

Religion Empire The Alliance Between P

Andrew Johnstone, Helen Laville

Religion Empire The Alliance Between P:

Empires of Religion H. Carey, 2008-11-13 A sparkling new collection on religion and imperialism covering Ireland and Britain Australia Canada the Cape Colony and New Zealand Botswana and Madagascar Bursting with accounts of lively characters and incidents from around the British world this collection is essential reading for all students of religious and imperial history *Colonial Search For A Southern Eden* Louis B. Wright, 2005-04-10 Colonial Search for a Southern Eden details how European imperialists began to dream of other kinds of wealth besides gold in the New World **The cities and bishoprics of Phrygia** Sir William Mitchell Ramsay, 1895 *Columbus and the Ends of the Earth* Djelal Kadir, 2023-09-01 Columbus is the first blazing star in a constellation of European adventurers whose right to claim and conquer each land mass they encountered was absolutely unquestioned by their countrymen How a system of religious beliefs made the taking of the New World possible and laudable is the focus of Kadir's timely review of the founding doctrines of empire The language of prophecy and divine predestination fills the pronouncements of those who ventured across the Atlantic The effects of such language and their implications for current theoretical debates about colonialism and decolonization are legion Kadir suggests that in this supposedly postcolonial era richer nations and the privileged still manipulate the rhetoric of conquest to justify and serve their own worldly ends For colonized peoples who live today at the ends of the earth the age of exploitation may be no different from the age of exploration Columbus is the first blazing star in a constellation of European adventurers whose right to claim and conquer each land mass they encountered was absolutely unquestioned by their countrymen How a system of religious beliefs made the taking of the New Wo Exile and Kingdom Avihu Zakai, 2002-08-22 This book explores the ideological origins of the Puritan migration to and experience in America

The Cities and Bishoprics of Phrygia: pt. I. The Lycos Valley and south-western Phrygia Sir William Mitchell Ramsay, 1895 **The Cities and Bishoprics of Phrygia** Ramsay, 1895 Writing North America in the Seventeenth Century Catherine Armstrong, 2016-12-05 Since the first permanent English colony was established at Jamestown Virginia in 1607 and accounts of the new world started to arrive back on the English shores English men and women have had a fascination with their transatlantic neighbours and the landscape they inhabit In this excellent study Catherine Armstrong looks at the wealth of literature written by settlers of the new colonies adventurers and commentators back in England that presented this new world to early modern Englishmen A vast amount of original literature is examined including travel narratives promotional literature sermons broadsides ballads plays and journals to investigate the intellectual links between mother country and colony Representations of the climate landscape flora and fauna of North America in the printed and manuscript sources are considered in detail as is the changing understanding of contemporaries in England of the colonial settlements being established in both Virginia and New England and how these interpretations affected colonial policy and life on the ground in America The book also recreates the context of the London book trade of the seventeenth century and

the networks through which this literature would have been produced and transmitted to readers This book will be valuable to those with interests in colonial history the Atlantic world travel literature and historians of early modern England and North America in general **The Cities and Bishoprics of Phrygia: pt. II. West and west-central Phrygia** Sir William Mitchell Ramsay,1895 **Lord for the Body** James Opp,2005-12-19 In the early 1920s English Canadians were captivated by the urban campaigns of faith healing evangelists Crowds squeezed into local arenas to witness the afflicted slain in the spirit casting away braces and crutches Professional faith healers although denounced by critics as promoting mass hypnotism gained notoriety and followers in their call for people to choose the Lord for the Body Race Thomas F. Gossett,1997-08-14 When Thomas Gossett s *Race The History of an Idea in America* appeared in 1963 it explored the impact of race theory on American letters in a way that anticipated the investigation of race and culture being conducted today Bold rigorous and broad in scope Gossett s book quickly established itself as a critical resource to younger scholars seeking a candid theoretically sophisticated treatment of race in American cultural history Here reprinted without change is Gossett s classic study making available to a new generation of scholars a lucid accessibly written volume that ranges from colonial race theory and its European antecedents through eighteenth and nineteenth century race pseudoscience to the racist dimension of American thought and literature emerging against backgrounds such as Anglo Saxonism westward expansion Social Darwinism xenophobia World War I and modern racial theory Featuring a new afterword by the author an introduction by series editors Shelley Fisher Fishkin and Arnold Rampersad and a bibliographic essay by Maghan Keita this indispensable book whose first edition helped change the way scholars discussed race will richly reward scholars of American Studies American Literature and African American Studies *1940-1946* Massimo Mastrogregori,2013-08-26 Annually published since 1930 the *International bibliography of Historical Sciences IBOHS* is an international bibliography of the most important historical monographs and periodical articles published throughout the world which deal with history from the earliest to the most recent times The works are arranged systematically according to period region or historical discipline and within this classification alphabetically The bibliography contains a geographical index and indexes of persons and authors *The US Public and American Foreign Policy* Andrew Johnstone,Helen Laville,2010-06-10 Though often overlooked public opinion has always played a significant role in the development and promotion of US foreign policy and this work seeks to comprehensively assess the impact and nature of that opinion through a collection of historical and contemporary essays The volume evaluates the role of organizations and movements that look to represent public opinion and assesses the nature of their relationship with the government The contributors utilize a number of different approaches to examine this impact including polling data assessments of the role of the media and the wider consideration of ideas and ideology moving on to examine the specific role played by the public in the policy making and policy promotion process Engaging with new questions as well as approaching old questions from a new angle the work argues that whilst the roles change and the extent

of influence varies the power of the public to both initiate and constrain foreign policy clearly exists and should not be underestimated This work will be of great interest to all those with an interest in American foreign policy American politics and American history **The Right of Protestant Dissenters to a Compleat Toleration Asserted** Samuel

Heywood,Capel Lofft,1789 **Communication in Eastern Europe** Fred L. Casmir,2012-12-06 This volume represents a clear attempt to learn something from the events in Eastern European countries It does not start with simplistic or old assumptions based on convenient Western communication models but instead takes a new approach If chaos theory could fundamentally change how physicists looked at order in the universe then it may be of value for communication scholars to attempt to understand the diversity of chaos or order in the human universe rather than attempt to force existing models on it for their own explanatory purposes This book is not merely based on the study of select groups of university students or on laboratory settings created in the minds of social scientists It seeks to understand some of the real world including the historical backgrounds and the theoretical assumptions brought to studies of intercultural conflicts Using personal and professional insights developed during firsthand contacts with existing situations chapter authors illustrate some of the realities by using the complexity of changes in Eastern European states during the final decade of the 20th century From education to business from the role of women to the role of mass media from the impact of political systems to the impact of history communication between those who are culturally diverse though they may have been arbitrarily forced to live under the same political roof is the theme of these scholarly studies The editor s reason for developing this volume of original essays is his belief that diversity rather than assumed similarity or even sameness based on the use of inadequate terminology is necessary for learning from contemporary human experiences He further believes that diversity and the significant roles of cultural values as well as of history need to become key concepts in the model with which to begin when it comes to the study of various aspects of intercultural communication It is therefore vital that scholars who represent various points of view and backgrounds contribute to that process After all understanding what is happening in the world is centrally anchored in or related to effective and successful intercultural communication between scholars who have different academic and personal backgrounds **The Great Powers and the Survival of the Liberal International Order** Ayabulela

Blakavu,2025-06-30 This scholarly monograph examines the sustainability of the Liberal International Order LIO by critically examining the conduct of the Permanent Five P5 members of the United Nations Security Council China France Russia the United Kingdom and the United States of America As principal custodians of global peace and security under the Charter of the United Nations the P5 s alignment or misalignment with the foundational principles of the LIO holds profound implications for its legitimacy and endurance Anchored in foreign policy analysis FPA and enriched by scenario building methodologies the research offers a rigorous empirically grounded assessment of how Great Power behaviour shapes the evolution and potential futures of international order By foregrounding the foreign policies of the P5 as key variables in

global governance trajectories the book provides an original contribution to scholarship on international relations multilateralism and institutional resilience This work will appeal to scholars of international relations global governance peace and security studies and those invested in the normative and structural futures of the international system in the 21st century and beyond The Tudor Occupation of Boulogne Neil Murphy, 2019-02-07 In 1544 Henry VIII led the largest army then ever raised by an English monarch to invade France This book investigates the consequences of this action by examining the devastating impact of warfare on the native population the methods the English used to impose their rule on the region from the use of cartography to the construction of fortifications and the development of English colonial rule in France As Murphy explores the significance of this major financial and military commitment by the Tudor monarchy he situates the developments within the wider context of English actions in Ireland and Scotland during the mid sixteenth century Rather than consider the plantations established in the mid sixteenth century Ireland as the laboratory for a new form of empire this book argues that they should be viewed along with the Boulogne venture as the English crown's final attempt to establish colonies through the use of state resources alone **Horae Apocalypticæ Vol. 4** E. B. Elliot, 2018-07-15 *Horae Apocalypticæ* is a commentary on the apocalypse critical and historical including also an examination of the chief prophecies of Daniel It is doubtless the most elaborate work ever produced on the Apocalypse Editors Note 2018 Quin Ed E B Elliot finished his great work about the year 1860 The nature of the Historicist method of interpretation is such that the line of fulfilled prophecy is continually moving with the passage of time The interpretation of which necessarily requires a certain amount of speculation which must be verified before accepted as true As well intentioned as many are the passage of time will overthrow the best of expositors on some points of which time would reveal to be mere speculation Though the bulk of Mr Elliot's work still stands the test of time time has unveiled a more likely or true interpretation on some points The editors herein have made some updates commensurate **Elements of International Law** Henry Wheaton, 1864 **George Sandys** James Ellison, 2002 The Caroline poet George Sandys had an exceptionally interesting early career as traveller and colonist this study of his work following his return to England sheds new light on the expression of religious and political moderation prior to the Civil War The poet George Sandys is one of the most interesting figures of the Renaissance period his life and career encompassing a number of varied aspects As a colonialist leader in Virginia he and his colleagues pursued a lenient policy towards the Indians which nearly cost the colony its existence Returning to England and settling at Great Tew along with other poets such as William Chillingworth and Lord Falkland he won limited favour at the Caroline court although he was loyal to the king and adopted a richly Laudian style for his religious verse he was implacably opposed to the divisive and confrontational policies of the Laudian church and became an increasingly outspoken critic of absolutist government His last work a translation of a Latin religious play by Hugo Grotius was the first in a series of literary attacks by moderate Royalists on Archbishop Laud This book the first recent examination

of his life and work sheds new light both on an unjustly neglected figure and on the literature of religious and political moderation prior to the Civil War JAMES ELLISON is Honorary Research Fellow at the University of Strathclyde
