Relevance Lost The Rise And Fall Of Management Accounting:

Relevance Lost, 1991 Relevance Lost Harvard Business School Publishing, Harvard Business School Staff, 1991-03-01

Since its initial publication in 1987 *Relevance Lost* has gone through nine printings won two major awards from the accounting profession had a profound impact on how management accounting systems operate in the 1990s It has become a manifesto for managers in accounting control By exploring the evolution of management accounting in American business from the early textile mills to present day computer automated manufacturers Johnson Kaplan reveal why modern corporations must make major changes in the way they measure manage costs In a world of rapid technological change vigorous global domestic competition enormous information processing capabilities it is critical that managers receive information that is timely accurate relevant **Relevance Lost** H. Thomas Johnson, Robert S. Kaplan, 1987 Traces the history of the role of management accounting in business and argues that present management accounting systems have become obsolescent **Relevance Regained** H. Thomas Johnson, 2002-01-15 Building on his pathbreaking award winning bestseller *Relevance Lost* H Thomas Johnson presents a devastating critique of the top down hierarchical accounting systems that have dominated American corporations since the 1950s In *Relevance Regained* Johnson shows exactly how managing by remote control through results oriented accounting information has obstructed the real business objective to reduce process variation and lead times for the purpose of obtaining and keeping satisfied customers The failure of most American businesses to be competitive and profitable he contends is their reliance on management accounting information to control people s actions and productivity Cost focused imperatives from on high must be replaced Johnson asserts with information systems that link actions with imperatives of global competition Self managing work teams according to Johnson must own problem solving information to reduce variation delays and excess in processes Johnson prescribes the necessary changes in management principles that must replace the outdated style associated with the industrial revolution Responsiveness to customers not accounting costs and flexibility reducing lead times and removing constraints are necessary for sustained competitive excellence and long term profitability Johnson discusses the radical overhauls of companies such as General Electric s work outs best practices program and Harley Davidson s work simplification programs and shows how these strong commitments to new strategies maximize a company s most important assets people and time To be globally competitive he claims a company s work must be directed toward selling to customers not just selling products Relevance Lost Robert S. Kaplan, Thomas H. JOHNSON, 1987 Management accounting is vital to long term planning However in today s climate of rapid technological change vigorous global domestic competition the enormous expansion of information processing capabilities current management accounting systems are inadequate outdated In *Relevance Lost* H Thomas Johnson Robert S Kaplan both professors of management accounting combine their unique perspectives to describe the evolution of management accounting combine their unique perspectives to describe the evolution of management accounting in American

business from the early textile mills to present day computer automated manufacturers As they say understanding the reasons behind the obsolescence of existing systems should provide improved rationale for organizational change Johnson Kaplan argue that the use of outdated accounting methods may have helped undermine American manufacturers efforts to adapt to the rapidly changing competitive environment of the 1980s When management accounting systems report highly inaccurate product costs provide misleading targets for productivity efficiency efforts America s large decentralized corporations become vulnerable to smaller more focused competitors Ineffective management accounting systems can prevent companies from achieving gains through vertical integration diversification Today new management accounting developments taking place in leading American manufacturing firms show promise of reversing this trend Relevance Lost cites numerous cases of forward looking companies that are accomplishing just that Johnson Kaplan masterfully persuasively illustrate the need for modern corporations to reexamine their existing practices to redesign new management accounting systems Tomorrow s leaders will be those companies who have the foresight to lead management accounting back to the path of relevance from which it strayed over sixty years ago *Cost & Effect* Robert S. Kaplan,Robin Cooper,1998 *Cost and Effect* is written for the general manager and explains activity based costing systems It focuses on creating integrated knowledge based systems that provide managers with meaningful information not just data *Companion Encyclopedia of Science in the Twentieth Century* John Krige,Dominique Pestre,2013-11-05 With over forty chapters written by leading scholars this comprehensive volume represents the best work in America Europe and Asia Geographical diversity of the authors is reflected in the different perspectives devoted to the subject and all major disciplinary developments are covered There are also sections concerning the countries that have made the most significant contributions the relationship between science and industry the importance of instrumentation and the cultural influence of scientific modes of thought Students and professionals will come to appreciate how and why science has developed as with any other human activity it is subject to the dynamics of society and politics *Companion to Science in the Twentieth Century* John Krige,Dominique Pestre,2003 This work on science in the 20th century represents work in America Europe and Asia It includes such topics as the countries that have made the most significant contributions the relationship between science and industry and the importance of instrumentation *Science in the Twentieth Century* John Krige,Dominique Pestre,2013-11-19 With over forty chapters written by leading scholars this comprehensive volume represents the best work in America Europe and Asia Geographical diversity of the authors is reflected in the different perspectives devoted to the subject and all major disciplinary developments are covered There are also sections concerning the countries that have made the most significant contributions the relationship between science and industry the importance of instrumentation and the cultural influence of scientific modes of thought Students and professionals will come to appreciate how and why science has developed as with any other human activity it is subject to the dynamics of society and politics **Activity Based Costing for Indian Industries** N. of Cost Management Catherine Stenzel, Joe Stenzel, 2003-01-24 An accessible practical survey of cost management methods Essentials of Cost Management provides an unbiased survey and explanation of the cost management approaches and methods currently available for immediate application in day to day activities Rather than advocate a particular method this book assists readers in choosing the best approach or blend of cost management strategies to address specific business problems The expert authors also discuss cutting edge topics such as target costing capacity management and activity based costing management

Transforming the Bottom Line Tony Hope, Jeremy Hope, 1996 Transforming the Bottom Line shows how to achieve organizational transformation by cutting the workload not the work force developing a horizontal team based organization aligning performance measures with strategy and more This book is in its quiet but authoritative way revolutionary

Understanding Management Control and Organisational Sense-making Dr Krister Bredmar, 2016-07-29 Summary This book centres around three different areas management control organisations and information systems in order to understand what is actually going on and to make sense of management control questions Management control techniques used today could in many cases be traced back to industrialisation With the help of computerised information systems the speed and detail with which a manager could get a hold of important information has increased Today it has become even more important to be able to choose what information to work with and that the context in which it should be used is understood Organisational sense making is in many ways an interesting and important path to take in order to do this When working with the management control function it is important to understand the organisation where the work is undertaken One important part of the function is planning and another is control Both are needed in order for the management control function to work Performance is often a key ingredient when trying to find out what is working in a plan and what is not and here the understanding for information becomes necessary Since the work is done within an organisation both by managers and employees it is also crucial to find ways to work with not only models methods and techniques but also people and social dimensions Key Features Managers and employees want to act in a meaningful way in general The way planning and control is undertaken in an organization is to a large extent dependent on the way a manager interprets information about the organisation Decisions and actions can be traced to the interpretation of a situation in the past and present Since organisations are built on people it is important to try to understand why they act in a certain way and how their understanding of the organisation is evolving Management control has in many ways been described as a function that is dependent on different techniques and methods however it can also be described as a social process focusing on decisions and actions Informations systems have come to play a crucial role in managing an organisation especially when it comes to tracing performance The demand for responsible and accountable management has led to an increased emphasis on meaningful decisions and actions The Author Dr Krister Bredmar is associate professor at Linneaus University in Sweden He has for more then 20 years worked with management control and organisational sense making both in theory and in practice

His research has been published both in academic journals and in books Readership Scholars students and practitioners

Contents The accounting heritage Corporate epistemology Thinking ahead The essence of management control Understanding performance The control concept in management control Reports communication and stakeholders The essence of sense making Organisations as a set of social relations Information systems and management control Individuals and organisations Organisational structure A social perspective A decisions context Techniques and functions Thinking and acting strategically Accounting tools Information and knowledge The performance paradox *Managing Financial Resources* Mick Broadbent, John Cullen, 2012-05-04

Managing Financial Resources addresses the complicated issues of financial planning and control These include performance measures and cost analysis methods of improving profitability and techniques of financial monitoring and control Real examples and case studies are used throughout to illustrate points in a practical context All chapters have been updated and new material has been added to extend the original text in areas such as public sector management issues audit commission capital investment decisions stakeholder analysis for published reports and accounts performance measurement outsourcing new developments in the public sector and transfer pricing This book is based on the Management Charter Initiative s Occupational Standards for Management NVQs and SVQs at level 4 It is particularly suitable for managers on the Diploma in Management or part 1 of the Postgraduate Diploma especially those accredited by the Chartered Management Institute and Edexcel but this also a useful text for practicing managers and those individuals studying for a MBA
