute crisis of attention In this timely and engaging study Epstein examines why a compulsion to represent the everyday becomes predominant in the decades after modernism and why it has so often sparked genre bending formal experimentation With chapters devoted to illuminating readings of a diverse group of writers including poets associated with influential movements like the New York School language poetry and conceptual writing the book considers the variety of forms contemporary poetry of everyday life has taken and analyzes how gender race and political forces all profoundly inflect the experience and the representation of the quotidian By exploring the rise of experimental realism as a poetic mode and the turn to rule governed everyday life projects Attention Equals Life offers a new way of understanding a vital strain at the heart

of twentieth and twenty first century literature It not only charts the evolution of a significant concept in cultural theory and poetry but also reminds readers that the quest to pay attention to the everyday within today s frenetic world of smartphones and social media is an urgent and unending task

Ocean Voices Denis Albert Ladbroke,2016-12-28 A triple breakdown in relationships work life and health leaves Professor Denis Ladbroke teetering on the brink Inspired by Carl Jung s idea that the ocean symbolizes the unconscious the great source of life emotion and soul Denis chooses to leave the city for the seaside hamlet of Yanchep an hour s drive north of Perth Western Australia Tiptoeing down a steep dune track to the water s edge as dawn breaks each morning Denis walks far along the beach immersed in sounds of wind and waves His sensations morph into words Stumbling through emotional desolation and divorce he trudges the ocean shore until he discovers the rhythm of the ancient Japanese poetic shape haiku Among the book s almost three hundred haikus Denis includes thirty two written by medieval Japanese poets Over the year the healing energy of the ocean the ritual beat of walking and actually writing the poems enabled Denis to let go and flow with the tides Raw emotions allying with capricious ocean moods give the collection its energy transforming brokenness to wholeness

Animals Erased Arran Stibbe,2012-01-01 Amazingly clear and incisive readings of a wide range of discourses related to animals and ecology from the author of Ecolinguistics Karla Armbruster coeditor of Beyond Nature Writing Animals are disappearing vanishing and dying out not just in the physical sense of becoming extinct but in the sense of being erased from our consciousness Increasingly interactions with animals happen at a remove mediated by nature programs books and cartoons framed by the enclosures of zoos and aquariums distanced by the museum cases that display lifeless bodies In this thought provoking book Arran Stibbe takes us on a journey of discovery revealing the many ways in which language affects our relationships with animals and the natural world Animal product industry manuals school textbooks ecological reports media coverage of environmental issues and animal rights polemics all commonly portray animals as inanimate objects or passive victims In his search for an alternative to these negative forms of discourse Stibbe turns to the traditional culture of Japan Within Zen philosophy haiku poetry and even contemporary children s animated films animals appear as active agents leading their own lives for their own purposes and of value in themselves Those of us of

and users should pay more attention to the moods created around our smartphones tablets and laptops Drawing on research from a range of disciplines including experimental psychology phenomenology cultural theory and architecture Coyne shows that users of social media are not simply passive receivers of moods they are complicit in making moods Devoting each chapter to a particular mood from curiosity and pleasure to anxiety and melancholy Coyne shows that devices and technologies do affect people s moods although not always directly He shows that mood effects are transitional different moods suit different occasions and derive character from emotional shifts Furthermore moods are active we enlist all the resources of human sociability to create moods And finally the discourse about mood is deeply reflexive in a kind of meta moodiness we talk about our moods and have feelings about them Mood in Coyne s distinctive telling provides a new way to look at the ever changing world of ubiquitous digital technologies

The Beats and the Academy Erik Mortenson, Tony Trigilio, 2023-04-01 The Beats and the Academy marks the first sustained effort to train a scholarly eye on the dynamics of the relationship between Beat writers and the academic institutions in which they taught Rather than assuming the relationship between Beat writers and institutions of higher education was only a hostile one The Beats and the Academy begins with the premise that influence between the two flows in both directions Beat writers suspicion of established institutions was a significant aspect of their postwar countercultural allure Their anti establishment aesthetic and countercultural stance led Beat writers to be critical of postwar academic institutions that tended to dismiss them as a passing social phenomenon Even today Beat writing still meets resistance in an academy that questions the relevance of their writing and ideas But this picture like any generalization is far too easy The Beat relationship to the academy is one of negotiation rather than negation Many Beats strove for academic recognition and quite a few received it And despite hostility to their work both in the postwar era and today Beat works have made it into syllabi conference presentations journal articles and monographs The Beats and the Academy deepens our understanding of this relationship by emphasizing how institutional friction between the Beats and institutions of higher education has shaped our understanding of Beat Generation literature and culture and what this relationship between Beat writers and the academy might suggest about their legacy for future scholars *Lives of the Great Romantics, Part I* Chris Hart, 2022-07-30 The memoirs in this collection are written by those who had personal knowledge of Shelley Byron and Wordsworth or who claimed to be recording the accounts of those who had such knowledge Each volume in this set contains facsimilies of the original memoirs **The Art of Transition** Francine Masiello, 2001-09-21 Addresses the problems defined by practitioners of literary and visual culture in the post dictatorship years in Chile and Argentina
