**See No Evil** Fiorella De Maria, 2020-01-01 In this third title in the Father Gabriel Mystery series the detective priest is less than pleased to find himself the reluctant guest at a wealthy local family's Christmas party Only the excellent and probably black market food softens the horror of meeting the odious Victor Gladstone a veteran reporter an ardent anti clerical and the only witness to a wartime massacre no one wishes to hear about When Victor is found dead on the Martin estate the next morning the apparent victim of an unfortunate accident Gabriel is drawn into the mystery of who among the family's chattering guests could have wanted the old man dead Gabriel quickly realizes that Victor Gladstone like any good reporter had a nose for rotten behavior but as Gabriel's investigation moves towards its tragic conclusion he faces the not one but two serious questions Who is guilty of Gladstone's murder and Is anyone truly innocent This mystery focuses on the issue of indirect involvement in evil particularly buying and selling property stolen from victims of the Nazis and witnessing Nazi crimes      **Exhibiting War** Jennifer Wellington, 2017-09-21 What does it mean to display war Examining a range of different exhibitions in Britain Canada and Australia Jennifer Wellington reveals complex imperial dynamics in the ways these countries developed diverging understandings of the First World War despite their cultural political and institutional similarities While in Britain a popular narrative developed of the conflict as a tragic rupture with the past Australia and Canada came to see it as engendering national birth through violence Narratives of the war's meaning were deliberately constructed by individuals and groups pursuing specific agendas to win the war and immortalise it at the same time Drawing on a range of documentary and visual material this book analyses how narratives of mass violence changed over time Emphasising the contingent development of national and imperial war museums it illuminates the way they acted as spaces

in which official academic and popular representations of this violent past intersect

*Enabling Praxis*, 2008-01-01 In a range of professions professional practice today is under threat It is endangered for example by pressures of bureaucratic control commodification marketization and the standardisation of practice in some professions In these times there is a need for deeper understandings of professional practice and how it develops through professional careers *Enabling Praxis Challenges for education* explores these questions in the context of initial and continuing

professional education of teachers It presents a theory of the development of praxis morally committed action oriented by tradition to show the ways praxis is enabled and constrained by the cultural discursive material and social political conditions under which professional practice occurs It introduces the notion of practice architectures to show how particular conditions for practice shape the possibilities of praxis The way these processes work is illustrated by detailed exploration of a number of cases of praxis development in a variety of educational settings at a variety of levels in teacher education for schools and for vocational education and training in the continuing professional education of teachers in educational administration and in informal community based education for sustainability initiatives The book provides conceptual resources that permit deeper analysis of the character conduct and consequences of professional practice It concludes with challenges for education and for initial and continuing teacher education suggesting that the contemporary threats to education as a professional practice call for revitalisation of the profession professional bodies and the intellectual traditions that orient and guide educational practice

the WFA Roger Sarty director of Historical Research and Exhibit Development at the Canadian War Museum Christopher J Terry director Canada Science and Technology Museums and chair of the Aviation Museum Group of the International Association of Transportation Museums and Sidney F Wise professor emeritus in history and former dean of Graduate Studies and Research at Carleton University      The Taking of Vimy Ridge Carla-Jean Stokes,2025-10-07 The Taking of Vimy Ridge explores the life and works of William Ivor Castle a Canadian official First World War photographer known for staging and manipulating his photographs Castle shot more than 1000 photographs during his time as official photographer attached to the Canadian Corps and his iconic though sometimes manipulated scenes of war created a sensation at London s Grafton Galleries during the war But the remainder of his wartime oeuvre and Castle himself are less well remembered today The Taking of Vimy Ridge analyzes the unique relationship between Castle and the Canadian War Records Office and distinguishes several of Castle s never before identified manipulated works as he attempted to illustrate the Battle of Vimy Ridge one of Canada s most mythologized First World War battles to audiences around the world Drawing from Canadian and British archival records as well as Castle s complete body of work from the Battle of Vimy Ridge this richly illustrated book offers a much more expansive understanding of Castle s contribution to both war photography and our understanding of portrayals of the First World War including a close interpretation of the technical choices he made in framing his images and the context in which this oeuvre developed      Lifesavers and Body Snatchers Tim Cook,2022-09-13 WINNER OF THE 2023 OTTAWA BOOK AWARD SHORTLISTED FOR THE 2022 TEMPLER MEDAL FOR BEST BOOK From Canada s top war historian a definitive medical history of the Great War illuminating how the carnage of modern battle gave birth to revolutionary life saving innovations It brings to light shocking revelations of the ways the brutality of combat and the necessity of agonizing battlefield decisions led to unimaginable strain for men and women of medicine who fought to save the lives of soldiers Medical care in almost all armies during the Great War and especially in the Canadian medical services was sophisticated and constantly evolving Vastly more wounded soldiers were saved than lost Doctors and surgeons prevented disease from decimating armies confronted ghastly wounds from chemical weapons remade shattered bodies and struggled to ease soldiers battle haunted minds After the war the hard lessons learned by doctors and nurses were brought back to Canada A new Department of Health created guidelines in the aftermath of the 1918 1919 influenza pandemic which had killed 55 000 Canadians and millions around the world In a grim irony the fight to improve civilian health was furthered by the most destructive war up to that point in human history But medical advances were not the only thing brought back from Europe Lifesavers and Body Snatchers exposes the disturbing story of the harvesting of human body parts in medical units behind the lines Tim Cook has spent over a decade investigating the history of Canadian medical doctors removing the body parts of slain soldiers and transporting their brains lungs bones and other organs to the Royal College of Surgeons RCS in London England Almost 800 individual body parts were removed from the dead and sent to London where they were stored

treated and presented in exhibition galleries After being exhibited there the body parts were displayed in Canada This uncovered history has never been told before and is part of the hidden legacy of the medical war Based on deep archival research and unpublished letters of soldiers and medical personnel Lifesavers and Body Snatchers is a powerful narrative told in Cook s literary style which reveals how the medical services supported the soldiers at the front and forged a profound legacy in shaping Canadian public health in the decades that followed
