Religion, Flesh, and Blood Pamela Leong, 2015-05-06 This is a case study of one congregation within the Unity Fellowship Church Movement that relies on therapeutic religion a form of religion that strives to equip individuals with psychological capital by enabling self expressions and affirmations of social differences The therapeutic ethic that characterizes this congregation has enabled some freedoms that are otherwise disallowed in traditional congregations These new freedoms inadvertently have led to certain excesses including overtly sexual language and behaviors But this is not to say that the congregation disregards conventional norms altogether or that therapy is used simply as an excuse for self indulgence Rather in spite of the occasional messiness that may arise there is something significant and deep about therapeutic religion For religious organizations serving traumatized and marginalized populations in particular therapeutic religion may be pivotal in helping to reintegrate the wounded back into the community folds
