

RELATIVISM, RELIGION, AND RELATIONAL BEING

Kenneth J. Gergen

There was a time of my life in which, by common standards, I was deeply religious. My parents were fully agnostic, my father a mathematician and mother recoiling from the repression of zealous parents. In my household, issues of the spirit occupied no conversational space. However, at the age of ten my closest friends at school asked me to join them at church. I did, and found myself overwhelmed at the wondrous world that opened to me. The following year I was born again. Wasn't one birth sufficient, my parents asked? My religious enthusiasm was sustained for six more years, during which time I took Bible courses by mail, attended prayer meetings, developed religious services at school, and solicited for Christ door to door.

There was also a time of my life in which I was deeply modernist. The world changed for me as I left the South and entered Yale. A philosophy professor ripped to shreds my freshman attempt at a proof of God. My science courses contrasted the progress achieved by a materialist ontology with the futility of spiritual mythology. And in leisure hours, it was no longer the spirit of the heart that occupied my friends, but the spirits in the bottle. I departed Yale four years later committed to the career of a behavioral scientist, feeling I could best serve humanity through systematic research into human behavior.

And then, there is the present time, in which by some standards I might

Relativism As Religion

Charles M. Lewis

Relativism As Religion:

Relativism and Religion Charles M. Lewis, 2016-07-27 This collection of recent essays confronts from widely disparate perspectives fundamental questions about the epistemology and semantics of religious claims Is there any way apart from a particular religious tradition of knowing that the distinctive claims of a religious tradition are true or closer to truth than those of any other religion Does God in religious speech and texts refer to the same Being as does philosophical theism A response by each contributor to the others ideas is included Relativism As Religion Roger Leblanc, 1998-06-01

Relativism and Religion Charles M. Lewis, 1995 A collection of essays which confront from widely disparate perspectives fundamental questions about the epistemology and semantics of religious claims Is there any way apart from a particular religious tradition of knowing that the distinctive claims of a religious tradition are truer or closer to the truth than those of any other religion Does God in religious speech and texts refer to the same Being as does a philosophical theism A response by each contributor to the others ideas is included *Relativism and Religion* Carlo Invernizzi Accetti, 2015-11-10 Moral relativism is deeply troubling for those who believe that without a set of moral absolutes democratic societies will devolve into tyranny or totalitarianism Engaging directly with this claim Carlo Invernizzi Accetti traces the roots of contemporary anti relativist fears to the antimodern rhetoric of the Catholic Church and then rescues a form of philosophical relativism for modern pluralist societies arguing that this viewpoint provides the firmest foundation for an allegiance to democracy In his analyses of the relationship between religious arguments and political authority and the implications of philosophical relativism for democratic theory Accetti makes a far ranging contribution to contemporary debates over the revival of religion in politics and the conceptual grounds for a commitment to democracy He presents the first comprehensive genealogy of anti relativist discourse and reclaims for English speaking readers the overlooked work of Hans Kelsen on the connection between relativism and democracy By engaging with contemporary attempts to replace the religious foundation of democratic values with a neo Kantian conception of reason Accetti also makes a powerful case for relativism as the best basis for a civic ethos that integrates different perspectives into democratic politics Reason Relativism And God Joseph Runzo, 1986-05-19 **Between Relativism and Fundamentalism** Peter L. Berger, 2010 Our contemporary culture is dominated by two extremes relativism and fundamentalism Neither is desirable relativism claims that all questions of truth are irrelevant whereas fundamentalism insists on sole possession of absolute truth Internationally renowned sociologist of religion Peter Berger has gathered a group of scholars to consider how from out of different traditions one can define a middle position between both extremes After an extensive introductory overview by Berger three essays sociological descriptions give an objective picture of how relativism and fundamentalism play out in today s world In the second part theological directions authors from several different Christian traditions and one conservative Jewish tradition flesh out a normative middle ground that is neither relativist they affirm specific truth claims nor fundamentalist their affirmations

include tolerance of the claims of others Approaches to the Study of Religion Peter Connolly, 2001-11-30 It has been argued that religious studies is a polymethodic discipline and that the student of religion should be familiar with the approaches of the major disciplines concerned with understanding the nature of religion not least because the approach adopted has profound influence on the phenomena chosen for investigation and the conclusions reached This book is the first textbook specifically designed for undergraduate students that provides the essential background on methods of the major relevant disciplines Presenting each of the significant approaches to religion in an informed manner the book brings together experienced researchers from feminism anthropology sociology phenomenology psychology philosophy and theology It presents a consistent approach throughout with each chapter dealing with the same themes the historical development of the approach the characteristics of the approach and the surrounding issues and debates **Understanding Other Religions** Kemal Ataman, 2008 Relativism, Knowledge, and Faith Gordon D. Kaufman, 1960 **Relativism and Beyond** Yoav Ariel, Shlomo Biderman, Ornan Rotem, 1998 A collection of essays in which philosophers of widely different interests grapple with the problem of the relative and the absolute in philosophy and religion A concluding article tries to advance beyond the simple antithesis to a more sophisticated and adequate conception Relativism, Nihilism, and God Philip E. Devine, 1989 This book presents a defense of the reality of God in the sense in which Nietzsche proclaimed His death It explores various contemporary versions of Nietzsche's maxim God is dead and proposes an alternative to them Philip E Devine critically examines three views that in one way or another accept the death of God and take it as central to the intellectual life pragmatism which asserts that the only end of the intellectual life is the pursuit of worldly goods other than truth relativism which admits a multiplicity of truths corresponding to the modes of life pursued by human beings and nihilism to which the pursuit of truth is a deception Devine then defends his own position on the nature of God and religion and argues for a convergence between the concerns of faith and philosophy *Convictions* James William McClendon, James M. Smith, 1994 A fascinating discussion of the discordant elements that divide society into fragments *Convictions* includes a practical helpful proposal as to what is necessary to bring such discordant elements together *Hermeneutics, Politics, and the History of Religions* Christian K. Wedemeyer, Wendy Doniger, 2010 This volume comprises papers presented at a conference marking the 50th anniversary of Joachim Wach's death and the centennial of Mircea Eliade's birth Its purpose is to reconsider both the problematic separate legacies of these two major twentieth century historians of religions and the bearing of these two legacies upon each other Shortly after Wach's death in 1955 Eliade succeeded him as the premiere historian of religions at the University of Chicago As a result the two have been associated with each other in many people's minds as the successive leaders of the so called Chicago School in the history of religions In fact as this volume makes clear there never was a monolithic Chicago School Although Wach reportedly referred to Eliade as the most astute historian of religions of the day the two never met and their approaches to the study of religions differed significantly Several dominant issues run through

the essays collected here the relationship between the two men's writings and their lives and in Eliade's case the relationship between his political commitments and his writings in fiction history of religions and autobiography Both men's contributions to the field continue to provoke controversy and debate and this volume sheds new light on these controversies and what they reveal about these two scholars' legacies *John Hick's Pluralist Philosophy of World Religions* Paul Rhodes

Eddy, 2020-08-26 This title was first published in 2002 One of the most fascinating and controversial interpretations of religious diversity is religious pluralism According to John Hick's model of religious pluralism all the world's great religions are equally valid ways of understanding and responding to the ultimate spiritual reality This book offers an exposition of and critical response to John Hick's model Introducing the various interpretations of religious diversity being discussed today this book presents constructive suggestions as to how things could be further developed to offer a more accurate less confusing presentation of the various options in the theology of religions The standard threefold typology of responses to religious diversity exclusivism inclusivism and pluralism are explained and defended Hick's pluralist interpretation of religious diversity is traced culminating in a critical assessment of Hick's pluralistic model and an up to date summary of a variety of critiques directed toward Hick's proposal Paul Rhodes Eddy concludes that Hick's present model is ultimately unsuccessful in retaining both of his long cherished goals a robust religious realism and a consistent religious pluralism whilst overcoming the most difficult problem for the pluralist the fact that the world's religions understand the divine in often contradictory ways Civility, Religious Pluralism and Education Vincent Biondo, Andrew Fiala, 2013-12-17 This book focuses on the

problem of religious diversity civil dialogue and religion education in public schools exploring the ways in which atheists secularists fundamentalists and mainstream religionists come together in the public sphere examining how civil discourse about religion fits within the ideals of the American political and pedagogical systems and how religious studies education can help to foster civility and toleration *Science and Religion in Dialogue* Melville Y. Stewart, 2009-12-01 This two volume collection of cutting edge thinking about science and religion shows how scientific and religious practices of inquiry can be viewed as logically compatible complementary and mutually supportive Features submissions by world leading scientists and philosophers Discusses a wide range of hotly debated issues including Big Bang cosmology evolution intelligent design dinosaurs and creation general and special theories of relativity dark energy the Multiverse Hypothesis and Super String Theory Includes articles on stem cell research and Bioethics by William Hurlbut who served on President Bush's

Bioethics Committee The Journal of Religion , 1929 Includes section Book reviews **A Dictatorship of Relativism?**

Jeffrey M. Perl, 2007 In the last homily he gave before becoming Pope Benedict XVI Cardinal Joseph Ratzinger described modern life as ruled by a dictatorship of relativism which does not recognize anything as definitive and whose ultimate goal consists solely of satisfying the desires of one's own ego An eminent scholar familiar with the centuries old debates over relativism Ratzinger chose to oversimplify or even caricature a philosophical approach of great sophistication and antiquity

His homily depicts the relativist as someone blown about by every wind of doctrine whereas the relativist sticks firmly to one argument that human knowledge is not absolute. Gathering prominent intellectuals from disciplines most relevant to the controversy: ethics, theology, political theory, anthropology, psychology, cultural studies, epistemology, philosophy of science and classics, this special double issue of *Common Knowledge* contests Ratzinger's denunciation of relativism. One essay relates the arguments of Ratzinger to those of two other German scholars: the conservative political theorist Ernst Wolfgang Bockenforde and the liberal philosopher and sociologist Jürgen Habermas, since all three men assume that social order depends on the existence of doctrinal authority, divine or otherwise. The contributors here argue for an intellectual and social life free of the desire for an infantilizing authority. One proposes that the Christian god is a relativist who prefers limitation and ambiguity; another, initially in agreement with Ratzinger about the danger relativism poses to faith and morals, then argues that this danger is what makes relativism valuable. The issue closes with the first English translation of an extract from a book on Catholic-Jewish relations by Cardinal Carlo Maria Martini, one of the Catholic Church's most progressive figures. Contributors: David Bloor, Daniel Boyarin, Mary Baine Campbell, Lorraine Daston, Arnold I. Davidson, John Forrester, Kenneth J. Gergen, Simon Goldhill, Jeffrey F. Hamburger, Julia Kristeva, Carlo Maria Cardinal Martini, Christopher Norris, Joseph Cardinal Ratzinger, Richard Shusterman, Barbara Herrnstein Smith, Jeffrey Stout, Gianni Vattimo.

Inter-Religious Models and Criteria J. Kellenberger, 2016-07-27. This book is a collection of papers presented and discussed at the 1992 Claremont Conference. Its contributing authors come from various disciplines that share a concern with models and criteria for inter-religious understanding, including religious studies, philosophy of religion, theology, comparative studies, and feminist philosophy.

Fundamentalism vs Relativism in a Modern Society Julien Appier, 2016-09-22. Essay from the year 2015 in the subject Sociology/Religion, grade 1.7. University of Heidelberg, IUED course: *bersetzen als kulturwissenschaftliches Handeln I*. language: English. abstract: At first glance we seem to know what fundamentalism really means. We hear it on the radio, watch it on TV, and read about it in the newspaper. Fundamentalism is nowadays often connected to Islam or religion in general, often to terrorism. Nonetheless, the question remains: where does this word come from and what exactly does it mean? Relativism is another big word, often connected to philosophy and great thinkers of the past like Nietzsche. The problem with relativism is the same as with fundamentalism: It seems that there is no real answer to what fundamentalism or relativism actually refers to. Therefore, both of them are divided into several subcategories, and because of that, it is not possible to throw light on every little detail. For an example, one can visit the German Wikipedia entry about *Fundamentalismus*. English: fundamentalism. The authors of that entry started a discussion about how it should be written to make absolutely clear that it gets the true sense of fundamentalism. Even the English Wikipedia entry is not to everyone's satisfaction and lacks improvement. On the other hand, relativism at first sounds easy to understand, but it is hard to grasp. Mainly because it is rarely used, and for that reason, there are fewer sources for definitions than for fundamentalism. In the modern times, we are

living in now both of these movements one could almost say developed rapidly This is another reason for setting those two words in direct comparison but the outcome also depends on the sources available

The Captivating Realm of Kindle Books: A Detailed Guide Revealing the Advantages of E-book Books: A World of Convenience and Flexibility Kindle books, with their inherent portability and simplicity of availability, have liberated readers from the limitations of physical books. Gone are the days of lugging cumbersome novels or carefully searching for particular titles in bookstores. Relativism As Religion Introduction

In today's digital age, the availability of Relativism As Religion books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Relativism As Religion books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Relativism As Religion books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for

educational or professional purposes. By accessing Relativism As Religion versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Relativism As Religion books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Relativism As Religion books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Relativism As Religion books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Relativism As Religion books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Relativism As Religion books and manuals for download and embark on your journey of knowledge?

FAQs About Relativism As Religion Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer webbased readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone.
