Autobiography of a Genius Jacob Levy Moreno, 2019-02-16. J L Moreno writes Being a genius does not consist only of having ideas. This is essential but is a far later phase of genius. Being a genius starts with a feeling of being in contact with the whole universe a feeling of totality being fed by it free of charge and feeding it gratefully in return. In this book the presentation of his life vision and life's work Moreno gives countless portals for the opening of contact with the whole universe to a feeling of totality. This totality is what motivated him and has also motivated the editor for much of his life. The direct felt experience of this totality is at the center of religious existential and spiritual traditions and in this book we have an uncloaked method for the same enlightenment process. The totality and wholeness of life can be found in the enactment of Moreno's method. What can be greater than to really live this and to give it to others. Love In Cornwall Alan Potter, 2023-10-13 It was purported that Christopher Hitchens a journalist first used the phrase that everyone has a book in them If that is the case then this is mine Whether it is good or bad is for others to judge This book was written during the first UK lockdown in 2020 as a means of keeping the brain active It quickly led on to a second book not yet published and prompted a third not yet completed It is not a police procedural nor is it autobiographical but stems purely from the author's imagination The book reflects the author's love of Cornwall and is set almost exclusively in that county It also encompasses the love of a newly found sister and the love for and of a newly found lover The theory of Karma suggests that what happens to a person happens because they caused it with their own actions

That sums up the climax of the book
