Relative Autonomy The Key To Understanding Vatican II:

Relative Autonomy Anton Losinger, 1997 The Second Vatican Council 1962-1965 which finished its work just thirty years ago has rightly been described as one of the most important events in the history of the Church since the Reformation and the Age of Enlightenment It is in particular the Pastoral Constitution *Gaudium et spes* On the Church in the Modern World which marks a milestone on the Church's way into modernity It forms a bridge designed to overcome misunderstandings of the past points of conflict and rifts between the Church and modern society It purports to guide the differing positions towards a constructive dialog The central criterion and the crucial question of this new definition of the relationship in all areas such as culture politics science and economics is the criterion of Relative Autonomy the topic treated in this book

Nouvelle Théologie and Sacramental Ontology Hans Boersma, 2009-05-08 In the decades leading up to the Second Vatican Council the movement of *nouvelle théologie* caused great controversy in the Catholic Church and remains a subject of vigorous scholarly debate today In *Nouvelle théologie and Sacramental Ontology* Hans Boersma argues that a return to mystery was the movement's deepest motivation Countering the modern intellectualism of the neo Thomist establishment the *nouvelle théologie* theologians were convinced that a *ressourcement* of the Church Fathers and of medieval theology would point the way to a sacramental reintegration of nature and the supernatural In the context of the loss suffered by both Catholics and Protestants in the *desacramentalizing* of modernity Boersma shows how the sacramental ontology of *nouvelle théologie* offers a solid entry point into ecumenical dialogue The volume begins by setting the historical context for *nouvelle théologie* with discussions of the influence of significant theologians and philosophers like M hler Blondel Mar chal and Rousselot The exposition then moves to the writings of key thinkers of the *ressourcement* movement including de Lubac Bouillard Balthasar Chenu Dani lou Charlier and Congar Boersma analyses the most characteristic elements of the movement its reintegration of nature and the supernatural its reintroduction of the spiritual interpretation of Scripture its approach to Tradition as organically developing in history and its communion ecclesiology that regarded the Church as sacrament of Christ In each of these areas Boersma demonstrates how the *nouvelle théologie* theologians advocated a return to mystery by means of a sacramental ontology

Nguyen, 2023-05-05 Henri de Lubac SJ 1896 1991 is one of the most renowned theologians of the twentieth century Numerous studies have been undertaken to examine his many contributions to theology but little attention has been paid to the specific topic of the relationship of the Blessed Virgin Mary and the Church in his writings This was a topic that gave rise

to contentious discussion at the Second Vatican Council and although the Council fathers approved the integration of Marian doctrine into the Dogmatic Constitution on the Church this synthesis of Mariology and ecclesiology has been largely neglected in theology today The Splendor of the Church in Mary retrieves de Lubac's Marian ecclesiology and revives an understanding and appreciation of its enduring influence at the Vatican Council and beyond The first part examines de Lubac's pre-conciliar works which evince a steady biblical and patristic ressourcement of Marian themes It also explores his writings on Teilhard de Chardin's Eternal Feminine Christian mysticism and Amida Buddhism and discovers in them the essential building blocks of his Marian thought The second part turns to the Second Vatican Council and post-conciliar developments Rereading the debates and texts of Lumen Gentium through a Marian lens brings to light the extent of de Lubac's influence Meditation sur l'Eglise 1953 his principal work on Mary and the Church anticipated the structure and content of Lumen Gentium a decade before the Council De Lubac's writings provided a theological compass for the Council fathers and they continue to provide direction and orientation for ecclesiological discourse today The Splendor of the Church in Mary culminates in a constructive analysis of one of the most pressing pastoral and ecclesiological questions of our times the question of the relationship of the universal and particular churches Directly engaging the crucial debate between then Cardinal Ratzinger and Cardinal Kasper it proposes that de Lubac's Mariology effectively offers a new perspective and a refreshing path forward Attentive to the mystical identification of Mary and the Church de Lubac's ressourcement has the potential to re-enchant and advance contemporary theology in new and significant ways

Vatican II and Beyond Rosa Bruno-Jofré, Heidi MacDonald, Elizabeth M. Smyth, 2017-12-01 The year 2015 marked the fiftieth anniversary of the end of the Second Vatican Council which aimed to align the Church with the modern world Over the last five decades women religious have engaged with the council's reforms with unprecedented enthusiasm far exceeding the expectations of the Church Addressing how Canadian women religious envisioned and lived out the changes in religious life brought on by a pluralistic and secularizing world Vatican II and Beyond analyzes the national organization of female and male congregations the Canadian Religious Conference and the lives of two individual sisters visionary congregational leader Alice Trudeau and social justice activist Mary Alban This book focuses on the new transnational networks feminist concepts professionalization of religious life and complex political landscapes that emerged during this period of drastic transition as women religious sought to reconstruct identities redefine roles and signify vision and mission at both the personal and collective levels Following women religious as they encountered new meanings of faith in their congregations the Church and society at large Vatican II and Beyond demonstrates that the search for a renewed vision was not just a response to secularization but a way to be reborn as Catholic women

Whitaker's Books in Print, 1998 *Catholic Perspectives on Medical Morals* Edmund D. Pellegrino, J. Langan, John Collins Harvey, 2012-12-06 CATHOLIC PERSPECTIVES AND CONTEMPORARY MEDICAL MORALS A Catholic perspective on medical morals antedates the current world wide interest in medical and biomedical ethics by

many centuries 5 Discussions about the moral status of the fetus abortion contraception and sterilization can be found in the writings of the Fathers and Doctors of the Church Teachings on various aspects of medical morals were scattered throughout the penitential books of the early medieval church and later in more formal treatises when moral theology became recognized as a distinct discipline Still later medical morality was incorporated into the many pastoral works on medicine Finally in the contemporary period works that strictly focus on medical ethics are produced by Catholic moral theologians who have special interests in matters medical Moreover this long tradition of teaching has been put into practice in the medical moral directives governing the operation of hospitals under Catholic sponsorship Catholic hospitals were monitored by Ethics Committees long before such committees were recommended by the New Jersey Court in the Karen Ann Quinlan case or by the President's Commission in 1983 8 9 Underlying the Catholic moral tradition was the use of the casuistic method which since the 17th and 18th centuries was employed by Catholic moralists to study and resolve concrete clinical ethical dilemmas The history of casuistry is of renewed interest today when the case method has become so widely used in the current revival of interest in medical ethics 11

Business Ethics in the African Context Today Michel Lejeune, Philipp W. Rosemann, 1996 **The Cumulative Book Index**, 1998 A world list of books in the English language **Subject Guide to Books in Print**, 2001 **The Unchanging Truth of God? Crucial Philosophical Issues for Theology** Thomas G.

Guarino, 2022-02-18 It has long been a cornerstone of Catholic belief that Christians can be intelligent and creative thinkers inquisitive seekers after truth as well as men and women of ardent faith Catholics are entirely committed then to the claim that human rationality and religious faith are complementary realities since they are equally gifts of God But understanding precisely how faith and reason cohere has not always been a smooth path At times theology has allowed philosophy to become the leading and baleful partner in the faith reason relationship thereby lapsing into rationalism or relativism At other times theology has been tempted by fideism with philosophy now regarded as little more than a pernicious intruder corrupting Christian faith life and thought The essays in this volume display how Catholicism understands the proper confluence between philosophy and theology between human rationality and Christian faith between the natural order and supernatural grace To illustrate these points the book draws on a long line of Christian thinkers Origen Augustine Anselm Aquinas and in our own day Fides et Ratio of John Paul II and the Regensburg Address of Benedict XVI How is theology always a Jewgreek enterprise to borrow a term from Jacques Derrida always a combination of the biblical Hebraic and philosophical Hellenic traditions Why is one particular element of philosophy metaphysics essential for the intelligibility and clarity of Catholic theology Why is this so much the case that John Paul II could state emphatically a philosophy which shuns metaphysics would be radically unsuited to the task of mediation in the understanding of Revelation But theology cannot simply be about dialogue with philosophers of yesteryear Theology must constantly incorporate fresh thinking and remain in lively conversation with an extensive variety of contemporary perspectives This book displays how reciprocity and absorption

has been characteristic of theology's past and must represent its future as well

Recognizing the Gift Daniel A. Rober, 2016-06-01 Recognizing the Gift puts twentieth century Catholic theological conversations on nature and grace particularly those of Henri de Lubac and Karl Rahner into dialogue with Continental philosophy notably the thought of Jean Luc Marion and Paul Ricoeur It argues that a renewed theology of nature and grace must build on the accomplishments of the recent past while acknowledging that an engagement with the political is unavoidable for theology Ultimately the aim is to revive and broaden discussion of nature and grace by drawing together the insights of contemporary theologians and Continental philosophers Too often these areas of inquiry remain quite separate in part due to differing priorities This work tries to open that conversation in part by critically pointing out in dialogue with Ricoeur the need in Marion's work for an acknowledgment of recognition reciprocity and the political It thus argues for a theology of nature and grace in terms of recognition of the gift drawing out the reciprocal and political nature of gift and givenness in opposition to those including Marion who would seek to avoid politics and reciprocity as a proper avenue of inquiry for theology
